Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that Chester County maintains public hospital facilities operated by the Chester County Hospital Board of Chester County created by Act No. 365 of 1947, as amended, and that increased public use requires their expansion. Certain moneys for that purpose were temporarily obtained through a loan made to Chester County by the State Sinking Fund Commission pursuant to Act No. 508 of 1961. It is desirable that such loan be retired and the debt now evidenced thereby be repaid over a period of time. To that end the General Assembly has decided to empower the County Board of Directors of Chester County (hereinafter called the County Board) to issue two hundred fifty thousand dollars of general obligation bonds of Chester County.

**SECTION 2. Chester County may issue bonds for hospital facilities.**—In order to provide funds therefor, the County Board is hereby authorized to issue general obligation bonds of Chester County in an amount not exceeding two hundred fifty thousand dollars whose proceeds shall be used to first pay and retire the principal and interest of any temporary debt of Chester County incurred for hospital facilities and to provide funds for additional hospital facilities for Chester County.

**SECTION 3. Denominations and maturity.**—All bonds issued pursuant to this act shall be in such denominations and shall mature in such annual series or installments as the County Board shall provide for, except that the first maturing bonds shall mature not later than five years from the date as of which they shall be issued, and no bond shall mature later than twenty-five years from the date as of which it shall be issued.

**SECTION 4. Redemption.**—Any bond issued pursuant to this act may be issued with a provision for its redemption prior to its stated

maturity, at par and accrued interest, plus such redemption premium as may be prescribed by the County Board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given.

**SECTION 5. Form.**—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Chester County, upon such conditions as the County Board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have the attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 6. Where payable.**—The bonds issued pursuant to this act shall be made payable at such place, within or without the State, as the County Board shall prescribe.

**SECTION 7. Interest.**—Bonds issued pursuant to this act shall bear interest at rates determined by the County Board.

**SECTION 8. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the County Board shall, by resolution provide.

**SECTION 9. Sale.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold at public sale after advertisement of the sale in a newspaper of general circulation in South Carolina, which published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 10. Payment.**—For the payment of the principal and interest of the bonds issued pursuant to this act, as the same respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Chester County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Chester County, and collected by the Treasurer of Chester County, in the same manner as county taxes are levied and collected, a tax without limit, on all taxable property in the county, sufficient to pay the principal of and interest on the bonds as they respectively mature, and to create such sinking fund as may be necessary therefor.

**SECTION 11. Exempt from taxes.**—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 12. Proceeds.**—The proceeds derived from the sale of the bonds shall be paid to the Treasurer of Chester County, to be deposited in a bond account fund for the County Board, and shall be expended and made use of as follows:

(a) All accrued interest shall be applied to the payment of the first instalment of interest to become due on the bonds.

(b) Any premium received upon the sale of the bonds shall be applied to the payment of the first instalment of principal of the bonds.

(c) The remaining proceeds shall be used, upon the warrant or order of the County Board to defray the costs of issuing the bonds authorized hereby, to pay and retire the principal and interest of borrowings made for hospital facilities, pursuant to Act 508 of 1961.

(d) Any balance that remains shall be used, upon the warrant or order of the County Board, for additional public hospital facilities in Chester County.

**SECTION 13. Powers to be additional.**—The powers and authorizations hereby conferred upon the County Board shall be in addition to all other powers and authorizations previously vested in them, and may be exercised by action taken at regular or special meetings. The compliance with the provisions of this act shall constitute all action necessary to effect the valid issuance and delivery of the bonds authorized hereunder.

**SECTION 14. Time effective.**—This act shall take effect upon approval by the Governor.

**SECTION 2.** All moneys which may hereafter come into the hands of the treasurer whether the same be from the tax levied herein or from other sources shall be deposited in the general fund of the county for the payment of the sums appropriated herein; *provided*, that the tax levied in School District No. 3 for the retirement of debts or bonds shall be kept in a separate fund.

**SECTION 3.** Expenditures from Item (k), Charity Hospitalization Appropriations, shall be made by the county treasurer upon orders or warrants in such forms as may be prescribed by him issued and signed in behalf of the county board of public welfare, for charity hospitalization and contributions toward the funeral expenses of such needy residents of the county whose financial circumstances and the ability of whose relatives to pay the same have been fully investigated and determined by the board of public welfare.

**SECTION 4.** All appropriations herein made are subject to the right and authority of the Clarendon County Delegation to change, alter, increase or deduct therefrom at any time without notice, when in its judgment such change, alteration, increase or deduction is necessary for the best interest of the county or to conform with the revenue expected during the life of this act. This act is intended and is construed to make appropriations for the operation and activities of Clarendon County for the period beginning July 1, 1963, and ending June 30, 1964.

The supervisor and treasurer are hereby authorized to borrow money in anticipation of collection of revenues to be ex-

pended under this act, not to exceed twenty thousand dollars for ordinary county purposes; and for any sum or sums so borrowed and interest thereon, not to exceed four per cent per annum, the officers shall issue the promissory note or notes of the county therefor and as a security for the payment thereof pledge the aforementioned revenues, and former years' (uncollected) property taxes and any and all other county revenues, and the full faith and credit of the county.

**SECTION 5.** The County Treasurer of Clarendon County, upon the unanimous written request of the school trustees of any school district in the county, endorsed by the superintendent of education of the county and approved by the Clarendon County Legislative Delegation, is hereby authorized and empowered, in anticipation of taxes for the year 1963-64 and also in anticipation of the collection of uncollected taxes for prior years, to borrow for ordinary school purposes in such school district an amount not exceeding eighty per cent of the amount that will be raised by the tax levy for the year 1963-64 and the amount due on account of uncollected taxes, at a rate of interest not to exceed four per cent, and issue the promissory note or other obligation of the county therefor, and as security for the payment of the loan or loans to pledge the taxes to be collected for each school district for the year; *provided*, that the proceeds arising from the authority herein given shall be used solely for the payment of ordinary school expenses in keeping schools open in the respective school districts in the county until the schools can realize from the collection of taxes.

**SECTION 6.** Any note or obligation given for an amount exceeding the total authorization herein shall be null and void unless authorized in writing by the Clarendon County Legislative Delegation in the General Assembly. No county officer charged with disbursing the funds herein provided shall expend or contract to spend under any general item any sum greater than the amount for each general item being appropriated, without the written consent of the Clarendon County Legislative Delegation. Any violation of the provisions herein is hereby declared a malfeasance in office and such officer shall be subject to removal by the Governor upon the recommendation of the delegation. He shall be liable on his official bond for all such sums expended or contracted to be spent in excess of the appropriation without first getting the written consent of the delegation as hereinabove provided.

All printing, postage and stationery shall be first approved by the county board of commissioners before purchases or obligations are made.

**SECTION 10.** In the event that any appropriation item is exhausted before the end of the fiscal year covered by this act, and in the opinion of the county board or county legislative delegation, additional funds are necessary for such purposes, the necessity and the grounds therefor may be presented to the county legislative delegation and the members thereof may authorize additional expenditures, and the written direction of said delegation will authorize the county treasurer to pay such excess amounts out of any available funds in his hand.

**SECTION 11.** Whenever it appears to the county board that a purchaser at a tax sale received nothing for his bid, because of double entries or other errors in the county records, it may refund the amount paid on account of such bids by approving a claim therefor against the county which may be paid from collections from forfeited lands or from the appropriation herein for contingent expenses, but nothing herein shall be construed as a warrant or representation by the county of the validity of any title acquired at tax sale now or hereafter.

**SECTION 12.** An audit of the office and records or any part thereof of the county may be had at any time in the fiscal year 1963-64 by the county legislative delegation and the expenses therefor paid on their written order to the supervisor and treasurer from any available funds in the hands of the latter.

The board of county commissioners shall be responsible upon their respective official bonds for any violation hereof as for any other failure in the performance of their duties.

**SECTION 15.** The Towns of Manning, Summerton, Turbeville and Paxville may use the county jail for the confinement of their prisoners but shall be required to pay to the county the sum of one dollar per prisoner per day, which sum shall be remitted to the county board of commissioners monthly by the Towns of Manning, Summerton, Turbeville and Paxville, together with the statement of the jailor of the names of the prisoners and the days each was confined.

**SECTION 16.** The county board of education shall appoint a qualified auditor annually for each of the school districts in Clarendon

County, which audit shall be filed with the clerk of court. The trustees of each district shall make an agreement with the auditor so appointed as to the cost prior to commencement of the work and should they fail to agree then the county shall fix his compensation and in this event the county delegation may provide by written order for the payment of the same.

**SECTION 17.** All appropriations herein for the operation of the public school system shall cease and become inoperative for the time that any pupil or pupils shall by order of any court attend a school other than that which he or she is now attending or may be assigned by local board of trustees or other governing body of such school. This provision shall not in any way affect the operation of any school other than the schools affected by such court order.

No. 508

**An Act To Authorize The County Board Of Directors Of Dorchester County To Issue And Sell Not Exceeding One Hundred Forty Thousand Dollars Of General Obligation Bonds Of Dorchester County; To Prescribe The Purposes For Which The Bonds Shall Be Issued; To Make Provision For The Payment Of The Bonds; And To Repeal Act No. 1089 Of 1962, Relating To The Issuance Of One Hundred Thousand Dollars Of General Obligation Bonds Of Dorchester County.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Act No. 841 of the Acts of 1962, now in the process of amendment by legislation enacted *in pari materia*, there has been created and is in existence the Area Commission for the Charleston Technical Education Center (the Area Commission). The Area Commission has been created in order that the Counties of Berkeley, Charleston and Dorchester may cooperate with the program instituted by Article 7, Chapter 15, Title 21, of the 1962 Code.

The General Assembly further finds that there is an immediate need that such program be instituted promptly for the area affected.

Under the provisions of the State program it is required that co-operating counties furnish the physical facilities necessary to implement the program, and thereafter supervise and maintain them. Surveys conducted indicate that a suitable building, or buildings, with appropriate facilities and equipment, located in a convenient place, are necessary before the State program can begin to function in Berkeley, Charleston and Dorchester Counties. The General Assembly has, therefore, determined to empower the County Board of Directors of Dorchester County, as the governing agency of Dorchester County, to issue general obligation bonds of Dorchester County, to the extent herein provided, in order to provide Dorchester County's share of the funds required for the construction and equipping of suitable facilities. In so determining, the General Assembly has found that the basic purpose of the program is to educate, in technical and vocational fields, those to whom the program will become available, and that the purpose of the expenditure is educational and is, therefore, one which counties are authorized to undertake pursuant to Section 6, of Article X of the Constitution of South Carolina.

**SECTION 2. Dorchester County may issue bonds for technical educational facilities.**—In order to provide funds to be expended by the Area Commission for the acquisition of a suitable site and the construction and equipping thereon of appropriate facilities, the County Board of Directors of Dorchester County (the County Board) is hereby authorized and empowered to issue and sell general obligation bonds of Dorchester County in an aggregate principal amount not exceeding one hundred forty thousand dollars.

**SECTION 3. Issue.**—The bonds authorized by this act may be issued as a single issue, or from time to time as several separate issues.

**SECTION 4. Denominations.**—The bonds shall be in such denominations and shall mature in such annual series or instalments as the County Board shall provide for, except that the last maturing bonds shall mature not later than twenty years from the date as of which the bonds shall be issued.

**SECTION 5. Redemption.**—The bonds issued pursuant to this act may be issued with a provision for their redemption prior to their stated maturities at par and accrued interest, plus such redemption premium as may be prescribed by the County Board, but no bond shall be redeemable before maturity unless it contains a statement to

the effect. If bonds are made subject to redemption, provision shall be made in the proceedings authorizing the issuance of the bonds, specifying the manner of call and the notice thereof that must be given.

**SECTION 6. Form.**—The bonds shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Dorchester County, upon such conditions as the County Board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 7. Where payable.**—The bonds issued pursuant to this act shall be made payable at such places, within or without the State, as the County Board shall provide.

**SECTION 8. Interest.**—Bonds issued pursuant to this act shall bear interest at rates determined by the County Board.

**SECTION 9. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the County Board shall by resolution provide.

**SECTION 10. Sale.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. The published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 11. Payment.**—For the payment of the principal and interest of all bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Dorchester County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Dorchester County, and collected by the Treasurer of Dorchester County, in the same manner as county taxes are levied and collected, a tax without limit on all taxable property in Dorchester County, sufficient to pay the principal and interest of such bonds as they respectively mature, and to create such sinking fund as may be necessary therefor.

**SECTION 12. Exempt from taxes.**—The principal and interest of any bonds issued pursuant to this act shall have the tax exempt status prescribed by Sections 65-4.1 and 65-1522 of the 1962 Code.

**SECTION 13. Proceeds.**—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of Dorchester County, and shall be deposited in a bond account fund, and shall be expended and made use of as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be expended, on the warrant of the Area Commission, to defray the cost of issuing the bonds authorized hereby, and to pay the costs incurred in the acquisition, construction and equipping of facilities of the sort described in Section 1.

(d) If any balance remain, it shall be held by the Treasurer of Dorchester County in a special fund and used to effect the retirement of bonds authorized hereby.

**SECTION 14. Powers to be additional.**—The powers and authorizations hereby conferred upon the County Board shall be in addition to all other powers and authorizations previously vested therein and may be exercised either independently of or concurrently with comparable action authorized for the governing agencies of Berkeley and Charleston Counties, who by legislation enacted *in pari materia* have been authorized to issue bonds to provide the respective shares of those counties of the cost of the program contemplated by this act.

**SECTION 15. Act 1089 of 1962 repealed.**—Act No. 1089 of the Acts of the General Assembly for 1962 is hereby repealed.

**SECTION 16. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 4th day of April, 1963.

**An Act To Authorize The Governing Board Of Florence County To Issue General Obligation Bonds Of The County, Not To Exceed One Million Dollars, For The Construction Of County Roads; To Provide That Such Roads Shall Be Constructed By The State Highway Department Pursuant To A Contract Of Reimbursement To Be Made Between The Governing Board And The State Highway Department; To Prescribe The Conditions Under Which Such Bonds Are To Be Issued And The Reimbursement Contract May Be Made; And To Provide For The Payment Of The Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Section 65-1075 of the 1962 Code provision was made for the continuance of the so-called Farm-to-Market or State Secondary Highway program for the period to end June 30, 1972, and that it was therein provided the method by which funds available for such purpose should be apportioned among the counties of the State.

Pursuant to such program, funds were made available for Farm-to-Market Roads in Florence County for the fiscal year ending June 30, 1962, in the amount of two hundred thirty-five thousand two hundred dollars, and it is to be reasonably anticipated that during each fiscal year throughout the period to end June 30, 1972, further substantial apportionments will be made.

In Florence County it has been determined that an immediate need exists for further Farm-to-Market Roads, and that the Governing Board of Florence County as established by Chapter 37, Title 14, Volume 3, of the 1962 Code, (hereinafter called the "Board"), should be empowered to raise not exceeding one million dollars and to make such sum available to the State Highway Department which, in turn, should apply the same to the construction of the most-needed county roads in Florence County, which have been transferred to and thus become a part of the State's Secondary Highway System (Farm-to-Market Roads).

**SECTION 2. Florence County may issue bonds for road construction.**—If a suitable agreement can be reached between the Board and the State Highway Department providing that the State Highway Department shall construct Farm-to-Market Roads in Florence County to an extent mutually agreed upon and divert moneys which would otherwise be expended in future years for Farm-to-Market Roads in Florence County, to the extent estimated to be necessary to meet the payment of the principal of the bonds herein authorized, the Board is authorized to issue general obligation bonds of Florence County to the extent not to exceed one million dollars.

**SECTION 3. Issue.**—The bonds authorized by this act shall be issued as a single issue or from time to time as separate issues.

**SECTION 4. Maturity.**—All bonds issued pursuant to this act shall mature in such annual series or instalments as the Board shall provide,

except that the first maturing bonds of any issue shall mature not more than two years from the date which they shall be issued; not less than three per cent of any issue shall mature in any year; and no bond shall mature later than June 30, 1972.

**SECTION 5. Redemption.**—Any bond issued pursuant to this act may be issued with a provision for its redemption prior to its stated maturity at par and accrued interest, plus such redemption premium as may be prescribed by the Board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call for redemption, if any, and the notice thereof that must be given.

**SECTION 6. Form.**—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Florence County, upon such conditions as the Board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 7. Where payable.**—The bonds issued pursuant to this act shall be made payable at such places, within or without the State, as the Board shall provide.

**SECTION 8. Interest.**—Bonds issued pursuant to this act shall bear interest at rates determined by the Board.

**SECTION 9. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the Board shall by resolution prescribe.

**SECTION 10. Sale.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 11. Payment.**—For the payment of the principal and interest of all bonds issued pursuant to this act as the same respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Florence County

shall be irrevocably pledged, and there shall be levied annually by the Auditor of Florence County, and collected by the Treasurer of Florence County, in the same manner as county taxes are levied and collected, a tax without limit, on all taxable property in Florence County, sufficient to pay the principal and interest of such bonds as they respectively mature and to create such sinking fund as may be necessary therefor; *provided*, that the ad valorem tax levy shall be reduced to the extent that there has been deposited with the county treasurer moneys derived from the apportionment herein authorized, on the occasion in each year when the ad valorem tax levy is to be made, and in all instances where an annual tax levy is so reduced, the moneys derived from such apportionment shall be applied to the payment of such principal and to no other purpose.

**SECTION 12. Exempt from taxes.**—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 13. Proceeds.**—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of Florence County, and shall be deposited in a bond account fund and shall be expended and made use of by the Board as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be first applied to the expenses incident to the issuance of the bonds, and so much as remains thereafter shall be turned over to the State Highway Department and applied by it on Farm-to-Market Roads in Florence County.

**SECTION 14. Reimbursement by Highway Department.**—The State Highway Department is hereby authorized to reimburse Florence County for all moneys turned over to the Highway Department by Florence County pursuant to Section 13(c) of this act. This reimbursement shall be made in annual instalments (in amounts not exceeding the annual debt service on the bonds to be issued by Florence County) out of the apportionment of funds accruing to Florence County under the State Highway Department's Farm-to-Market Construction Program and by reason of the statute, if so much thereof shall accrue to Florence County. The State Highway Department shall not be obligated to the repayment

to Florence County for any instalment due under its Reimbursement Agreement unless sufficient amounts for such instalments shall accrue to Florence County under the State Farm-to-Market Construction Program. The State Highway Department shall not be required to pay any interest to Florence County for funds turned over to the department pursuant to the provisions of this act. If, during any year hereafter, the apportionment to which Florence County is entitled exceeds the sum required to meet the annual installment of principal or interest of the bonds in that year, then such excess shall be applied by the State Highway Department as if no reimbursement agreement had been entered into.

**SECTION 15. Powers to be additional.**—The powers and authorizations conferred upon the Board and the State Highway Department shall be in addition to all other powers and authorizations previously vested in them.

**SECTION 16. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 22nd day of March, 1963.

**An Act To Authorize Wade Hampton Water And Sewer District In Greenville County To Issue Not Exceeding One Million Nine Hundred And Fifty Thousand Dollars Of General Obligation Bonds Of The Districts; To Prescribe The Terms And Conditions Upon Which The Bonds May Be Issued And Their Proceeds Expended, And To Provide A Tax Levy For Their Payment.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that heretofore by Act No. 854 of 1954 Wade Hampton Water and Sewer District, in Greenville County, South Carolina was created, and that it was therein provided that the district should be operated, managed and governed by a commission to be known as Wade Hampton Water and Sewer District Commission. It was likewise provided that the functions of the district should be the construction, operation and maintaining of a water distribution system, a sewer system, a system for the collection and disposal of garbage and a system for fire protection. The act authorized the issuance of general obligation bonds of the district in the principal amount of four hundred thousand dollars if the election required by the act resulted favorably.

The election prescribed by the act was held, resulted favorably, and pursuant to the authorizations of the act four hundred thousand dollars of bonds were issued and the proceeds used principally to pay the cost of establishing a water distribution system for the district.

The district, whose territory remains the same as originally set forth in the act, has continued to grow and general provision for sewage disposal is required. Engineers have been employed, who estimate that the cost of constructing adequate sewage disposal facilities will require an expenditure of one million nine hundred and fifty thousand dollars.

Heretofore, in order to obtain an expression from the electors in the district, the Commissioners of Election for Greenville County submitted to all qualified electors in the general election held on November 6, 1962, the following question: "Shall the Wade Hampton Water & Sewer District issue General Obligation Bonds of the District in a sum not to exceed \$1,950,000 to construct and establish a sewerage system in said District?" While the election so held was not authorized by statute, an aggregate of one thousand five hundred and eighty-three persons voted upon the question so submitted, of whom one thousand three hundred and fifty-four voted in favor, while two hundred twenty-nine voted against. The General Assembly is satisfied that the vote so taken reflects an adequate expression on the part of the qualified electors of the district and has, therefore, determined to make provision for the issuance of bonds of the district in the additional principal amount of one million nine hundred fifty thousand dollars without imposing as a condition precedent to their issuance the holding of an election.

**SECTION 2. Wade Hampton Water and Sewer District Commission may issue bonds.**—In order to obtain funds to be used for the purpose of constructing and acquiring adequate sewage disposal facilities in the district, Wade Hampton Water and Sewer District Commission is hereby authorized to issue, either as a single issue, or from time to time as several separate issues, not exceeding one million nine hundred fifty thousand dollars of general obligation bonds of the district.

**SECTION 3. Dates — maturity — where payable — redemption.**—The bonds shall bear such date as the commission shall determine and any issue or series thereof shall mature in such equal or unequal annual instalments as may be determined by the commission, except that the first maturing bonds of any issue or series shall mature not later than five years from their date of issue and the last maturing bonds of any issue or series shall mature not later than thirty-five years from their date of issue. They shall be made payable at such place as the commission shall prescribe and

shall bear interest at such rate, payable semiannually, as the successful bidder at any sale thereof shall name; *provided*, that no rate of interest borne by any bond shall be in excess of five per cent. The bonds may be issued with the privilege to the holder of having them registered as to principal by the Treasurer of Greenville County, and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, upon such conditions as the commission may prescribe. Any bond issued pursuant to the provisions of this act may be made subject to redemption prior to its stated maturity on such terms and conditions and with such redemption premium as the commission shall prescribe.

**SECTION 4. Sale.**—All bonds issued pursuant to this act shall be sold at not less than par and accrued interest to the date of their respective deliveries and may be sold at public or private sale in the discretion of the commission.

**SECTION 5. Exempt from taxes.**—The principal and interest of all bonds issued pursuant to this act shall have the tax exempt status prescribed by Sections 65-4.1 and 65-1522 of the 1962 Code.

**SECTION 6. Execution.**—The bonds shall be executed in the name of Wade Hampton Water and Sewer District by the chairman of the commission and the Treasurer of Greenville County, under the seal of the commission. The coupons attached to the bonds shall be authenticated by the facsimile signatures of the chairman and the county treasurer who are in office on the date of the bonds. The delivery of any bonds so executed and authenticated shall be valid notwithstanding any changes in officers or seal occurring after execution or authentication.

**SECTION 7. Payment.**—For the payment of the bonds, both principal and interest, as they respectively mature, the full faith, credit, resources and taxing power of Wade Hampton Water and Sewer District shall be pledged, and there shall be levied and collected by the Auditor and Treasurer of Greenville County, respectively, an ad valorem tax upon all taxable property in Wade Hampton Water and Sewer District, without limitation as to rate or amount, sufficient to pay the interest on the bonds and the bonds as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at respective maturities. The taxes, when so levied and collected, shall be held by the county treasurer

separate and distinct from all other funds and used solely for the purposes for which levied and collected under the terms of this act.

**SECTION 8. Proceeds.**—The proceeds derived from the sale of these bonds shall be deposited with the county treasurer in a special fund separate and distinct from all other funds and shall be expended upon the order of Wade Hampton Water and Sewer District Commission for the following purposes and for no other :

(1) The accrued interest, if any, shall be applied to meet the first instalment of interest to become due on the bonds.

(2) The premium received, if any, shall be applied to the payment of the first instalment of principal to become due.

(3) The principal proceeds shall be applied to: (a) the cost of issuing the bonds; and (b) the cost of constructing and acquiring adequate sewage disposal facilities in the district.

**SECTION 9. Powers to be additional.**—The power and authority hereby conferred upon the commission shall be in addition to all presently existing power and authority and not in abrogation thereof, and the action herein authorized shall not require the approval of any other agency or commission.

**SECTION 10. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 12th day of March, 1963.

**An Act To Modify The Territorial Limits Of Mauldin-Simpsonville-Fountain Inn Water District In Greenville And Laurens Counties By Eliminating Therefrom Certain Areas Now Annexed To The City Of Greenville Or Isolated From The District By Such Annexation And The Construction Of Super-Highway I-85, And To Empower Mauldin-Simpsonville-Fountain Inn Water District To Sell To The Commissioners Of Public Works Of The City Of Greenville Portions Of Its Water Distribution System Now Lying Within Such Areas, And To Prescribe The Terms And Conditions Upon Which Such Sale May Be Effected.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Act No. 559 of 1951 Mauldin-Simpsonville-Fountain Inn Water District in Greenville and Laurens Counties was created (the District) for the purpose of constructing, operating and maintaining a water distribution system. It now finds that a portion of the District has been annexed to the City of Greenville

and that three small portions of the District have been isolated from the District by such annexation and by the construction of superhighway I-85, and that the needs for water of those persons living in such areas would be better met if served by the Commissioners of Public Works of the City of Greenville (the Commissioners). It proposes to modify the territorial limits of the District by eliminating therefrom both the areas isolated from the District by the annexation referred to and by superhighway I-85, and to authorize the District to sell to the Commissioners on terms and conditions to be mutually agreed upon, those portions of the system of the District now lying within the corporate limits of the City of Greenville, as well as those portions of the District's system located in the other areas mentioned above.

**SECTION 2. Mauldin-Simpsonville-Fountain Inn Water District may sell portion of its system to City of Greenville.**—The District is authorized to sell to the Commissioners those portions of the District's system now lying within the corporate limits of the City of Greenville, and those portions of the District's system lying in any of the three areas referred to above, upon such terms and conditions as shall be mutually agreed upon, which shall include undertakings by the Commissioners to serve the areas of the District annexed to the City of Greenville and the areas isolated from the District above referred to.

**SECTION 3. Proceeds.**—All proceeds derived by the District from the sale of those portions of its system sold to the Commissioners, after paying all costs and expenses incident thereto, shall be used to effect the redemption of outstanding bonds of the District, and pending action by the District to effect the call and redemption of outstanding bonds, shall be deposited with the Paying Agent of said bonds in a special trust applicable solely to the payment of the principal and redemption premium of bonds of the District heretofore issued for the purpose of constructing the system of the District.

**SECTION 4. Certain areas eliminated from District.**—The territorial limits of the District, as defined by Section 2 of Act No. 559 of the 1951 Acts, are hereby modified by eliminating the following areas, all of which are set forth and delineated on a map prepared by Piedmont Engineering Service, Greenville, South Carolina, entitled "North Index Map of Mauldin-Simpsonville-Fountain Inn Water District, Greenville and Laurens County, South Carolina":

(1) The area marked (A) on the aforesaid map, which was annexed to the City of Greenville;

(2) The area marked (B) on the aforesaid map, which was isolated from the District by virtue of the annexation of area (A) to the City of Greenville; and

(3) The areas marked (C) and (D) on the aforesaid map, which have been isolated from the District by the annexation aforesaid and by the construction of superhighway I-85.

**SECTION 5. Map to be filed.**—Prior to the conveyance by the District to the Commissioners, copies of such map shall be filed in the offices of the auditor and treasurer of Greenville County.

**An Act To Validate An Election Held In The School District Of Greenville County, Upon The Issuance Of Not Exceeding Twelve Million Dollars Of Bonds, And To Authorize Further Action By The Board Of Trustees Of The School District To Effect The Issuance Of Such Bonds, And To Make Further Provision For The Expenditure Of The Proceeds Of The Bonds And The Payment Thereof.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that the Board of Trustees of The School District of Greenville County, acting in accordance with the provisions of the School Bond Act, Sections 21-971 to 21-990, of the 1962 Code, did heretofore order a special election which was held in the school district on Tuesday, March 12, 1963, and at which there was submitted to the qualified electors of the school district the following question: "Shall the Board of Trustees of The School District of Greenville County, the State of South Carolina, be empowered to issue and sell, either as a single issue, or from time to time, as several separate issues, general obligation bonds of said School District in the principal amount of not exceeding Twelve Million Dollars (\$12,000,000) for constructing, improving, equipping, renovating

and repairing school facilities, and acquiring sites for school facilities?"

The General Assembly further finds that the election resulted favorably upon the question submitted by a vote of six thousand two hundred and six to one thousand four hundred ninety-two, and that, while no irregularities in its holding have so far been brought to light, it is desirable that the results of the election be validated and confirmed, in order that the board of trustees may forthwith undertake the marketing of the bonds thus authorized under most advantageous conditions.

The General Assembly has therefore determined to declare the election a valid expression of the qualified electors of the school district, which satisfactorily removes the condition precedent to the issuance of bonds pursuant to the School Bond Act, and vests in the board of trustees power to issue bonds to the extent therein authorized, but within applicable constitutional debt limitations, and to expend the proceeds for constructing and equipping such further additional public school facilities within the school district as the board of trustees, in its discretion, shall determine.

**SECTION 2. Election validated.**—It is hereby found and determined that the election held in the school district on March 12, 1963, resulted favorably. The result of the election is hereby validated in all respects, notwithstanding any irregularity that may have occurred in the ordering of the election, the advertisement thereof, or in conducting the same. It is expressly declared that the election discharges the condition precedent to further action by the board of trustees to issue bonds pursuant to the School Bond Act to the extent authorized by the election and permitted by applicable constitutional debt limitations, and the board of trustees is hereby specifically authorized and empowered to forthwith proceed in the manner provided by the School Bond Act to effect the sale of bonds authorized by the election, or so much thereof as may be within the applicable constitutional limitations on the occasion of the issuance of any of such bonds, and to expend the proceeds derived from the sale of the bonds for the construction and equipping of additional public school facilities within the school district.

The bonds when issued within the limitations above set forth and in conformity with the provisions of the remaining provisions of the School Bond Act shall constitute valid and binding obligations of the school district, for which there shall be pledged the full faith,

credit and taxing power of the school district, and upon direction of the board of trustees, the Auditors of Greenville, Laurens and Spartanburg Counties, respectively, shall levy and the treasurers of the counties shall collect, such ad valorem tax upon all taxable property within their respective counties as lies within the school district as shall be required to provide for the punctual payment of the principal and interest of the bonds, as the same respectively fall due and to create such sinking fund as may be necessary therefor.

The authorizations herein granted shall constitute full and absolute authority for the action herein authorized, and no further consent or authorization shall be required of the board of trustees from any executive or administrative agency.

The action herewith authorized may be taken by the board of trustees at a regular or special meeting. The power and authority herewith granted to the board of trustees shall be in addition to all other powers, it being intended that the provisions of this act shall be full, complete and absolute authority for all action herein authorized.

**SECTION 3. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 3rd day of April, 1963.

**An Act To Amend An Act Of 1963 Bearing Ratification No. 103, Authorizing The Issuance Of General Obligation Bonds Of The Wade Hampton Water And Sewer District In Greenville County, So As To Provide For The Temporary Investment Of The Proceeds From Such Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that pursuant to an Act of 1963 bearing Ratification No. 103 authorizing the issuance of one million nine hundred and fifty thousand dollars of general obligation bonds of the Wade Hampton Water and Sewer District in Greenville County, bonds to the extent of one million nine hundred and fifty thousand dollars have been sold, and that the construction of the project authorized by that act will extend over a considerable period of time. It has therefore been determined that it is desirable that the proceeds of the bonds, to the extent prescribed by the Wade Hampton Water and Sewer District Commission, be invested temporarily in direct obligations of the United States and agencies thereof, and that the income so realized be applied to the payment of the interest on the bonds.

**SECTION 2. Subsection 3, Section 8 of Act 538 of 1963 amended—temporary investment of proceeds.**—Subsection (3) of Section 8 of an Act of 1963 bearing Ratification No. 103 is amended by adding at the end thereof the following:

*“Provided, that pending the use of the proceeds of the bonds to meet the costs to be incurred in constructing and acquiring adequate sewage disposal facilities in the District, the proceeds of the bonds shall, at the direction of the Commission and to the extent prescribed by the Commission, be invested and reinvested in direct obligations of the United States or agencies thereof, having a stated maturity of not exceeding twelve months from the date of any such investment. The Commission may employ the services of the trust department of any bank having an office in Greenville County to assist it in effecting such investments, and if such action shall be taken by the Commission, the Treasurer of Greenville County shall, on the order of the Commission, deliver to such bank the proceeds of the bonds, to the extent ordered by the Commission.*

All income realized from such investments, after meeting any costs incident thereto, shall be from time to time turned over to the Treasurer of Greenville County and by him applied to the payment of interest to become due on the bonds, but the provisions hereof shall in no way limit or impair the directive of this act made by Section 7 requiring the Auditor and Treasurer of Greenville County to levy and collect sufficient taxes to meet the payment of the principal and interest of the bonds, as the same respectively mature, and any reduction in the tax levy resulting from income so received, shall take place only after the actual receipt by the Treasurer of the proceeds of such investment income. Whenever investments made as herein authorized shall be reconverted into cash, the principal proceeds of any such investments shall be returned to the Treasurer of Greenville County and by him applied in accordance with the provisions of this subsection.”

**SECTION 3. Time effective.**—This act shall take effect upon approval by the Governor.

(7) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

**SECTION 2. Watershed conservation districts may be formed in Greenville County.**—Authority is hereby granted to form watershed

conservation districts within Greenville County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

**SECTION 3. Area.**—The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and such area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

**SECTION 4. Petition for formation.**—When twenty-five or more landowners within a proposed watershed conservation district, or, if less than fifty landowners are involved, a majority of such landowners, desire to form a watershed conservation district, they shall file a petition with the supervisors of the soil conservation district asking that a watershed conservation district be organized to function in the area described in the petition. The petition shall set forth the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

**SECTION 5. Hearing on petition.**—(1) Within thirty days after the petition has been filed with the supervisors of the soil conservation district, they shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of a watershed conservation district. All interested parties shall have the right to attend such hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the supervisors shall permit the inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further

hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and a further hearing shall be held. After final hearing, if the supervisors of the soil conservation district determine, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, they shall make and record such determination, and shall define the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the supervisors of the soil conservation district determine after a hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, they shall make and record the determination and shall deny the petition.

**SECTION 6. Referendum.**—After the supervisors of the soil conservation district have made and recorded a determination that there is a need, in the interest of public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, and have defined the boundaries thereof, they shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible. To assist the supervisors in making this determination, they shall, within a reasonable time after the entry of a finding that there is need for the organization of a watershed conservation district and determination of the boundaries thereof, hold a referendum within the proposed watershed conservation district upon the proposition of the creation of the watershed conservation district. Due notice of the referendum shall be given by the supervisors. The notice shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed watershed conservation district as polling places and shall give notice that the directors shall have the power of eminent domain. The supervisors shall have full charge of the referendum and shall have suitable ballots printed and furnished to each polling place; appoint necessary box managers and other referendum officials, and shall canvass the referendum and announce the results. The cost of holding the referendum shall be paid from the general fund of Greenville County.

**SECTION 7. Question.**—The question to be voted on shall be submitted by ballots upon which appear the words:

“For creation of ..... Watershed Conservation District”

“Against creation of ..... Watershed Conservation District”

A square shall follow each proposition. The ballot shall contain a direction to insert an “X” mark in the square following one or the other of the propositions as the voter may favor or oppose creation of the watershed conservation district. The ballot shall set forth the boundaries of the proposed watershed conservation district as determined by the supervisors of the soil conservation district. No one except owners of lands lying within the boundaries of the proposed watershed conservation district, as determined by the supervisors of the soil conservation district, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in the referendum under such rules and regulations as may be prescribed by the supervisors. No informalities in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the result thereof if notice of the referendum shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

**SECTION 8. Results—district to be created if results and determination favorable.**—The votes shall be counted by the referendum officials at the close of the polls and a report of the results, along with the ballots, shall be delivered and certified to the supervisors of the soil conservation district; and thereafter the supervisors shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the supervisors determine that the operation of the district is not administratively practicable and feasible, they shall record such determination and deny the petition. If the supervisors determine that the operation of the district is administratively practicable and feasible, they shall record the termination and shall proceed with the organization of the district in the manner hereinafter set forth; *provided*, however, that the supervisors shall not have authority to determine that the operation of the district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum upon the proposition of the creation of the district shall have been cast in favor of the creation of the district. If the supervisors shall determine that the operation of the district is administratively

practicable and feasible, they shall certify the determination to the Clerk of Court of Greenville County and to the Secretary of State. Upon proper recordation of the determination, the watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

**SECTION 9. Board of directors to govern district—nominating petitions — election — ballots — terms — officers — bond of treasurer.**—(1) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(2) Within thirty days after a watershed conservation district has been created, nominating petitions may be filed with the supervisors of the soil conservation district to nominate candidates for directors of the watershed conservation district. No nominating petition shall be accepted by the supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of the landowners. If the candidates nominated do not exceed the number of directors to be chosen, the supervisors shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the supervisors of the soil conservation district shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The provisions of Sections 5, 6 and 7 of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall, upon

the supervision of the supervisors of the soil conservation district, be the governing body of the watershed conservation district.

(4) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be for four years.

(5) The directors shall annually designate from among their number a chairman, secretary and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. The bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

**SECTION 10. District to be corporate body—powers and duties.**—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and the district and the directors thereof shall, subject to the approval of the supervisors of the soil conservation district, have the following powers, in addition to the others granted in other sections of this act:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148 of the 1962 Code, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(4) To levy an annual tax on the real property within the district subject to the limitations provided in Section 13 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of the district. The levy shall be made only after approval by the supervisors of the soil conservation district and upon notifying the county auditor.

**SECTION 11. Bonds not to be issued unless referendum held.**

—(1) Bonds authorized by Section 10 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of any bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 13 of this act. A copy of the order or resolution shall be certified to the supervisors of the soil conservation district.

(2) The supervisors shall hold a hearing on the proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the supervisors.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice qualifications of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in the referendum favor the proposal, the directors shall, with the approval of the supervisors, be authorized to issue the bonds.

**SECTION 12. Compensation.**—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the supervisors of the soil conservation district.

**SECTION 13. Budget—tax levy.**—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of

the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of the budget by the supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 11 of this act. A copy of the budget shall be certified to the Auditor of Greenville County.

**SECTION 14. List of landowners and acres subject to assessment.**—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved, showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

**SECTION 15. Collection of taxes.**—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interests as are applied to the collection of county taxes.

**SECTION 16. Expenditures.**—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of the funds shall be made by the directors of the watershed conservation district with the approval of the supervisors of the soil conservation district.

**SECTION 17. Petition to have lands detached.**—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the supervisors of the soil conservation district to have such lands detached. The petition shall describe the lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within

thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervisors that the lands shall be detached, the determination shall be certified to the Auditor of Greenville County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

**SECTION 18. Petition for discontinuance of district—hearing—referendum — discontinuance if election and determination favorable.**—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within the district, or, if less than fifty landowners are involved, a majority of the landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct the hearings upon the petition as may be necessary to assist them in the consideration.

(2) Within sixty days after the petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold the referendum substantially as provided for in Section 11 of this act. The question shall be submitted by ballots upon which the words “For terminating the existence of the ..... Watershed Conservation District,” and “Against terminating the existence of the ..... Watershed Conservation District” shall be printed, with a square before each proposition and a direction to insert an “X” mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of the watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. If the supervisors determine that the continued operation of the watershed conservation district is administratively practicable

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that the County Board of Education of Jasper County (the county board) is the proper agency to plan and to construct new school facilities for The School District of Jasper County (the school district). It further finds that additional public school facilities are needed and certain existing facilities must be improved in the school district. It has therefore determined to empower the county board to raise such sum as shall be permitted by applicable constitutional debt limitations through the sale of general obligation bonds of the school district to the extent permitted by such limitation, and to expend the proceeds thereof for such purposes.

**SECTION 10. **No. 570**

**An Act To Authorize The County Board Of Commissioners Of Jasper County To Issue Not Exceeding Five Hundred Thousand Dollars Of General Obligation Bonds Of Jasper County To Provide Additional Public School Facilities For The School District Of Jasper County; To Prescribe The Conditions Under Which The Bonds May Be Issued, And The Purposes For Which Their Proceeds May Be Expended; And To Make Provision For The Payment Of Such Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that The School District of Jasper County requires an outlay of funds now estimated to be eight hundred thousand dollars and that in the issuance of bonds it must observe the eight per cent debt limitation prescribed by Section 5 of Article X of the Constitution. The General Assembly takes further note of the fact that the Constitution permits Jasper County to incur bonded debt up to twenty per cent of the assessed value of all

taxable property in the county. By legislation enacted, in *pari materia*, the General Assembly has authorized the issuance of bonds of The School District of Jasper County in such amount as shall not exceed its constitutional debt limitation. It is estimated, on the basis of present assessed values, that the school district may issue bonds to an amount approximating three hundred thousand dollars, which sum is insufficient to meet all of the needs for public school facilities in the school district. Jasper County and The School District of Jasper County are coterminous and taxes levied by Jasper County will be paid by the same taxpayers who make payment of taxes levied on behalf of The School District of Jasper County. Correspondingly, expenditures made by Jasper County for public school facilities within The School District of Jasper County will benefit equally all taxpayers of both Jasper County and The School District of Jasper County.

The General Assembly takes note of the fact that by reason of the provisions of Section 6 of Article X, a county is permitted to incur bonded debt for educational purposes and that the decisions of the Supreme Court of South Carolina permit a levy of countywide ad valorem taxes for school purposes where a county has assumed the function of giving benefit to all school districts of the county. *Shelor v. Pace*, 151 S. C., 99; 148 S. E., 726.

On the basis of the foregoing, the General Assembly has determined to authorize the County Board of Commissioners of Jasper County (the county board) to issue not exceeding five hundred thousand dollars of general obligation bonds of Jasper County and to turn over the principal proceeds of the bonds to the county board of education, to be expended by that agency for additional public school facilities within The School District of Jasper County.

**SECTION 2. Jasper County School District may issue bonds.—**

In order to raise moneys to construct, equip and repair public school facilities for the public school system of The School District of Jasper County (the school district), the county board is hereby authorized and empowered to issue and sell, either as a single issue, or from time to time, as several separate issues, general obligation bonds of Jasper County in an amount not exceeding five hundred thousand dollars, and to turn over the principal proceeds thereof to the county board of education, to be expended by that agency for such school facilities.

**SECTION 3. Denominations and maturity.**—All bonds issued pursuant to this act shall be in such denomination, and mature in such annual series or instalments as the county board shall provide for, except that the first maturing bonds of any issue shall mature within three years from the date as of which they shall be issued, and no bond shall mature later than twenty-five years from the date as of which it shall be issued.

**SECTION 4. Redemption.**—Any bond issued pursuant to this act may be issued with a provision for its redemption prior to its stated maturity at par and accrued interest, plus such redemption premium as may be prescribed by the county board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, if any bonds are to be made redeemable prior to their otherwise stated maturities, provision shall be made specifying the manner of call and the notice thereof that must be given.

**SECTION 5. Form.**—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Jasper County, upon such conditions as the county board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments, under the law merchant and the negotiable instruments law.

**SECTION 6. Where payable.**—The bonds issued pursuant to this act shall be made payable at such place or places, within or without the State, as the county board shall provide.

**SECTION 7. Interest.**—Bonds issued pursuant to this act shall bear interest at a rate or rates determined by the county board.

**SECTION 8. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the county board shall by resolution prescribe.

**SECTION 9. Sale.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. Such published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 10. Payment.**—For the payment of the principal and interest of all bonds issued pursuant to this act, as the same respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Jasper County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Jasper County, and collected by the Treasurer of Jasper County, in the same manner as county taxes are levied and collected, a tax without limit on all taxable property in Jasper County, sufficient to pay the principal and interest of such bonds as they respectively mature and to create such sinking fund as may be necessary therefor.

**SECTION 11. Exempt from taxes.**—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 12. Proceeds.**—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of Jasper County, to be deposited in a Bond Account Fund for the school district, and shall be expended and made use of by, and upon the order of the County Board of Education of Jasper County as follows:

- (a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.
- (b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.
- (c) The remaining proceeds shall be used for the following purposes:
  - (i) To defray the costs of issuing the bonds authorized by this act; and
  - (ii) To provide such new school facilities for the school district and such improvements to existing facilities in the school district, as shall, in the opinion of the county board of education, be most urgently needed.
- (d) If any balance remain, the same shall be held by the Treasurer of Jasper County in a special fund used to effect the retirement of bonds authorized hereby.

**SECTION 14. No further action required for issuance of bonds.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Definitions.**—Whenever used or referred to in this act, unless a different meaning clearly appears from the context :

(1) "Watershed conservation district" means a governmental subdivision of this State, and a public body corporate and politic, organized in accordance with the provisions of this act, for the purposes, with the powers, and subject to the restrictions hereinafter set forth, and hereinafter referred to as the "district".

(2) "Director" means one of the members of the governing body of a watershed conservation district, selected in accordance with the provisions of this act.

(3) "Supervisor" means one of the members of the governing body of the Lancaster Soil Conservation District in which any part of a watershed conservation district is situated.

(4) "County" means Lancaster County of South Carolina.

(5) "Landowner" or "owner of land" includes any person, firm or corporation who shall hold legal or equitable title to any lands lying within a watershed conservation district organized under the provisions of this act.

(6) "Due notice" means notice published at least twice, with an interval of at least one week between the two publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notice posted at a reasonable number of conspicuous places within the appropriate area, such posting to include, where possible, posting at public places where it is customary to post notices concerning county or municipal affairs generally.

**SECTION 2. Watershed conservation districts may be formed in Lancaster County—area.**—Authority is hereby granted to form wa-

tershed conservation districts within Lancaster County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

The formation of the districts shall be supervised and administered by the Lancaster County Watershed Conservation Commission. The Commission shall consist of not less than ten and not more than fourteen resident landowners of Lancaster County, who shall be appointed by the Governor upon the recommendation of a majority of the Lancaster County Legislative Delegation, including the Senator, from a list of names recommended by the Lancaster County Soil Conservation District Supervisors. Of the commissioners first appointed, half shall serve for terms of two years and half for terms of four years. The terms of office of each of their successors shall be for four years. If the number of commissioners is changed from time to time, the terms of office shall be such that the terms of no more than half of the commissioners expire at one time. In all cases, those persons holding office shall continue to hold office until their successors shall have been appointed and qualified. Any vacancy shall be filled by a vote of the majority of the commission for the unexpired portion of the term.

The area embraced in a watershed conservation district must be contiguous and must lie within a well-defined watershed; and the area shall not include lands located within the boundary of any incorporated city or town, or lands embraced in another watershed conservation district.

**SECTION 4. Petition for formation.**—When it is apparent to the commission that there is interest within a proposed district sufficient to form a district, the commission shall cause a petition of one or more residents of the proposed district to be filed with the commission asking that a watershed conservation district be organized to function in the area described in the petition. The petition shall set forth: the proposed name of the watershed conservation district; that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory described in the petition; a description of the territory proposed to be organized as a watershed conservation district, which description need not be given by metes and bounds or by legal subdivisions, but shall be deemed sufficient if generally accurate; and the approximate number of acres of land included in the proposed watershed conservation district.

**SECTION 5. Hearing on petition.**—(1) Within thirty days after the petition has been filed with the commission, it shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety and welfare, of the creation of the watershed conservation district. All interested parties shall have the right to attend the hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included in the petition should be excluded, the commission may permit the inclusion or exclusion, provided the land area involved still meets the requirements of Section 3 of this act.

(2) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and a further hearing shall be held. After final hearing, if the commission determines, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination which shall describe the area, but the description need not be given by metes and bounds. The description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(3) If the commission determines after the hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition.

**SECTION 6. Determination of commission.**—After the commission has made and recorded a determination that there is need, in the interest of the public health, safety and welfare, for a watershed conservation district to function in the territory considered at the hearing and has defined the boundaries thereof, it shall consider the question whether the operation of a watershed conservation district within the proposed boundaries with the powers conferred upon it by this act is administratively practicable and feasible.

**SECTION 7. Determination further.**—If the commission determines that the operation of the district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the commission determines that the operation of the district is administratively practicable and feasible, it shall record the determination and shall proceed with the organization of the district in the manner hereinafter set forth and shall certify the determination to the Clerk of Court of Lancaster County and to the Secretary of State. Upon proper recordation of the determination, the watershed conservation district shall constitute a governmental subdivision of this State and a public body corporate and politic. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

**SECTION 8. Board of directors to govern district — nomination — appointment — terms — vacancies — election.**—(1)

The governing body of the watershed conservation district shall consist of five directors who are landowners in the district, appointed by the commission to serve terms of four years each. In all cases, those persons holding office shall continue to hold office until their successors shall have been elected or appointed. Members of the commission may also serve as district directors. Any vacancy occurring among the directors shall be filled by a vote of the majority of the commissioners for the unexpired term. Their successors shall be appointed by the commission unless, more than thirty days before the term of office expires, nominating petitions are filed with the commission to nominate candidates for directors of the watershed conservation district. No such nominating petition shall be accepted by the commission unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners.

(2) If the candidates nominated do not exceed the number of directors to be chosen, the commission shall declare them to be elected. No person shall be eligible to be a director of a watershed conservation district who is not a landowner in the watershed conservation district in which he seeks election.

(3) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the commission shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable time after the expiration of the nominating period. The

names of all qualified nominees shall be printed in alphabetical order upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. Only landowners within the watershed conservation district shall be eligible to vote in the election. The five candidates who shall receive the largest number respectively of the votes cast in the election shall be the directors of the watershed conservation district, and shall serve for a term of four years.

(4) The directors shall annually designate from among their number a chairman, secretary and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. The bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on each bond shall be paid by the watershed conservation district.

**SECTION 9. District to be corporate body—powers and duties.**—A watershed conservation district organized under the provisions of this act shall constitute a governmental subdivision of this State, and a public body corporate and politic, and, in addition to the powers granted in other sections of this act, shall have the power:

(1) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the manner provided in Sections 25-101 through 25-140 and Sections 33-121 through 33-148, of the 1962 Code, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(2) To construct, reconstruct, repair, enlarge, improve, operate and maintain such works of improvement as may be necessary or convenient for the performance of any of the operations authorized by this act;

(3) To borrow money and to execute promissory notes and other evidences of debt in connection therewith for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district, and, if promissory notes are issued, to execute mortgages on any property owned by the district, or assign or pledge such revenues or assessments of the

district as may be required by the lender as security for the repayment of the loan; and to issue, negotiate and sell its bonds as provided in Section 10 of this act; and

(4) To levy an annual tax on the real property of the entire district subject to the limitations provided in Section 12 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of the district not provided by the county chain gang or the Lancaster County Water and Sewer Commission. The levy shall be made only after approval by the commission and upon notifying the county auditor.

**SECTION 10. Bonds not to be issued unless referendum held.**

—(1) Bonds authorized by Section 9 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 12 of this act. A copy of the order or resolution shall be certified to the commission.

(2) The commission shall hold a hearing within the district on the proposal after having given due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the commissioners.

(3) The provisions of Sections 5, 6 and 7 of this act as to notice, qualification of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(4) If two-thirds of the votes cast in the referendum favor the proposal, the directors shall, with the approval of the commission, be authorized to issue the bonds.

**SECTION 11. Compensation.**—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties as approved by the commission.

**SECTION 12. Budget—tax levy.**—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administra-

tion of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of the budget by the commission, the county auditor shall levy a tax sufficient to meet the budget on all real property within the district. A copy of such budget shall be certified to the Auditor of Lancaster County. *Provided*, the total levy for all districts shall not exceed one-half mill on each dollar of assessed valuation.

**SECTION 13. List of landowners and acres subject to assessment.**—(1) The directors of the watershed conservation district, with the assistance of the county auditor, shall prepare a list of the landowners involved showing the number of acres subject to assessment.

(2) When the property tax rolls are delivered to the county treasurer by the county auditor, as required by law, the county treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

**SECTION 14. Collection of taxes.**—(1) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(2) The taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

**SECTION 15. Expenditures.**—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of the funds shall be made by the directors of the district, with the approval of the supervisors of the soil conservation district.

**SECTION 16. Petition to have lands detached.**—The owners of lands which have not been, are not and cannot be benefited by their inclusion in the district may petition the supervisors of the soil conservation district to have the lands detached. The petition shall describe such lands and state the reasons why they should be detached. A hearing shall be held by the supervisors within thirty days after the petition is filed and due notice of such hearing shall be given by the supervisors. If it is determined by the supervi-

ors that the lands shall be detached, such determination shall be certified to the Auditor of Lancaster County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

**SECTION 17. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.**—(1) At any time after five years after the organization of a watershed conservation district, twenty-five or more landowners within the district, or if less than fifty landowners are involved, a majority of the landowners, may file a petition with the supervisors of the soil conservation district asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The supervisors may conduct such hearings upon the petition as may be necessary to assist them in the consideration thereof.

(2) Within sixty days after such petition has been filed with the supervisors they shall give due notice of the holding of a referendum. The supervisors shall hold such referendum substantially as provided for in Section 10 of this act. The question shall be submitted by ballots upon which the words “For terminating the existence of the . . . . . Watershed Conservation District” and “Against terminating the existence of the . . . . . Watershed Conservation District” shall be printed, with a square before each proposition and a direction to insert an “X” mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of the watershed conservation district. Only landowners within the watershed conservation district shall be eligible to vote in such referendum. (h) Covenant and agree that no free service will be furnished to any person, municipal corporation, or any subdivision or division of the State.

(i) Prescribe the procedure, if any, by which the terms of the contract with the holders of its obligations may be amended, the number of obligations whose holders must consent thereto, and the manner in which such consent shall be given.

(j) Prescribe the events of default and the terms and conditions upon which all or any obligations shall become or may be declared due before maturity and the terms and conditions upon which such declarations and its consequences may be waived.

All funds by this act provided for the Department of Public Welfare in Marlboro County shall be deposited in a bank to the credit of the Department of Public Welfare and disbursed by check signed by the county directors and countersigned by a member of the Board of Public Welfare, to be by the board designated. *Provided*, that the director's salary shall be paid by the county commissioner as is customary in the claims against the county.

**SECTION 2.** The Board of County Highway Commissioners and all other officers of Marlboro County are requested and directed to be economical in the expenditure of all public funds, and to keep the expense below the appropriations when practicable and consistent with public requirements, and no unused appropriated fund shall be carried forward for the particular use in the succeeding year, but shall be transferred to the contingent fund provided for in this section. In no case shall the expenditure exceed the appropriation for any purpose; *provided*, that out of the surplus contingent fund are to be paid all necessary expenses for which no specific appropriation was made herein, and for unavoidable expenses in excess of the appropriations for any purpose. No officer, agent or

employee of Marlboro County shall contract any debt for any purpose, or expend any sums in excess of the appropriations in this act providing for such specific purpose, and for any and all violations thereof they, and their bondsmen, shall be jointly and severally liable. Any officer, agent or employee shall be personally liable for any such debt contracted.

**SECTION 3.** All funds herein appropriated for Marlboro County Agricultural and Development Board shall be expended pursuant to the direction and authorization of the Board.

**SECTION 4.** The sheriff of the county shall have the right, whenever he considers such necessary, to call in the county attorney to prosecute before any magistrate in any and all cases; the fee of the county attorney is to be approved and paid by the county commissioners.

**SECTION 5.** The Sheriff of the county is hereby directed to so regulate the movement and activities of the rural policemen that all sections of the county shall enjoy the protection of the law without favor and without neglect.

The protection of all school property is hereby made a special mission of the sheriff and his force. He is particularly directed to so regulate the enforcement of the law as to protect school property from injury, theft and destruction; and to enforce the law against plowing in the roads. The contingent fund and uniform appropriation of one thousand five hundred dollars, hereinabove made, shall be expended by the Sheriff of Marlboro County for the enforcement of law and purchase of uniforms for county officers.

**SECTION 6.** The County Board of Highway Commissioners of Marlboro County is hereby declared to be the sole financial and purchasing agent of Marlboro County, and when any officer or board of the county desires new equipment or supplies, or replacement, or extraordinary service in connection with his or their office, or desires that any expenditure be made, or expense be incurred in regard to his or their office, whether specifically appropriated in this act or not, or desires to make any purchase or incur any expense, he shall file his request for same, in writing, with the County Board of Highway Commissioners, who shall make such purchase in accordance with provisions herein made. No office or board shall have any authority to make contracts of purchase or incur other obligations in

the name of the county except as authorized by law, and no contracts made, except as herein provided, shall be valid to bind the county.

**SECTION 7.** The appropriation of eleven thousand five hundred dollars for the treatment in the Marlboro County General Hospital of deserving charity patients, whose condition demands hospital treatment, is made subject to the following conditions: That no deserving charity patient as above described shall be turned away as long as there are facilities and room in the hospital; that there shall be no charge whatsoever except the daily expense of sixteen dollars and fifty-eight cents per patient. *Provided*, that the funds shall be available for use of the Marlboro County General Hospital only upon itemized statements of the actual days spent in the hospital by charity patients, signed by each patient individually and certified by the hospital management, such statement being presented to the Board of County Commissioners at their regular monthly meetings. The Duke Foundation payment for charity work of one dollar per day is to be deducted from the amount of sixteen dollars and fifty-eight cents, leaving fifteen dollars and fifty-eight cents per charity patient to be paid by the county. These conditions and provisions are to be interpreted and enforced as meaning that when the Duke Endowment gives one dollar for charity work, the county will give fifteen dollars and fifty-eight cents, not to exceed in total amount the sum of fourteen thousand five hundred dollars for the year 1963-1964. County funds shall be available only to match in this way funds coming from the Duke Foundation for charity beds, and shall be paid only in cases approved as charity cases by the Duke Foundation. The Board of County Commissioners is authorized and directed to prepare and have printed for use by the patient and hospital management, forms and blanks for making the above-mentioned certified statements. *Provided*, further, that the charity patients herein referred to must be citizens of Marlboro County.

**SECTION 9.** The janitor of the Courthouse shall be hired by the supervisor.

**SECTION 10.** The County Commissioners shall receive as pay for their services the sum of fifteen dollars for each day actually engaged

on official duty and mileage at the rate of nine cents per mile actually traveled. All are to be paid from the contingent fund.

**SECTION 11.** The sheriff's stenographer shall also be available and provide such services as may be necessary for the Magistrates and the Coroner of Marlboro County. **SECTION 13.** The Board of Commissioners shall publish once each month in some newspaper published in Marlboro County an itemized statement of all expenditures of county funds, contract for publishing the same to be let to the newspaper making the lowest bid.

**SECTION 14.** The County Supervisor shall be the executive head of the County Board of Highway Commissioners; but each member of the Board of County Highway Commissioners shall have equal authority and the board shall at each monthly meeting provide for and set out generally the work to be done the following month on the county road system.

**SECTION 15.** The County Commissioners are hereby authorized and empowered to borrow money for county purposes in anticipation of collection of taxes and to pledge such taxes when collected, as well as the full faith and credit of Marlboro County, for its repayment, upon the written approval of the Legislative Delegation. No amount shall be borrowed in excess of anticipated taxes.

**SECTION 16.** The funds appropriated and set aside in this act shall be used only for the purposes set forth herein. In the event funds are used for items for which they were not appropriated, all officers, agents or employees who take part in or have anything whatsoever to do with the transfer or use of such funds shall be

deemed guilty of malfeasance in office and subject to removal at once by the Governor of the State of South Carolina, or by the proper officials of Marlboro County. All or any part of such fund may be so transferred to appropriations for Marlboro County Hospital, or for other uses of the hospital as herein provided, or otherwise.

**SECTION 22.** Repairs and service to sheriff's radios and radio equipment shall be paid out of the sheriff's contingent fund.

**An Act To Create The George's Creek Watershed Conservation District In Pickens County; To Provide For The Election**

**Of Its Directors And To Define Their Powers And Duties; To Provide For A Tax Levy To Defray The Cost Of Organizing And Administering The District And For The Construction, Operation And Maintenance Of The Improvements To Be Provided Within The District; And To Provide For Various Elections.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. George's Creek Watershed Conservation District may be formed in Pickens County.**—Authority is hereby granted to form the George's Creek Watershed Conservation District in Pickens County for the purpose of developing and executing plans and programs relating to any phase of the control and prevention of soil erosion, flood prevention, or the conservation, development, utilization and disposal of water.

**SECTION 2. Area.**—The area embraced in the district must be contiguous and drain naturally into George's Creek. The area shall not include lands located within the boundary of any incorporated city or town, lands not included within a soil conservation district, or lands embraced in another watershed conservation district.

**SECTION 3. Formation petition.**—Formation of the district shall be initiated by the filing of a petition with the board of supervisors of the Pickens Soil Conservation District. The petition must be signed by twenty-five or more freeholders in the proposed district. If there are less than fifty landowners within the proposed district, then a majority of the landowners may file a petition with the board asking that a watershed conservation district be organized to function in the area described in the petition. The petition shall set forth and define the boundaries of the proposed district, the number of acres involved, reasons for requesting the creation of the district and any other information pertinent to the proposal.

**SECTION 4. Hearings on petition — inclusion of additional territory.**—(a) Within thirty days after the petition has been filed with the board of supervisors of the Pickens Soil Conservation District, it shall cause due notice to be given of a hearing upon the question of the desirability and necessity, in the interest of the public health, safety, and welfare, of the creation of the watershed conservation district. All interested parties shall have the right to attend the hearing and to be heard. If it shall appear at the hearing that other lands should be included in the petition or that lands included

in the petition should be excluded, the board of supervisors of the Pickens Soil Conservation District may permit such inclusion or exclusion, provided the land area involved still meets the requirements of Section 2 of this act.

(b) If it appears upon the hearing that it may be desirable to include within the proposed watershed conservation district territory outside of the area within which due notice of the hearing has been given, the hearing shall be adjourned and due notice of a further hearing shall be given throughout the entire area considered for inclusion in the proposed watershed conservation district, and such further hearing shall be held. After final hearing, if the board of supervisors of the Pickens Soil Conservation District determines, upon the facts presented at the hearing and upon other available information, that there is need, in the interest of the public health, safety, and welfare, for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination, and shall define the area but the description need not be given by metes and bounds, but the description shall be deemed sufficient if generally accurate and the approximate number of acres of land included in the proposed watershed conservation district is shown.

(c) If the board of supervisors of the Pickens Soil Conservation District determines after such hearing that there is no need for a watershed conservation district to function in the territory considered at the hearing, it shall make and record such determination and shall deny the petition.

**SECTION 5. Referendum concerning creation of district if determinations favorable—conduct of.**—After the board of supervisors of the Pickens Soil Conservation District has determined that there is need, in the interest of the public health, safety and welfare, for creation of the proposed watershed conservation district, it shall consider the question whether the operation of a district within the proposed boundaries with the power conferred upon such district in Section 9 of this act is administratively practicable and feasible. To assist the board of supervisors of the Pickens Soil Conservation District in this determination the board shall, within a reasonable time after entry of the finding that there is need for the organization of the district and the determination of the boundaries of the district, hold a referendum within the proposed district upon the proposition of the creation of the district. Due notice of the referendum shall be by notice published at least twice with an interval of at least one week between the two

publication dates, in a publication of general circulation within the appropriate area, or, if no such publication of general circulation be available, notices shall be posted at a reasonable number of conspicuous places in the appropriate area. These notices shall be posted at public places where it is customary to post notices concerning county or municipal affairs generally. Such notices shall state the date of holding the referendum, the hours of opening and closing the polls, and shall designate one or more places within the proposed district as polling places. The board of supervisors of the Pickens Soil Conservation District shall have full charge of the election and shall have suitable ballots printed and furnished to each voting place, appoint necessary box managers and other election officials, and shall canvass the election and announce the results. Cost of holding the referendum shall be paid from the general fund of Pickens County.

**SECTION 6. Question and ballots.**—The question to be voted on shall be submitted by ballots upon which appear the words:

“For the creation of the George’s Creek Watershed Conservation District”

“Against the creation of the George’s Creek Watershed Conservation District”

A square shall follow each proposition. The ballot shall also contain a direction to insert an “X” mark in the square following one or the other of the propositions, as the voter may favor or oppose creation of the district. The ballot shall set forth the boundaries of the proposed district as determined by the board of supervisors. Only owners of lands lying within the boundaries of the territory, as determined by the supervisors of the Pickens Soil Conservation District, shall be eligible to vote in the referendum. Qualified voters may vote by absentee ballot in such referendum under rules and regulations prescribed by the board of supervisors of the Pickens Soil Conservation District.

**SECTION 7. Certify results — create district if results favorable.**—The votes shall be counted by the referendum officials at the close of the polls and a report of the results along with the ballots shall be delivered and certified to the board of the supervisors of the Pickens Soil Conservation District. Thereafter the board shall determine whether the operation of the watershed conservation district within the defined boundaries is administratively practicable and feasible. If the board determines that the operation of

such district is not administratively practicable and feasible, it shall record such determination and deny the petition. If the board determines that the operation of such district is administratively practicable and feasible, it shall record such determination and shall proceed with the organization of the district in the manner hereinafter set forth; *provided*, however, that the board shall not have authority to determine that the operation of such district is administratively practicable and feasible unless at least a two-thirds majority of the votes cast in the referendum upon the proposition of the creation of such district shall have been cast in favor of the creation of such district. If the board shall determine that the operation of such district is administratively practicable and feasible, it shall certify such determination to the Clerk of Court of Pickens County and to the Secretary of State. Upon this certification, the watershed conservation district shall constitute a governmental subdivision of this State and a public body, corporate and politic. After being recorded, such certification shall be filed with the State Soil Conservation Committee and the Secretary of State.

**SECTION 8. Governed by board of directors—number—nominating petitions—election and conduct of—terms—officers.—**

(a) The governing body of the watershed conservation district shall consist of five directors, elected as provided herein.

(b) Within thirty days after the watershed conservation district has been created, nominating petitions may be filed with the board of supervisors of the Pickens Soil Conservation District to nominate candidates for directors of the watershed conservation district. No nominating petition shall be accepted by the board of supervisors unless it is signed by twenty-five or more landowners within the watershed conservation district, or, if less than fifty landowners are involved, by a majority of such landowners. If the candidates nominated do not exceed the number of directors to be chosen, the board of supervisors shall declare them to be elected. No person shall be eligible to be a director who is not a landowner in that portion of the watershed conservation district within the Pickens Soil Conservation District in which he seeks election.

(c) If the candidates nominated for directors of the watershed conservation district exceed the number of directors to be chosen, the board of supervisors of the Pickens Soil Conservation District shall, after having given due notice thereof, cause an election to be held within the watershed conservation district within a reasonable

time after the expiration of the thirty-day period for the election of five directors of the watershed conservation district. The provisions of this act as to notice, qualifications of voters, absentee voting, and the manner of holding the referendum in organizing a watershed conservation district, shall apply insofar as practicable to the election of the directors. The names of all nominees on behalf of whom nominating petitions have been filed as hereinabove provided shall be printed, arranged in alphabetical order of their surnames, upon ballots with a square before each name and a direction to insert an "X" mark in the square before any five names to indicate the voter's preference. All landowners within the watershed conservation district shall be eligible to vote in the election. Only landowners shall be eligible to vote. The five candidates who shall receive the largest number respectively of the votes cast in such election shall be the elected directors of the watershed conservation district. The five elected directors shall, under the supervision of the board of supervisors of the Pickens Soil Conservation District, be the governing body of the watershed conservation district.

(d) Of the directors first elected, the two receiving the largest number of votes shall serve for terms of four years, the two receiving the next largest number of votes shall serve for terms of three years, and the one receiving the next largest number of votes shall serve for a term of two years. The term of office of each of their successors shall be four years.

(e) The directors shall annually designate from among their number a chairman, secretary and treasurer. The treasurer shall execute an official bond for the faithful performance of the duties of his office, to be approved by the directors. Such bond shall be executed by a surety company authorized to do business in this State and shall be in an amount determined by the directors. The premium on such bond shall be paid by the watershed conservation district.

**SECTION 9. Powers and duties.**—The watershed conservation district shall constitute a governmental subdivision of this State, and a public body corporate and politic, exercising public powers, and such district and the directors thereof shall, subject to the approval of the board of supervisors of the Pickens Soil Conservation District, have the following powers, in addition to others granted in other sections of this act:

(a) To acquire, by purchase, exchange, lease, gift, grant, bequest, devise, or otherwise, or through condemnation proceedings in the

manner provided in Chapter 2 of Title 25, Code of Laws of 1962, such lands, easements, or rights-of-way as are needed to carry out any authorized purpose of the watershed conservation district. *Provided*, however, there shall be no rights of eminent domain unless at least seventy-five per cent of the required easements, rights-of-way and permits for any one flood water retarding structure or unit of structures or unit of stream channel improvements have been acquired by the watershed conservation district; and to sell, lease, or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this act;

(d) To levy an annual tax on the real property within the district subject to the limitations as provided in Section 12 of this act for payment of the costs and expenses of organizing the watershed conservation district or for carrying out any authorized purpose of such district. Such levy shall be made only after approval by the board of supervisors of the Pickens Soil Conservation District, by notifying the county auditor.

**SECTION 10. Issuance of bonds—referendum.**—(a) Bonds authorized by Section 9 of this act shall not be issued until proposed by order or resolution of the directors of the watershed conservation district, specifying the purpose for which the funds are to be used and the proposed undertaking, the amount of bonds to be issued, the rate of interest they are to bear, and the amount of any necessary tax levy in excess of the maximum authorized in Section 12 of this act. A copy of the order or resolution shall be certified to the board of supervisors of the Pickens Soil Conservation District.

(b) The board of supervisors of the Pickens Soil Conservation District shall hold a hearing on such proposal after having given

due notice. If it appears that the proposal is within the scope and purpose of this act and meets all other requirements of the law, the proposal shall be submitted to the landowners of the district by a referendum held by the board of supervisors.

(c) The same provisions as to notice, qualification of voters, absentee voting, and manner of holding the referendum in organizing a watershed conservation district shall apply to the referendum held under this section.

(d) If two-thirds of the votes cast in the referendum favor the proposal, the directors shall, with the approval of the board of supervisors, be authorized to issue the bonds.

**SECTION 11. Compensation.**—The directors of the watershed conservation district shall receive no compensation for their services, but they may be reimbursed for expenses, including traveling expenses, necessarily incurred in the performance of their duties, as approved by the board of supervisors of the Pickens Soil Conservation District.

**SECTION 12. Budget—tax levy.**—Within the first quarter of each calendar year, the directors of the watershed conservation district shall prepare an itemized budget of the funds needed for administration of the watershed conservation district and for construction, operation and maintenance of works of improvement. After approval of such budget by the board of supervisors of the soil conservation district, the county auditor shall levy a tax sufficient to meet such budget on all real property within the watershed conservation district of not to exceed five mills on each dollar of assessed valuation, except that this limitation shall not apply to any levy necessary to provide a sinking fund for the retirement of bonds authorized by Section 10 of this act. A copy of the budget shall be certified to the Auditor of Pickens County.

**SECTION 13. Computation of tax.**—(a) The directors of the watershed conservation district with the assistance of the county auditor shall prepare a list of the landowners involved, showing the number of acres subject to assessment.

(b) When the property tax rolls are delivered to the county treasurer by the auditor, as required by law, the treasurer shall compute the tax due the watershed conservation district from each landowner in accordance with the rate fixed by the directors and the value of the real property indicated on the tax roll. The computation shall be made on the regular tax bills.

**SECTION 14. Collection of taxes.**—(a) The county treasurer shall collect the taxes due the watershed conservation district at the same time and in the same manner as he collects other taxes of the county.

(b) Such taxes shall be subject to the same due and delinquency dates, discounts, penalties and interest as are applied to the collection of county taxes.

**SECTION 15. Proceeds.**—Tax funds collected shall be transferred to and held by the treasurer of the watershed conservation district for the specific purpose for which they have been collected. All expenditures of the funds shall be made by the directors of the watershed conservation district with the approval of the board of supervisors of the Pickens Soil Conservation District.

**SECTION 16. Petition to have lands detached.**—The owner or owners of lands which have not been, are not and cannot be benefited by their inclusion in the watershed conservation district may petition the board of supervisors of the Pickens Soil Conservation District to have such lands detached. The petition shall describe the lands and state the reasons why they should be detached. A hearing shall be held by the board of supervisors within thirty days after the petition is filed. Due notice of such hearing shall be given by the board of supervisors of the Pickens Soil Conservation District. If it is determined by the board of supervisors that the lands should be detached, its determination shall be certified to the Auditor of Pickens County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee.

**SECTION 17. Petition for discontinuance of district—hearing—referendum—discontinuance if election and determination favorable.**—(a) At any time after five years after the organization of the watershed conservation district, twenty-five or more landowners within the district, or if less than fifty landowners are involved, a majority of the landowners, may file a petition with the board of supervisors of the Pickens Soil Conservation District asking that the existence of the watershed conservation district be discontinued. The petition shall state the reasons for discontinuance, and that all obligations of the watershed conservation district have been met. The board of supervisors may conduct such hearings upon the petition as may be necessary to assist it in the consideration thereof.

(b) Within sixty days after the petition has been filed with the board of supervisors it shall give due notice of the holding of a referendum. The board of supervisors shall hold such referendum substantially as provided in Section 10 of this act. The question shall be submitted by ballots upon which the words "For terminating the existence of the George's Creek Watershed Conservation District" and "Against terminating the existence of the George's Creek Watershed Conservation District" shall be printed, with a square before each proposition and a direction to insert an "X" mark in the square before one or the other of the propositions as the voter may favor or oppose the discontinuance of the watershed conservation district. All landowners within the watershed conservation district shall be eligible to vote in the referendum. Only landowners shall be eligible to vote. No informality in the conduct of the referendum or in any matters relating thereto shall invalidate the referendum or the results thereof, if notice thereof shall have been given substantially as herein provided and the referendum shall have been fairly conducted.

(c) The board of supervisors shall publish the results of the referendum and shall thereafter determine whether the continued operation of the watershed conservation district is administratively practicable and feasible. If the board of supervisors determines that the continued operation of the watershed conservation district is administratively practicable and feasible, it shall record such determination and deny the petition. If the board of supervisors determines that the continued operation of the watershed conservation district is not administratively practicable and feasible, it shall record such determination and shall certify its determination to the directors of the watershed conservation district; *provided*, the board of supervisors shall not be authorized to determine that the continued operation of the watershed conservation district is administratively practicable and feasible unless at least a majority of the votes cast in the referendum shall have been cast in favor of the continuance of the watershed conservation district.

(d) Upon receipt from the board of supervisors of a certification that it has determined that the continued operation of the watershed conservation district is not administratively practicable and feasible, the directors shall forthwith proceed to terminate the affairs of the watershed conservation district. A copy of the determination shall be certified to the Auditor of Pickens County for recording. After being recorded, the certification shall be filed with the State Soil Conservation Committee and the Secretary of State.

**SECTION 18. Supervisory authority if soil conservation district discontinued.**—If the Pickens Soil Conservation District in which the watershed conservation district is situated is discontinued, all supervisory authority over the affairs of the watershed conservation district which was previously exercised by the board of supervisors of such Pickens Soil Conservation District shall thereafter be exercised by the governing body of Pickens County.

**SECTION 7. Exempt from taxes.**—The bonds and all interest to become due thereon shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 8. Payment.**—For the payment of all bonds issued pursuant to this act, both principal and interest, as they shall respectively mature, the full faith, credit, resources and taxing power of School District No. 5, Richland County, shall be pledged, and there shall be levied and collected by the Auditor and Treasurer of Richland County, respectively, an ad valorem tax upon all taxable property in the school district, without limitation as to rate or amount, sufficient to pay the interest on such bonds and the bonds as they respectively mature. The taxes, when so levied and collected, shall be held by the Treasurer of Richland County, separate and distinct from all other funds, and used solely for the purposes for which levied and collected.

**An Act To Authorize The Richland-Lexington Airport Commission To Issue Not Exceeding One Million One Hundred Twenty Thousand Dollars Of General Obligation Bonds Of Richland-Lexington Airport District; To Prescribe The Conditions Under Which They May Be Issued; To Prescribe The Use Of Their Proceeds; And To Make Provision For The Payment Thereof.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Act No. 681 of 1962 it created Richland-Lexington Airport District (the District) and committed to the Commission therein designated as Richland-Lexington Airport Commission (the Commission) the function of establishing modern air transport facilities in the District. This act authorized and empowered the Commission to issue general obligation bonds of the District in the aggregate principal amount of not exceeding two million seven hundred thousand dollars, and to use such funds for the construction and establishment of suitable airport facilities within the District. The bonds were heretofore issued and their proceeds are presently being applied to the construction of the airport facility contemplated by such act. It has now been determined that the sum so provided is insufficient to complete the facility in the manner originally contemplated and that one million one hundred twenty thousand dollars of additional funds is necessary therefor. The General Assembly has, therefore, determined to empower the Commission to raise such additional sum through the issuance and sale of not exceeding one million one hundred twenty thousand dollars of general obligation bonds of the District.

**SECTION 2. Richland-Lexington Airport District may issue bonds.**—In order to provide additional funds for the construction and establishment of suitable airport facilities within the District, the Commission is hereby authorized and empowered to issue not exceeding one million one hundred twenty thousand dollars of general obligation bonds of the District. All or any general obligation bonds issued pursuant to this act shall conform to the following specifications and be subject to the following procedures:

(a) They shall be issued as a single issue, or from time to time as several separate issues. They shall be in such denomination, bear

such date as the Commission shall determine, and bonds of any issue shall mature in such equal or unequal instalments as may be determined by the Commission. They shall be made payable at such place as the Commission shall prescribe, and they shall bear interest at such rate, and shall be payable in such manner as the Commission may determine. The bonds may be issued with the privilege of having them registered as to principal on the books of the Commission and the principal thus made payable to the registered holder (unless the last registered transfer shall have been to bearer), upon such conditions as the Commission may prescribe. Any bond issued pursuant to this act may be made subject to redemption prior to its stated maturity, on such terms and conditions and with such redemption premium as the Commission shall prescribe.

(b) They shall be sold at not less than par and accrued interest to the date of their respective deliveries at public sale. At least ten days prior to any sale, notice announcing the intention to receive bids for sale of such bonds shall be published in a newspaper of general circulation in the State of South Carolina. In offering the bonds for sale, the Commission shall reserve the right to reject any and all bids, and if all bids shall be rejected, the Commission may negotiate privately for the disposition of such bonds.

(c) Such bonds and all interest to become due thereon shall have the tax exempt status prescribed by Section 65-4.1 of the Code of Laws of South Carolina, 1962.

(d) All general obligation bonds issued pursuant to this act shall be manually signed by the Chairman of the Commission. The Seal of the District shall be affixed to, impressed or reproduced upon each of such bonds, and each of such bonds shall be attested by the Secretary of the Commission. The coupons attached to such bonds shall be authenticated by a facsimile of the signatures of the Chairman and the Secretary of the Commission, who shall be in office on the date of the adoption of the resolution of the Commission authorizing the bonds.

(e) The delivery of any bonds so executed and authenticated shall be valid notwithstanding any changes in officers or seal occurring after such execution and authentication.

(8) There shall be irrevocably pledged for the payment of such bonds and interest as they mature the full faith, credit and resources of the District. Until the principal and interest of all bonds issued under this act shall be fully paid, there shall be levied on all taxable

property in the District an annual ad valorem tax sufficient to pay the principal and interest of all bonds issued under this act as such principal and interest becomes due. The tax shall be annually levied by the Comptroller General of South Carolina and collected by the County Treasurers of Richland and Lexington Counties at the same time and in the same manner as county taxes are collected. Each of the county treasurers shall collect the tax in his county and pay it to the State Treasurer in the manner and within the time heretofore provided by law for the payment of state taxes to the State Treasurer, who shall set them apart in a special fund and apply them solely to the payment of principal and interest of the bonds so long as any such principal or interest remains outstanding. The tax to be levied under the provisions of this paragraph shall not be substantially greater than the amount necessary to pay principal and interest of bonds maturing during the year in which moneys produced by such levy will come into the hands of the State Treasurer, as reduced by the anticipated balance of funds actually in the hands of the State Treasurer, on the occasion when it becomes necessary to fix such tax levy, produced by:

(a) additional collections from such levies made in prior years; (b) net revenues derived by the Commission from the operation of its facilities not required to meet costs of operating, maintaining, enlarging and improving its facilities, or to discharge covenants securing bonds issued pursuant to paragraph 18 of Section 5 of Act No. 681 of 1962. When all principal and interest of outstanding bonds have been paid, the State Treasurer shall transfer any balance remaining in the special fund created under the terms of this paragraph to the general fund of the Commission subject to its draft or order for any legitimate purpose incident to the operation, maintenance or extension of the District's airport facilities.

(g) The proceeds derived from the sale of such bonds shall be deposited with the Treasurer of the State of South Carolina in a separate and special fund, and shall be subject to transfer, upon warrants or orders of the Commission, to any bank or trust company having an office within the District, to be expended by the Commission for the purpose of meeting any costs incurred in the issuance of the bonds and to meet the cost of constructing and establishing the airport facility within the District in the manner contemplated by the definition of "construct and establish" as set forth in paragraph 19 of Section 5 of Act No. 681 of 1962, and to no other purposes; *provided,*

however, that any premium received shall be deposited with the Treasurer of the State of South Carolina and applied by him to the first installment of principal becoming due on the bonds, and any accrued interest received shall be applied by the State Treasurer to the first installment of interest becoming due on the bonds; and *provided*, further, pending such withdrawals, the Treasurer of South Carolina shall, upon the request of the Commission, be empowered to invest and reinvest the proceeds derived from the sale of the bonds in direct general obligations of the United States of America having a maturity of not more than one year from the date as of which such investment shall be made. Income derived from such investments shall be applied to the payment of any interest to accrue on the general obligation bonds of the District. Neither the purchaser of the bonds nor any subsequent holders thereof shall be responsible for the proper application of the proceeds of sales.

**SECTION 3. Repeal.**—All acts or parts of acts inconsistent herewith are repealed to the extent of such inconsistencies.

**SECTION 4. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 3rd day of June, 1963.

Any bond issued pursuant to this act may, at the discretion of the commissioner, contain a provision permitting its redemption prior to its stated maturity at such redemption premium as the commissioners shall determine. **An Act To Authorize The Richland County Civic Center Commission, Created Pursuant To Act No. 1209 Of 1962, To Hold An Election To Determine The Wishes Of The Qualified Electors Of The County On A Bond Issue For The Erection Of A Civic Center.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that it is in the public interest of Richland County that a civic center be established in the county on lands formerly owned by the South Carolina State Fair Association and more recently conveyed to the City of Columbia, subject to certain restrictions and reservations found not to be burdensome. The civic center is intended to consist of a public auditorium, a public coliseum, and related buildings, all of which can be utilized for educational, cultural and related purposes. It is recognized that such an establishment would involve an outlay of several million dollars, and as a consequence, if the civic center is to be constructed it is necessary that a large expenditure of public moneys be made. The General Assembly takes note of the fact that Sections 5

and 6 of Article X of the Constitution have been amended so as to (a) remove all question as to the propriety of the purpose of the undertaking; and (b) remove from the debt limitations in Section 5 of Article X bonds of Richland County to be issued for such purpose, whenever the question of the issuance of such bonds shall have been presented to the qualified electors of Richland County and their approval shall have been obtained in any election held subsequent to November 1, 1962. The General Assembly has, therefore, determined to permit the issue of general obligation bonds of Richland County to the extent and under the conditions enumerated in Act No. 1209 of 1962.

**SECTION 2. Richland County Civic Center Commission may hold election concerning construction of a civic center.**—The Richland County Civic Center Commission is authorized to hold an election in order to submit the question to the qualified electors of the county of the issuance of bonds for the purpose of constructing a civic center. The election shall be held under the terms and conditions as set forth in Act No. 1209 of 1962 and the results of the election shall be announced in the manner provided by the act and any bonds that may be issued for the purpose of the construction of the civic center shall be issued in accordance with those terms and conditions specified in Act No. 1209 of 1962.

**SECTION 3. Effect of Act 1209 of 1962.**—In all matters pertaining to the civic center, the commission shall be guided by the provisions of Act No. 1209 and may exercise any of the rights, privileges and duties set forth therein.

**SECTION 4. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 3rd day of June, 1963.

**An Act To Authorize The County Board Of Commissioners Of Richland County To Issue And Sell Not Exceeding Two Million Two Hundred Thousand Dollars Of General Obligation Bonds Of Richland County To Provide Funds For Capital Expenditures For Richland County; To Prescribe The Conditions Under Which The Bonds Shall Be Issued; And To Make Provision For The Payment Of The Bonds.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that there is an immediate need for capital expenditures for Richland County for the following purposes :

1. To defray the cost of constructing and equipping a Technical Educational Center, including the cost of an appropriate site therefor, not exceeding five hundred fifty thousand dollars.

The expenditure here authorized is made in order that Richland County may cooperate with the program instituted by Article 7, Chapter 15, Title 21, Code of Laws of South Carolina, 1962.

2. To defray the cost of constructing and equipping a prison camp, including the cost of a suitable site therefor, not exceeding one hundred fifty thousand dollars.

3. To pay the cost of the purchase price and renovation of a building and lot to house the Richland County Service Officer and Agricultural Agencies promoting agriculture in Richland County, not exceeding one hundred fifty thousand dollars.

4. To defray the cost of constructing and equipping a new county jail, including the cost of a suitable site therefor, not exceeding one million three hundred fifty thousand dollars.

The General Assembly takes further note of the fact that a portion of the sums required for these items have already been met through temporary borrowings made in anticipation of the issuance of bonds, and that a portion of the sums set apart for those purposes must be used to effect repayment of the sums raised through such temporary arrangements.

The General Assembly has, therefore, determined to empower the County Board of Commissioners of Richland County, as constituted by Article I, Chapter 56, Title 14, Volume 3, Code of Laws of South Carolina, 1962, (the county board) to issue general obligation bonds of Richland County, to the extent herein provided, in order to provide the funds required for the capital expenditures above referred to.

**SECTION 2. Richland County may issue bonds for technical training program.**—In order to provide funds to be expended for the purposes mentioned in Section 1 of this act, the county board is hereby authorized and empowered to issue and sell general obligation bonds of Richland County in an aggregate principal amount not exceeding two million two hundred thousand dollars.

**SECTION 3. Issue.**—The bonds authorized by this act may be issued as a single issue, or from time to time as several separate issues.

**SECTION 4. Maturity.**—The bonds shall be in such denominations and shall mature in such annual series or installments as the county board shall provide for, except that the last maturing bonds shall mature not later than twenty years from the date as of which the bonds shall be issued.

**SECTION 5. Redemption—notice.**—The bonds issued pursuant to this act may be issued with a provision for their redemption prior to their stated maturities at par and accrued interest, plus such redemption premium as may be prescribed by the county board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. If bonds are made subject to redemption, provision shall be made in the proceedings authorizing the issuance of the bonds, specifying the manner of call and the notice thereof that must be given.

**SECTION 6. Form—registration.**—The bonds shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Richland County, upon such conditions as the county board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 7. Place of payment.**—The bonds issued pursuant to this act shall be made payable at such place, within or without the State, as the county board shall provide.

**SECTION 8. Interest.**—Bonds issued pursuant to this act shall bear interest at rates determined by the county board.

**SECTION 9. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the county board shall by resolution provide.

**SECTION 10. Sale—notice.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina, and in a financial journal published in the City of New York, State of New York. The published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 11. Payment.**—For the payment of the principal and interest of all bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Richland County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Richland County, and collected by the Treasurer of Richland County, in the same manner as county taxes are levied and collected, a tax without limit on all taxable property in Richland County, sufficient to pay the principal and interest of such bonds as they respectively mature, and to create such sinking fund as may be necessary therefor.

**SECTION 12. Exempt from taxes.**—The principal and interest of any bonds issued pursuant to this act shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 13. Use of proceeds.**—The proceeds derived from the sale of any bonds issued pursuant to this act shall be paid to the Treasurer of Richland County and shall be deposited in a bond account fund, and shall be expended and made use of as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be expended, on the warrant of the county board, to defray the cost of issuing the bonds authorized hereby, and utilized, within the limitations set forth in Section 1, for the purposes therein provided, that is to say:

(1) Not exceeding five hundred fifty thousand dollars to defray the cost of constructing and equipping a Technical Educational Center, including the cost of an appropriate site therefor, or to repay temporary indebtedness of Richland County incurred for such purpose;

(5) If any balance remain, it shall be held by the Treasurer of Richland County in a special fund and used to effect the retirement of bonds authorized hereby; *provided*, that the purchaser of the bonds herein authorized shall be in no way responsible for the proper application of the proceeds.

**No. 645**

**An Act To Authorize The County Of Richland To Issue General Obligation Bonds For The Purpose Of Erecting A Civic Center And Allied Facilities; To Authorize The State of South Carolina To Contribute To The Cost Of Such Project; To Provide For The Payment Of Such Amounts, All Of Which Shall Be Subject To A Favorable Result Of An Election; To Further Provide For The Membership Of The Richland County Civic Center Commission And To Amend Section 3 Of Act No. 1209 Of 1962, Relating To The Advisory Board Of The Richland County Civic Center Commission, So As To Increase The Membership Thereof.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly—bond issue—election.**—As an incident to the authorizations herein made, the General Assembly has made the following findings:

1. By Act No. 1209 of the Acts of 1962, Richland County Civic Center Commission (the Commission) was created and authorized and empowered to construct the project therein set forth.

2. In order to provide moneys for such project the Commission was authorized and empowered to issue general obligation bonds of Richland County, if the election required by such act was held and resulted favorably. The election was held, but resulted unfavorably by a small margin. By legislation in *pari materia* a further election is authorized to determine whether the Commission shall be empowered to issue bonds of Richland County to the extent of seven million dollars. Such amount, if made available, is less by two million dollars than that which is required to adequately construct and equip the project.

It is proper that the State make a contribution toward the project of not exceeding two million dollars. On this basis the General Assembly has determined to empower the Governor and State Treasurer to issue notes of the State to the extent of not exceeding two million dollars under the conditions hereinafter set forth.

If an election shall be held in Richland County to determine if the Commission shall be empowered to issue general obligation bonds of Richland County to the extent of not exceeding seven million dollars, such election shall result favorably and the result so obtained shall unconditionally empower the Commission to issue general obligation bonds of Richland County to the extent of seven million dollars, and if the State Budget and Control Board of South Carolina (the State Board) shall find by resolution duly adopted that the project proposed by Act No. 1209 of 1962 can be constructed and suitably equipped with an expenditure of not exceeding nine million dollars (being the amount to be raised through the sale of general obligation bonds of Richland County, plus the two million dollar expenditure herein authorized), then in such event the Governor and the State Treasurer shall be empowered to issue notes of the State of South Carolina to the extent of two million dollars and to apply the proceeds therefrom, under such conditions as the State Board shall determine, to the payment of expenses to be incurred in the construction and equipping of the project authorized by Act No. 1209 of 1962. Such notes shall mature in fifteen successive, and in substantially equal (to the nearest five thousand dollars) annual installments, each maturing on anniversaries of the date the notes bear. The notes may, at the discretion of the State Board, be made subject to redemption prior to their stated maturities on such occasions and under such conditions as the State Board shall prescribe. The notes shall bear interest payable annually or

semi-annually, at such rate or rates as the State Board may prescribe.

All notes issued under this section shall be signed by the Governor and the State Treasurer. The Great Seal of the State shall be affixed to or reproduced upon each of them, and each shall be attested by the Secretary of State. The delivery of the notes so executed and authenticated shall be valid notwithstanding any changes in officers or seal occurring after such execution or authentication. The notes shall be in such form as the State Board shall prescribe, and may be issued as a single fully registered note.

The principal and interest on the notes issued pursuant to this section shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

For the payment of the principal of and interest on the notes issued pursuant to this section there shall be pledged so much thereof as may be needed of the revenue derived from the tax imposed pursuant to Article 1, Chapter 12, Title 65 of the 1962 Code. Until payment of such principal and interest has been made or has been provided for, all sums received in each fiscal year from the tax referred to above shall be delivered to the State Treasurer and shall be applied by him to the payment of the principal and interest, and to the debt servicing of other outstanding obligations of the State also secured by a pledge of such revenues. Thereafter, further revenues from such tax for such fiscal year may be used for other purposes. The General Assembly takes note of the fact that there are presently outstanding obligations of the State of South Carolina payable from the tax hereinabove pledged, and it is hereby declared that the notes authorized by this section shall in all respects be on a parity with such outstanding obligations. The pledge of revenues derived from the tax above referred to shall not preclude the issuance by the State of further obligations secured, in whole or in part, by a pledge of such revenues on a parity with the pledge herein authorized, nor shall the pledge of revenue derived from such tax preclude the revision of such tax as to rate or method, either or both, if the State Auditor shall certify that his estimate of the revenue to be derived annually from the tax as thus revised will not be less than one hundred and twenty-five per cent of that sum which is equal to the maximum annual principal and interest requirements on all notes or obligations of the State for which the revenues derived from the aforesaid tax have been pledged. Such certificate shall

be appended to the enrolled act and be presented to the Joint Assembly on the occasion such act is presented for ratification.

The State Board may, in its capacity as Trustee of the funds of the South Carolina Retirement System, purchase the notes herein authorized as an investment of such funds.

The proceeds derived from the sale of the notes authorized by this section shall be deposited with the State Treasurer and shall be expended by or on behalf of the State agencies for whom the proceeds thereof are made available for the purposes set forth in paragraph 4 of this section.

**SECTION 2. Civic Center Commission—membership.**—The State shall be represented on the South Carolina Civic Center Commission by a minimum of two members to be appointed by the Governor. These two members must come from some other county or counties other than Richland County.

**SECTION 3. Advisory board created.**—Section 3 of Act No. 1209 of 1962 is amended to read as follows:

“Section 3. For the purpose of advising the Commission in all phases of the construction and operation of the civic center and for the further purpose of making recommendations to the General Assembly as to the proper functioning of the facilities, there is hereby created an advisory board, to be known as the ‘Advisory Board of the Richland County Civic Center Commission’, hereinafter called the ‘Advisory Board’. Issuance of bonds authorized if election favorable.**—The commission, on behalf of the district, shall be empowered to issue not exceeding nine hundred thousand dollars of general obligation bonds of the district, whose proceeds shall be used to defray the cost of constructing and establishing a sewer and garbage collection system in the district. General obligation bonds shall be issued only in the event the election required by Section 5 of this act shall result favorably. All or any general obligation bonds issued pursuant to this act may be additionally secured by a pledge of the net revenues to be derived from the operation of any revenue-producing facility operated and maintained by the district. The words “net revenues” as used in this paragraph shall mean that sum remaining from the aggregate of all monies realized by the district from rates and charges imposed and collected after paying the cost of operation and mainte-

nance of the facilities, whose revenue shall be pledged. If, pursuant to this paragraph, general obligation bonds are issued:

(a) They shall be issued as a single issue or from time to time as several separate issues. They shall bear such date as the commission shall determine, and the bonds of any issue shall mature in such equal or unequal installments as may be determined by the commission. They shall be made payable at such place as the commission shall prescribe, and they shall bear interest at such rate, and shall be payable in such manner as the commission may determine. Any bond issued pursuant to this paragraph may be made subject to redemption prior to its stated maturity, on such terms and conditions, and with such redemption premium as the commission shall prescribe.

(b) They shall be sold at not less than par and accrued interest to the date of their respective deliveries, at public sale, and at least ten days prior to any sale, notice, announcing the intention to receive bids for the sale of such bonds, shall be published in a newspaper of general circulation in the State of South Carolina. In offering the bonds for sale, the commission shall reserve the right to reject any and all bids, and if all bids shall be rejected, the commission may negotiate privately for the disposition of such bonds.

(c) Such bonds and all interest to become due thereon shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

(d) Such bonds shall be executed in the name of Hilltop Sewer and Garbage Collection District by the chairman and secretary of Hilltop Sewer and Garbage Collection Commission, under the seal of the district. The coupons attached to such bonds may be authenticated by the facsimile signatures of the chairman and the secretary of the commission who are in office on the date of such bonds. The delivery of any bonds so executed and authenticated shall be valid, notwithstanding any changes in officers or seal occurring after such execution or authentication.

(e) There shall be irrevocably pledged, for the payment of the bonds and interest as they mature, the full faith, credit and resources of the district, and the Auditor and Treasurer of Spartanburg County are hereby authorized and directed to levy and collect annually a tax upon all taxable property within the district sufficient to pay

the bonds and interest as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at respective maturities. The bonds may be additionally secured by a pledge of the net revenues which the district may derive from the operation of any revenue-producing facility. In such event, such net revenues as shall be available shall be delivered to the Treasurer of Spartanburg County, and he shall set them apart in a special fund and apply them solely to the payment of the principal and interest of the bonds, so additionally secured by a pledge of such net revenues, so long as any principal or interest of the bonds remain outstanding. The annual ad valorem tax herein directed to be levied may be reduced in each year by the amount of net revenues, as aforesaid, actually in the hands of the Treasurer of Spartanburg County at the time the tax for such year is required to be levied, and the tax may be entirely suspended for any year in case such monies on hand, applicable as aforesaid, are sufficient to pay both principal and interest then due or falling due in such year and remaining unpaid.

(f) The pledge of net revenues authorized by subparagraph (e) of this section need not, in the discretion of the commission, be exclusive, and the commission may reserve the right to issue further bonds payable in whole or in part from such net revenues on a parity with the bonds authorized by this paragraph under such conditions as the commission may prescribe.

(g) The proceeds derived from the sale of such bonds shall be deposited with the Treasurer of Spartanburg County in a separate and special fund, and shall be expended upon the warrants or orders of the commission for the purposes specified herein, and no others, except that any premium received shall be deposited with the Treasurer of Spartanburg County and applied by him to the first installment of principal becoming due on the bonds, and any accrued interest received shall be applied by the Treasurer of Spartanburg County to the first installment of interest becoming due on the bonds; neither the purchasers of the bonds, nor any subsequent holders thereof, shall be responsible for the proper application of the proceeds of sale.

The election shall be conducted by the Commissioners of Election for Spartanburg County, who shall give notice of the election by publication once each week, for three successive weeks prior thereto, in one or more newspapers with general circulation in the district, stating the question to be submitted at the election, and specifying the amount in dollars of the bonds proposed to be issued. No. 657

**An Act To Authorize And Empower Una Water District Commission To Issue General Obligation Bonds Of Una Water District In The Principal Amount Of Not Exceeding Five Hundred Thousand Dollars, If The Election Required By This Act Shall Result Favorably; To Prescribe The Purposes For Which The Proceeds Of The Bonds Shall Be Used, The Terms And Conditions Upon Which The Bonds Shall Be Issued And To Make Provision For The Payment Of Such Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that Una Water District Commission was duly created by Act 582 of 1955, and Act 513 of 1959 confirmed the right of the commission to issue certain bonds. The district as originally created was empowered to incur indebtedness in the aggregate principal

amount of five hundred thousand dollars, if the election required by Act 582 of 1955 resulted favorably. An election was held upon the issuance of not exceeding five hundred thousand dollars of bonds, which resulted favorably to the issuance of the bonds, and bonds in that amount were issued and their proceeds applied to constructing and establishing a water system in the district.

**SECTION 2. Findings further.**—The General Assembly finds that Act 582 of 1955, and confirming Act 513 of 1959 provided for the commission to use the proceeds from the sale of the bonds first to the construction of a water distribution system, and all remaining funds to be used toward the construction of a sewer system within the district. The General Assembly finds that due to the densely populated area within the confines of the district that a sewer system is greatly needed for the health and welfare of the inhabitants therein, and on the basis of that finding has determined to empower the Una Water District Commission to undertake such construction of a sewer system and to borrow funds for that purpose not exceeding five hundred thousand dollars, if the election required by this act shall result favorably.

**SECTION 3. Special election covering bond issue.**—In order to determine if the authorizations of this act shall become available to it, the Una Water District Commission (herein called “the commission”) is hereby empowered to adopt a resolution ordering a special election to be held in the district on a date to be fixed by the commission. Whereupon, and if request therefor be made by the commission, it shall be the duty of the Commissioners of Election for Spartanburg County to conduct the election.

Voting places for the election shall be established in each precinct or portion thereof in the district and at such election all persons residing in the district and qualified to vote in general elections shall be eligible to vote.

Notice of the election shall be given by the commission by the publication of a notice in a daily newspaper published in Spartanburg County, setting forth the time, purpose, the question to be voted on, the qualification of voters, and the location of the several voting places, on at least three occasions; the first publication shall appear not less than twenty days before the date of the election, and the remaining publications shall be spaced at intervals of seven days.

The ballot to be used in the election shall be in form substantially as follows:

“Shall Una Water District Commission be empowered to issue not exceeding five hundred thousand dollars of general obligation bonds of Una Water District to provide funds for the construction of a sewer system in the district?

YES

NO”

Appropriate instructions shall appear on the ballot apprising persons in favor of the issuance of bonds to strike through the word “NO”, and apprising those against the issuance of bonds to strike through the word “YES”.

The election shall be conducted by managers appointed by the Commissioners of Election for Spartanburg County, who shall cause the polls to be kept continuously open from 8:00 a. m. until 6:00 p. m. on the date set for the election. Following the closing of the polls, the managers shall make their returns to the commissioners of election, who shall thereupon canvass the returns and declare the results of the election. Due notice to the commission shall be given by the commissioners of election of the results of the election, and if the commission shall cause a copy of the declaration (certified to by the commission) to be filed in the office of the Clerk of Court for Spartanburg County and in the office of the Secretary of State, no action challenging the result of the election or the validity of its holding shall be brought, unless instituted within thirty days thereafter.

**SECTION 4. Bonds may be issued if election favorable.**—If the election provided for by Section 3 hereof shall have resulted favorably, then, in order to provide funds for the construction of a sewer system for the district, the commission is hereby authorized and empowered to issue, either as a single issue, or from time to time as several separate issues, not exceeding five hundred thousand dollars of general obligation bonds of Una Water District.

**SECTION 5. Denominations — dates — maturity — interest — redemption.**—All bonds issued pursuant to the authorizations of this act shall be in such denominations, and bear such dates as the commission shall determine, and the bonds of any issue or series shall mature in such equal or unequal annual instalments as may be determined by the commission, except that the first maturing bonds of any issue or series shall mature not later than three years from their date and the last maturing bonds of any issue or series shall mature not later than thirty years from their date. They shall be made payable

at such places as the commission shall prescribe, and the bonds shall bear interest at such rates as shall be designated by the successful bidder at the sale thereof, subject to such limitations and restrictions as the commission may impose. The bonds may be issued with the privilege to the holder of having them registered as to principal on the books of the Treasurer of Spartanburg County, and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, upon such conditions as the commission may prescribe. Any bond issued pursuant to the provisions of this act may be made subject to redemption prior to its stated maturity on such terms and conditions and with such redemption premium as the commission shall prescribe.

**SECTION 6. Sale.**—All bonds issued pursuant to this act shall be sold at not less than par and accrued interest to the date of their respective deliveries, at public sale, and at least ten days prior to any sale, notice, announcing the intention to receive bids for the sale of any bonds authorized by this act, shall be published in a daily newspaper of general circulation published in South Carolina. In offering the bonds for sale the commission may reserve the right to reject all bids, but if all bids are rejected, the bonds shall be re-advertised for sale in the same manner. If a second call for bids shall produce results unsatisfactory to the commission, the commission shall be empowered to effect a private sale of the bonds authorized hereby.

**SECTION 7. Exempt from taxes.**—The bonds and all interest to become due thereon shall have the tax exempt status prescribed by Section 65-4.1 of the 1962 Code.

**SECTION 8. Execution.**—All bonds issued pursuant to this act and the coupons to be appertaining thereto shall be executed in such manner as the commission shall prescribe.

**SECTION 9. Payment.**—For the payment of the bonds, both principal and interest, as they respectively mature, the full faith, credit resources, and taxing power of Una Water District shall be pledged, and there shall be levied and collected by the Auditor and Treasurer of Spartanburg County, respectively, an ad valorem tax upon all taxable property in Una Water District without limitation as to rate or amount, sufficient to pay the interest on the bonds and the bonds as they respectively mature, and to create such sinking fund as may be necessary for the redemption of the bonds and interest at respective maturities. The taxes, when so levied and collected, shall be held

by the Treasurer of Spartanburg County separate and distinct from all other funds and used solely for the purposes for which levied and collected under the terms of this act.

**SECTION 10. Proceeds.**—The proceeds derived from the sale of these bonds shall be deposited with the Treasurer of Spartanburg County in a special fund separate and distinct from all other funds, and shall be expended upon the order of the commission for the following purposes, and for no other:

(1) The accrued interest, if any, shall be applied to meet the first instalment of interest to become due on the bonds;

(2) The premium received, if any, shall be applied to the payment of the first instalment of principal to become due;

(3) The principal proceeds shall be applied to: (a) the cost of issuing the bonds; and (b) the cost of constructing and acquiring adequate sewage disposal facilities in the district.

**SECTION 11. Powers to be additional.**—The power and authority hereby conferred shall be in addition to all presently existing power and authority, and not in abrogation thereof, except that authority to issue bonds by reason of previous enactments of the General Assembly not made use of on the occasion of the effective date of this act shall be deemed to have lapsed and to be of no further force or effect.

**SECTION 12. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 18th day of May, 1963.

**An Act To Provide For The Holding Of Elections In Liberty-Chesnee-Fingerville Water District In Spartanburg County And In The Adjoining Area Known As The Cannons Area; To Determine Whether The Cannons Area Shall Become A Part Of The Water District And Whether Additional Bonds Of The District Shall Be Issued If The Cannons Area Shall Become A Part Of The Water District; To Make Provision For Borrowing By The District If The Elections Result Favorably; To Prescribe The Terms And Conditions Under Which Moneys May Be Bor-**

**rowed By The District; To Make Provision For The Repayment Thereof; And To Repeal Act 1232 Of 1962, Relating To The Cannons Area Water District In Spartanburg County.**

Be it enacted by the General Assembly of the State of South Carolina :

**SECTION 1. Findings of General Assembly.**—The General Assembly finds: .

(1) Heretofore by Act 1232 of 1962 the General Assembly created certain territory in Spartanburg County, more fully described in Section 1 of the act, into "the Cannons Area Water District", and did by Act 1232 of 1962 undertake to make provision whereby the inhabitants of the area might be served by a publicly operated water system.

(2) Following such enactments, engineering studies were made to determine the financial feasibility of the plan authorized by the legislation, and studies then made indicated that the plan was not financially feasible. Further study has been made to determine a practical method by which a public water system may be made available to a majority of those who would have received such service had the plan contemplated by the legislation proved successful.

The General Assembly has taken note that the area hereinafter described is adjacent to portions of the Liberty-Chesnee-Fingerville Water District in Spartanburg County, a special purpose district created by Act 1120 of 1960.

Engineering studies have been made which would indicate that if this area should be annexed to and, become a part of the Liberty-Chesnee-Fingerville Water District, it might be served through extensions and additions to the existing Liberty-Chesnee-Fingerville Water System. Such a plan would involve the issuance of further bonds of the Liberty-Chesnee-Fingerville Water District, in addition to the bonds authorized by Act 1120 of 1960.

After due consideration, the General Assembly has determined to provide a method by which this can be accomplished, but to permit it only if: (a) an election be held in the area to be annexed and shall result favorably; (b) an election be held in Liberty-Chesnee-Fingerville Water District, as now constituted and shall result favorably; and (c) the question of the issuance of bonds to the extent necessary to provide service in the annexed area be submitted to the Liberty-Chesnee-Fingerville Water District as enlarged (if the elections on such annexation shall result favorably).

**SECTION 2. Liberty-Chesnee-Fingerville Water Commission may annex territory if election favorable.**—The Liberty-Chesnee-Fingerville Water Commission may declare annexed to and incorporated into the Liberty-Chesnee-Fingerville Water District, if the elections required by Section 3 of this act shall be held and shall result favorably, the following described territory in Spartanburg County, South Carolina:

Beginning at a point in the western boundary line of the existing Cowpens Water District at a point approximately one-half of a mile northwest from U. S. Highway 29-A and one-half of a mile southwest from a county road known as "Floyd's Cabin Road" and running thence in a northwesterly direction parallel to and one-half of a mile from "Floyd's Cabin Road" to the eastern boundary line of the existing Liberty-Chesnee-Fingerville Water District; thence with the eastern boundary line of the existing Liberty-Chesnee-Fingerville Water District in a northeasterly direction crossing the Clinchfield Railroad and running thence to a point one thousand (1,000) feet northeast from the Clinchfield Railroad; thence running in a southerly direction parallel to and one thousand (1,000) feet from the railroad to the Pacolet River; thence in a southerly direction with the Pacolet River to a point at which the Pacolet River intersects the northwestern boundary of the existing Cowpens Water District approximately one-half of a mile north of U. S. Highway 29-A; thence with the northwestern boundary line of the existing Cowpens Water District in a southwesterly direction to the point of beginning.

which, for the purpose of convenience, is hereafter referred to as "the Cannons Area". Such action shall be taken by resolution of the Liberty-Chesnee-Fingerville Water Commission and certified copies thereof shall be subsequently filed in the offices of the Auditor, Treasurer and Clerk of Court of Spartanburg County.

**SECTION 3. Annexation election.**—The Commissioners of Election of Spartanburg County shall conduct a special election in the Liberty-Chesnee-Fingerville Water District and in the Cannons Area on some date following the occasion when a plat of the Cannons Area shall have been made and shall have been filed in the offices of the Auditor, Treasurer and Clerk of Court of Spartanburg County, and on a date prior to the date of the first publication of the notice of election, for the purpose of submitting to the qualified elec-

tors of the Liberty-Chesnee-Fingerville Water District and the Cannons Area the following question:

Shall the territory in Spartanburg County (known as the Cannons Area) described on a plat entitled "Map of Cannons Area Water District", prepared by Lockwood Greene Engineers, revised March 11, 1963, and recorded in the R.M.C. Office for Spartanburg County, be annexed to and become a part of the Liberty-Chesnee-Fingerville Water District in Spartanburg County, South Carolina?

YES .....

NO .....

**SECTION 4. Bond issue election.**—On some occasion either simultaneously with the elections to be conducted pursuant to Section 3 of this act, or on some occasion subsequent thereto selected by the Commissioners of Election, there shall be held in the Liberty-Chesnee-Fingerville Water District (as enlarged if the bond election be held subsequent to the annexation elections), or, if the bond election herein required be held simultaneously with the annexation elections required by Section 3 above, in the Liberty-Chesnee-Fingerville Water District as now constituted and in the Cannons Area as above described, a special election upon the question of the issuance of not exceeding three hundred fifty thousand dollars of general obligation bonds of the Liberty-Chesnee-Fingerville Water District as enlarged by the annexation of the Cannons Area, whose proceeds shall be applied to the cost of extending and enlarging the water distribution system of the Liberty-Chesnee-Fingerville Water District so that it will provide water distribution service to the Cannons Area. The question to be submitted at such election shall be in form substantially as follows:

Shall the Liberty-Chesnee-Fingerville Water District as enlarged by virtue of annexation of the Cannons Area (now or hereafter accomplished), be empowered to issue not exceeding three hundred fifty thousand dollars of general obligation bonds of the Liberty-Chesnee-Fingerville Water District as thus enlarged, for the purpose of providing funds to defray the cost incident to the extension and enlargement of the water distribution system of the Liberty-Chesnee-Fingerville Water District so as to provide service in the Cannons Area?

YES .....

NO .....

**SECTION 5. Conduct of elections.**—The Commissioners of Election of Spartanburg County, in order to accomplish the directives of Sections 3 and 4 shall be empowered as follows:

(1) To set a date and conduct the special election as prescribed by Sections 3 and 4.

(2) To give notice of the holding of such election by publication of notice thereof not less than once a week for three successive weeks prior to the occasion fixed for the holding of such election, in one or more newspapers of general circulation in Spartanburg County. Each notice shall state the question or questions to be submitted, and the question relating to the issuance of bonds shall clearly set forth the amount of bonds proposed to be issued.

(3) To prescribe the form of ballot (in accordance with the instructions set forth in this act) to be used in such elections, and to cause an appropriate number of ballots to be printed. Each ballot shall contain suitable instructions advising each voter that if he favors the affirmative of the question voted upon, he shall erase or strike through the word NO, and that if he favors the negative of the question, he shall erase or strike through the word YES.

(4) Appoint necessary managers at each precinct in whole or in part in the Liberty-Chesnee-Fingerville Water District and in the Cannons Area.

(5) To receive the returns of the managers and declare the results of the elections.

Except as herein provided, the elections shall be conducted in accordance with the South Carolina Election Law.

**SECTION 6. Bonds may be issued if election favorable.**—If a majority of those voting upon the question of the issuance of bonds (such majority to be determined collectively rather than separately in the Liberty-Chesnee-Fingerville Water District and in the Cannons Area, as required for the purpose of annexation), then in such event, the Liberty-Chesnee-Fingerville Water District Commission shall be authorized and empowered to issue general obligation bonds of the Liberty-Chesnee-Fingerville Water District (as enlarged by the annexation of the Cannons Area), in the aggregate principal amount of not exceeding three hundred fifty thousand dollars. The proceeds of the bonds shall be used to defray the cost of constructing and establishing suitable enlargements and additions to the water distribution system of the Liberty-Chesnee-Fingerville Water District, to render service to the Cannons Area.

**SECTION 7. Dates — maturity — interest — redemption.**—All bonds issued pursuant to this act shall bear such date as the Liberty-Chesnee-Fingerville Water District Commission (hereinafter called the commission) shall determine, and shall mature in such equal or unequal annual instalments as may be determined by the commission, except that the first maturing bonds shall mature not later than three years from their date and the last maturing bonds shall mature not later than thirty years from their date. They shall be made payable at such place or places as the commission shall prescribe, and such bonds shall bear interest at such rate or rates as shall be designated by the successful bidder at the sale thereof, subject to such limitations and restrictions as the commission may impose. The bonds may be issued with the privilege to the holder of having them registered as to principal on the books of the Treasurer of Spartanburg County, and the principal thus made payable to the registered holder, unless the last registered transfer shall have been to bearer, upon such conditions as the commission may prescribe. Any bond issued pursuant to the provisions of this act may be made subject to redemption prior to its stated maturity on such terms and conditions and with such redemption premium as the commission shall prescribe.

**SECTION 8. Sale.**—All bonds issued pursuant to this act shall be sold at not less than par and accrued interest to the date of their respective deliveries, at public sale, and at least ten days prior to the sale notice, announcing the intention to receive bids for the sale of any bonds authorized by this act, shall be published in a daily newspaper of general circulation published in South Carolina. In offering the bonds for sale the commission may reserve the right to reject all bids, but if all bids are rejected, the bonds shall be readvertised for sale in the same manner. **SECTION 12. Proceeds.**—The proceeds derived from the sale of bonds issued pursuant to this act shall be deposited with the Treasurer of Spartanburg County in a separate and distinct fund and shall be expended upon the warrant or orders of the commission for purposes for which the bonds are issued, provided that the purchasers of any bonds, or any subsequent holders thereof, shall be in no wise responsible for the proper application of such proceeds.

**No. 671**

**An Act To Authorize The County Board Of Commissioners Of Williamsburg County To Issue Not Exceeding Five Hundred Thousand Dollars Of General Obligation Bonds Of Williamsburg County To Provide Funds To Provide Public Hospital Facilities For Williamsburg County; To Prescribe The Conditions Under Which The Bonds May Be Issued And The Purposes For Which The Proceeds May Be Expended, And To Make Provision For The Payment Of The Principal And Interest Of The Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Act No. 1255 of the 1962 Acts the Williamsburg County Memorial Hospital Board (the Hospital Board) was created and therein authorized to acquire a site and to construct and equip thereon, and thereafter maintain and operate, a public hospital in order to provide hospital facilities for inhabitants of Williamsburg County.

The Hospital Board has conducted surveys and has actively and diligently prosecuted plans to implement the establishment of suitable hospital facilities for Williamsburg County. Arrangements have been made for a suitable site whereon to construct the hospital facilities

and applications have been made to appropriate Federal agencies for financial assistance under the provisions of the Hill-Burton Act. A local campaign has resulted in substantial donations and pledges and it has now been ascertained that a suitable hospital can be constructed and equipped if Williamsburg County shall make available to the Hospital Board a sum now ascertained to be in the neighborhood of four hundred seventy-five thousand dollars. After fully investigating the existing circumstances, the General Assembly has determined to authorize the County Board of Commissioners of Williamsburg County, as constituted by the provisions of Title 14, Chapter 61 of the 1962 Code, (the County Board) to issue general obligation bonds of Williamsburg County to the extent of five hundred thousand dollars, or such portion thereof as shall, on the occasion of the issuance of the bonds, be required for the aforesaid purpose and be within the constitutional limitation applicable to the bonded debt of Williamsburg County, in order to provide the additional moneys required by the Hospital Board for the purpose of constructing and equipping a public hospital for Williamsburg County authorized by Act 1255 of 1962.

The General Assembly takes further note of the fact that by reason of the requirements of the Federal Agency dispensing the Federal grant that Williamsburg County was required to exercise authorizations set forth in Act No. 1256 of 1962 and borrow moneys. Such borrowings were in anticipation of the issuance of bonds pursuant to this act and should be retired with the proceeds of the bonds authorized by this act.

**SECTION 2. Williamsburg County may issue bonds for hospital facilities.**—In order to provide funds, to the extent of not exceeding five hundred thousand dollars, or such lesser amount as shall be permitted by the applicable constitutional limitation controlling the bonded debt of Williamsburg County and shall be found by the County Board to be required to insure the construction and equipping of suitable public hospital facilities for Williamsburg County, the County Board is hereby authorized, upon the request of the Hospital Board, expressed through appropriate resolution of the Hospital Board, to issue not exceeding five hundred thousand dollars of general obligation bonds of Williamsburg County. The bonds shall not be issued until the Hospital Board shall determine by resolution duly adopted that there will be available for the construction and equipping of the authorized hospital project sufficient additional moneys derived from Federal grants or public donations, which, with the proceeds of

the bonds, will be sufficient to pay all costs involved in acquiring a site and thereon constructing and equipping the contemplated hospital project and to retire bond anticipatory borrowings made pursuant to Act No. 1256 of 1962. Upon the presentation to the County Board of a certified copy of a resolution of the Hospital Board setting forth the required findings, the County Board shall be empowered as hereinafter provided, to issue bonds of Williamsburg County within the limitations of this act and to the extent that the County Board shall determine is required. The findings by the Hospital Board shall be conclusive evidence upon which action, looking to the issuance of bonds pursuant to this act, may be taken by the County Board, and the actual receipt of funds by the Hospital Board from other sources shall not be a condition precedent to the issuance of bonds by the County Board.

**SECTION 3. Denominations and maturity.**—All bonds issued pursuant to this act shall be in such denominations and shall mature in such annual series or instalments as the County Board shall provide for, except that the first maturing bonds shall mature not later than five years from the date as of which they shall be issued, and no bond shall mature later than twenty-five years from the date as of which it shall be issued.

**SECTION 4. Redemption.**—Any bond issued pursuant to this act may be issued with a provision for its redemption prior to its stated maturity, at par and accrued interest, plus such redemption premium as may be prescribed by the County Board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. In the proceedings authorizing the issuance of such bonds, provision shall be made specifying the manner of call and the notice thereof that must be given.

**SECTION 5. Form.**—The bonds issued pursuant to this act shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of Williamsburg County, upon such conditions as the County Board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have the attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 6. Where payable.**—The bonds issued pursuant to this act shall be made payable at such place, within or without the State, as the County Board shall prescribe.

**SECTION 7. Interest.**—Bonds issued pursuant to this act shall bear interest at rates determined by the County Board.

**SECTION 8. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the County Board, shall, by resolution provide.

**SECTION 9. Sale.**—Bonds issued pursuant to this act shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold at public sale after advertisement of the sale in a newspaper of general circulation in South Carolina. The published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 10. Payment.**—For the payment of the principal and interest of the bonds issued pursuant to this act, as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of Williamsburg County shall be irrevocably pledged, and there shall be levied annually by the Auditor of Williamsburg County, and collected by the Treasurer of Williamsburg County, in the same manner as county taxes are levied and collected, a tax without limit, on all taxable property in the county, sufficient to pay the principal of and interest on the bonds as they respectively mature, and to create a sinking fund as may be necessary therefor.

**SECTION 11. Exempt from taxes.**—The principal and interest of bonds issued pursuant to this act shall have the tax exempt status prescribed by Sections 65-4.1 and 65-1522 of the 1962 Code.

**SECTION 12. Proceeds.**—The proceeds derived from the sale of the bonds shall be paid to the Treasurer of Williamsburg County, to be deposited in a bond account fund for the County Board, and shall be expended and made use of as follows:

(a) All accrued interest shall be applied to the payment of the first instalment of interest to become due on the bonds.

(b) Any premium received upon the sale of the bonds shall be applied to the payment of the first instalment of principal of the bonds.

(c) The remaining proceeds shall be used, upon the warrant or order of the Hospital Board, to defray the costs of issuing the bonds authorized hereby to pay and retire the principal and interest on borrowings made pursuant to Act No. 1256 of 1962, and to pay costs to be incurred in the acquiring of a site and constructing and equipping thereon suitable public hospital facilities for Williamsburg County.

(d) If any balance remains, it shall be held by the Treasurer of Williamsburg County in a special fund and used to effect the retirement of bonds authorized hereby.

**SECTION 13. Powers to be additional.**—The powers and authorizations hereby conferred upon the County Board and the Hospital Board shall be in addition to all other powers and authorizations previously vested in them, and may be exercised by action taken at regular or special meetings. The compliance with the provisions of this act shall constitute all action necessary to effect the valid issuance and delivery of the bonds authorized hereunder.

**SECTION 14. Time effective.**—This act shall take effect upon approval by the Governor.

Approved the 22nd day of March, 1963.

**An Act To Authorize The County Board Of Directors Of York County To Issue And Sell Not Exceeding Five Hundred Thousand Dollars Of General Obligation Bonds Of York County To Provide Funds For The Construction Of A Technical Training School; To Prescribe The Conditions Under Which The Bonds Shall Be Issued; And To Make Provision For The Payment Of The Bonds.**

Be it enacted by the General Assembly of the State of South Carolina:

**SECTION 1. Findings of General Assembly.**—The General Assembly finds that by Act No. 967 of 1962, now in the process of amendment by legislation enacted in pari materia, there has been created and is in existence the York County Commission for Technical Training. The Commission has been created in order that York County may cooperate with the program instituted by Article 7, Chapter 15, Title 21, Code of Laws of South Carolina, 1962.

The General Assembly further finds that there is an immediate need that such program be instituted promptly for York County. Under the provisions of the State program it is required that co-operating counties furnish the physical facilities necessary to implement the program, and thereafter supervise and maintain them. An appropriate site for the location of a building to be utilized for such purposes has been secured. The General Assembly has therefore determined to empower the County Board of Directors of York

County, as constituted by Article 1, Chapter 62, Title 14, Code of Laws of South Carolina, 1962, to issue general obligation bonds of York County, to the extent herein provided, in order to provide the funds required for the construction and equipping of suitable facilities. In so determining, the General Assembly has found that the basic purpose of the program is to educate, in technical and vocational fields, those to whom the program will become available, and that the purpose of the expenditure is educational and is, therefore, one which counties are authorized to undertake pursuant to Section 6, of Article X of the Constitution of South Carolina.

**SECTION 2. York County may issue bonds for technical training school.**—In order to provide funds to be expended by the Commission for the acquisition of a suitable site and the construction and equipping thereon of appropriate facilities, the County Board is hereby authorized and empowered to issue and sell general obligation bonds of York County in an aggregate principal amount not exceeding five hundred thousand dollars.

**SECTION 3. Issue.**—The bonds authorized by this act may be issued as a single issue, or from time to time as several separate issues.

**SECTION 4. Denominations.**—The bonds shall be in such denominations and shall mature in such annual series or instalments as the county board shall provide for, except that the last maturing bonds shall mature not later than twenty years from the date as of which the bonds shall be issued.

**SECTION 5. Redemption.**—The bonds may be issued with a provision for their redemption prior to their stated maturities at par and accrued interest, plus such redemption premium as may be prescribed by the county board, but no bond shall be redeemable before maturity unless it contains a statement to that effect. If bonds are made subject to redemption, provision shall be made in the proceedings authorizing the issuance of the bonds, specifying the manner of call and the notice thereof that must be given.

**SECTION 6. Form.**—The bonds shall be in the form of negotiable coupon bonds, payable to bearer, but may be issued with the privilege to any holder of having them registered as to principal on the books of the Treasurer of York County, upon such conditions as the county board may prescribe. Except when so registered, all bonds issued pursuant to this act shall have all attributes of negotiable instruments under the law merchant and the negotiable instruments law.

**SECTION 7. Where payable.**—The bonds shall be made payable at such place or places, within or without the State, as the county board shall provide.

**SECTION 8. Interest.**—The bonds shall bear interest at rates determined by the county board.

**SECTION 9. Execution.**—The bonds, and the coupons to be thereunto attached, shall be executed in such manner as the county board shall by resolution provide.

**SECTION 10. Sale.**—The bonds shall be sold at a price of not less than par and accrued interest to the date of their respective deliveries. They shall be sold after public advertisement of their sale in a newspaper of general circulation in South Carolina. The published notice shall appear not less than ten days prior to the occasion set for opening bids.

**SECTION 11. Payment.**—For the payment of the principal and interest of the bonds as they respectively mature, and for the creation of such sinking fund as may be necessary therefor, the full faith, credit and taxing power of York County shall be irrevocably pledged, and there shall be levied annually by the Auditor of York County, and collected by the Treasurer of York County, in the same manner as county taxes are levied and collected, a tax without limit on all taxable property in York County, sufficient to pay the principal and interest of such bonds as they respectively mature, and to create such sinking fund as may be necessary therefor.

**SECTION 12. Exempt from taxes.**—The principal and interest of the bonds shall have the tax exempt status prescribed by Section 65-4.1, Code of Laws of South Carolina, 1962.

**SECTION 13. Proceeds.**—The proceeds derived from the sale of the bonds shall be paid to the Treasurer of York County, and shall be deposited in a bond account fund, and shall be expended and made use of as follows:

(a) Any accrued interest shall be applied to the payment of the first instalment of interest to become due on such bonds.

(b) Any premium shall be applied to the payment of the first instalment of principal of such bonds.

(c) The remaining proceeds shall be expended, on the warrant of the Commission, to defray the cost of issuing the bonds authorized hereby, and to pay the costs incurred in the construction and equipping of facilities of the sort described in Section 1 of this act.

(d) If any balance remain, it shall be held by the Treasurer of York County in a special fund and used to effect the retirement of bonds authorized hereby.

**SECTION 14. Powers to be additional.**—The powers and authorizations hereby conferred upon the county board shall be in addition to all other powers and authorizations previously vested therein.

**SECTION 15. Time effective.**—This act shall take effect upon approval by the Governor.

(Filed in the office of the Secretary of State May 14, 1963)

The following Rules and Regulations are hereby promulgated and designated as No. (8), No. 8(a), No. 8(b), and No. 8(c).

8. To properly enforce the provision of Section 66-154—Procedure as to incorrect weights, measures, etc.

Weighing and measuring equipment rejected from service under authority of Section 66-154 and upon which equipment a restraining order (Weights and Measures Form No. 5) has been issued, shall remain subject to the control of the Commissioner of Agriculture until the Restraining Order is returned to the Commissioner properly executed certifying that the equipment has been repaired and tested for correctness or discarded from service.

8(a). The Restraining Order (Weights and Measures Form No. 5) permits a competent repairer to break the Department of Agriculture's seal attached to rejected weighing and measuring equipment. The breaking of this seal is an indication that the person is a competent repairer and also equipped to test the repaired equipment for accuracy. The failure of such repaired equipment to meet Department's official retest will constitute a violation of this Rule and Regulation, and requires a corrected repair service, or the "Signature of the repairer" will not be recognized as valid on future Restraining Orders.

8(b). Where a competent repairman is employed to repair condemned weighing and measuring equipment, before such repairman is authorized to break the Department of Agriculture's seal, the repairman shall have on file, with the Department of Agriculture, the forms furnished by the Department for this purpose. Failure to have such a form on file with the Department shall preclude the repairman from breaking the Department's seal.

8(c). The owner or operator of the restrained weighing and/or measuring equipment is responsible for the return of the Restraining Order (Weights and Measures Form No. 5) to the Commissioner of Agriculture. The Restraining Order must be properly executed and indicate whether the equipment has been repaired and tested or discarded from service. Otherwise such regulated articles shall be subject to all applicable requirements for articles originating in the regulated areas.

(b) **Articles determined to present hazards.** When it has been determined by an inspector that, due to contamination with witchweed, a hazard of

spread of witchweed is presented by any farm products, farm equipment, processing machinery trucks, wagons, railway cars, aircrafts, boats, other means of conveyance, or unlimited by the foregoing, any other products or articles of any character whatsoever, not covered in paragraph (a), notice of such fact shall be given to the person having custody thereof. (4) When grown, produced, manufactured, stored or handled in such manner that, in the judgment of the inspector, no infestation would be transmitted thereby.

(5) **Limited permits.** Limited permits may be issued by the inspector for the movement of non-certified regulated articles to specified destinations for limited handling, utilization or processing, or for treatment.

(6) **Dealer-carrier agreement.** As a condition of issuance of certificates or limited permits for the movement of regulated articles, any person engaged in purchasing, assembling, exchanging, handling, processing, utilizing, treating, or moving such articles may be required to sign a dealer-carrier agreement stipulating that he will remain such safeguards against the establishment and spread of infestation and comply with such conditions as to the maintenance of identity, handling, and subsequent movement of such articles and the cleaning and treatment of means of conveyance and containers used in the transportation of such articles as may be required by the inspector.

#### 6. EXEMPTION OF CERTAIN ARTICLES FROM SPECIFIED REGULATIONS.

(a) It has been found that facts exist as to the pest risk involved in the movement of the following regulated articles under the regulations which make it safe to make less stringent the requirements of the regulations with respect to the movement of such articles from any regulated area,

as hereinafter provided. The following articles are hereby exempted from the requirements under the conditions set forth hereinafter:

(1) Root crops, such as turnips, carrots, and sweet potatoes, when moving to a designated processing plant, or when washed free of soil and thereafter protected from infestation to the satisfaction of the inspector.

(2) Seed cotton when moving to a designated gin.

(4) Soybeans if the beans and any containers for the beans did not come in contact with the soil during harvesting and if the beans are moving forthwith to a designated oil mill or storage facility for crushing or uses other than planting.

(5) Small grains if the grain and any containers for the grain did not come in contact with the soil during harvesting and if the grain is moving forthwith to a designated storage facility for uses other than planting.

(6) Ear corn when harvested from stalk and placed, without coming in contact with the soil, in a wagon or truck for direct transportation to storage or other handling facility.

(7) Used farm tools and implements when washed, steam cleaned or air cleaned, and thereafter protected from infestation to the satisfaction of the inspector. (This exemption does not apply to mechanical cotton or corn pickers, combines, or hay balers or to cotton picking sacks.)

(b) Information as to designated processing plants, oil mills, warehouses, storage and handling facilities, and gins may be obtained from the inspector.

#### **7. WAIVER OF LIABILITY.**

The South Carolina State Crop Pest Commission or its inspectors will not be responsible in any way for the death of livestock feeding on plants treated for the control of witchweed after notice has been given by the South Carolina State Crop Pest Commission or its authorized inspectors that such areas are to be treated. The South Carolina State Crop Pest Commission or its inspectors will not be responsible for any loss to regulated articles treated, fumigated, sterilized, or processed under methods approved by the South Carolina State Crop Pest Commission.

#### **8. PENALTIES.**

Any person or firm who shall violate the regulations of this quarantine or who seeks to prevent the inspection or control of witchweed which may occur on their property under the direction of the South Carolina State Crop Pest Commission or its inspectors shall be deemed guilty of a misdemeanor and upon conviction will be punished by law as provided for by Section 3-111 of the 1962 Code.

#### **Japanese Beetle Quarantine**

Revised June 15, 1963

(Filed in the office of the Secretary of State June 28, 1963)

The fact has been determined that a destructive insect pest known as the Japanese Beetle has been found in certain areas in the State of South

Carolina. In order to prevent the further spread of this insect in South Carolina, the State Crop Pest Commission hereby establishes a quarantine setting forth the name of the pest against which the quarantine is established, the regulated areas and the regulated articles, specifying the conditions governing shipments and the issuance of certificates or permits under which the regulated articles may be shipped.

1. **PEST**—Japanese Beetle (*Popillia japonica* Newn.), in any stage of development.

2. **DEFINITION OF TERMS**—For the purpose of this quarantine the following words, names, and terms shall be construed, respectively, to mean:

b. Infestation—This term refers to the presence of Japanese beetle.

c. Generally Infested Area—Those areas where Japanese beetle infestations are so widespread that control or eradication measures are not practicable with available facilities. Movement of materials from these areas is regulated to prevent spread of the pest to non-infested areas.

d. Non-infested Premises, Establishments, or Areas—That portion of the regulated areas in which no infestation exists, or in the vicinity of which no infestation is known to exist under such conditions as to expose it to infestation by natural spread of beetles, as determined by an inspector.

e. Regulated Articles—Soil, and other articles and products, and means of conveyance, the movement of which is regulated by the Japanese beetle quarantine.

f. Soil-free, Free from Soil—Devoid of soil in quantities sufficient to harbor immature stages of the Japanese beetle.

g. Inspector—An inspector of the South Carolina State Crop Pest Commission or United States Department of Agriculture, Plant Pest Control Division.

h. Certificate—A valid form evidencing compliance with the requirements of these regulations.

All costs including storage, transportation, and labor incident to inspection, other than the services of the inspector, shall be paid by the shipper.

#### **9. CANCELLATION OF CERTIFICATES—**

Certificates issued under these regulations may be withdrawn or cancelled by the inspector and further certification refused whenever the further use of such certificates might result in the dissemination of infestation.

#### **10. INSPECTION IN TRANSIT—**

Any car, vehicle, basket, box or container moved intrastate or offered to a common carrier for shipment intrastate, which contains or which the inspector has probable cause to believe contains either infestations, infested articles, or articles the movement of which is restricted by these regulations, shall be subject to inspection by an inspector at any time or place,

and when actually found to involve danger of dissemination of Japanese beetle to uninfested localities, measures to eliminate infestations may be required as a condition of further transportation or delivery.

#### **11. CLEANING OF TRUCKS, WAGONS, CARS, BOATS, AND OTHER VEHICLES AND CONTAINERS—**

#### **DAIRY COMMISSION**

Promulgated under authority of Section 32-1630 of the 1962 Code

(Filed in the office of the Secretary of State August 29, 1962)

#### **REGULATION NO. 1**

Regulation No. 1 is amended by adding to paragraph A the following sub-paragraph:

6. "Plant Loss"—The volume of milk and milk products received or reconstituted during any settlement period which cannot be specifically accounted for during such period in the Class I, Class II or Class III sales, in the manufacture of a Class III product or in the sales and transfers of bulk milk and milk products to other licensed distributors or to manufacturing milk plants.

**REGULATION No. 2**

Regulation No. 2, as amended, is amended by deleting the entire regulation and rewriting the regulation in its entirety as follows:

**A. Classes of Milk**—On or before the fourth day after the end of each delivery period all milk received at each plant from producers during the preceding delivery period shall be classified as Class I unless the distributor receiving such milk can prove that it should be otherwise classified, subject to any administrative relief which may be granted by the Commission resulting from extenuating circumstances and the following conditions:

1. Class I shall include all sales and inventory holdings at the close of business on the last day of the delivery period of processed fluid milk and fluid milk products containing one percent (1%) or more of milk fat (excluding sour cream), and bulk milk sold or transferred to any plant located within the State which has been certified to the Commission to be for use in a federal military contract, except that portion of milk which may be approved by the Commission to be classified in Class II or Class III pursuant to paragraph B, sub-paragraph 3; provided, however, the transfer of such milk to Class II or Class III as herein authorized shall not be made by a distributor unless the Class I, Class II, and Class III prices filed with the Commission and paid to producers by such distributor are equal to the prices filed with the Commission for such classes of milk by distributors which receive ninety percent (90%) of the grade A milk delivered by base holding producers to distributors located within South Carolina. Fluid cream, milk-cream mixtures and concentrated milk in excess of six percent (6%) butterfat shall be included in Class I on a milk equivalent basis.
2. Class II shall include all sales and inventory holdings at the close of business on the last day of the delivery period of processed fluid milk products containing less than one percent (1%) of milk fat which has not been accounted for in the milk equivalent of Class I cream and milk-cream mixtures, and that portion of any milk designated as Class I utilization which may be approved by the Commission to be transferred to Class II pursuant to paragraph B, sub-paragraph 3.
3. Class III shall include, subject to the provisions of paragraph B, all milk and milk products received and used in the processing or manufacture of any product for human consumption except those products designated as Class I or Class II utilization and any plant loss not in excess of two and one-half percent (2½%) of the total milk and fluid milk products received and reconstituted during the delivery period.
4. The product pounds of all fluid milk and fluid milk products in each Class shall be computed by multiplying the total quarts of such products by the weight factors set forth below:

| Product                     | Weight<br>Per Quart | Product        | Weight<br>Per Quart |
|-----------------------------|---------------------|----------------|---------------------|
| Milk .....                  | 2.15                | Cream (10-17%) | 2.13                |
| Creamed Buttermilk .....    | 2.15                | Cream (18-21%) | 2.11                |
| Skim (Above 1% B. F.) ..... | 2.15                | Cream (22-28%) | 2.10                |

| Product                      | Weight<br>Per Quart | Product        | Weight<br>Per Quart |
|------------------------------|---------------------|----------------|---------------------|
| Flavored Milk or Drink (Net) | 2.00                | Cream (29-32%) | 2.09                |
| Skim (Plain)                 | 2.16                | Cream (33-39%) | 2.08                |
| Buttermilk (Plain)           | 2.16                | Cream (40-42%) | 2.06                |

**B. Basis for Classification**—On or before the fourth day after the end of each delivery period, all milk received during the preceding period by a distributor shall be classified on the basis of the accountable sales and utilization of milk by such distributor and in accordance with the provisions of paragraph A. Raw milk disposed of in bulk and processed milk sold to federal military installations shall be classified subject to the following provisions:

1. Milk disposed of in bulk to other distributors shall be classified as Class III by the shipping distributor except as provided in subparagraph 2. The shipping distributor shall be paid for such Class III milk on the basis of the amount of such milk utilized by the receiving distributor in Class I or Class II, as determined by the utilization at the receiving distributor's plant and verified by the monthly audits of the Commission, at not less than the highest price filed with the Commission by the shipping or receiving distributor for such classes. The shipping distributor shall return to his producers the price received for any bulk milk sold or transferred to another distributor in this classification less reasonable handling and transportation charges if any are incurred.
2. Bulk milk sold or transferred by a distributor located within South Carolina to another distributor within the State for sale to the United States Government and for delivery to a federal military installation under a bona fide written contract may be prorated by the shipping distributor between Class I, Class II or Class III pursuant to subparagraph 3; provided, that on or before the tenth day after the end of the settlement period involved, certificates are received by the Commission from the shipping distributor certifying that such bulk milk was sold or transferred for use in military contracts, and from the receiving distributor certifying that such bulk milk was used for military contracts.
3. Processed milk containing one percent (1%) or more of butterfat sold to the United States Government and delivered to federal military installations under a bona fide written contract, and bulk milk sold or transferred by a distributor located in South Carolina to another distributor within the State, certified for use in a contract as referred to above, may be transferred from Class I to Class II or Class III during such delivery periods and in the proportion as may be approved by the Commission. The proportion of the products herein referred to, which may be approved for transfer from Class I to Class II or Class III, is subject to change by the Commission, however, the pro-ration approved on the first day of delivery under any contract shall prevail until the expiration date of such contract.

**C. Computation of Milk in Each Class**—For each delivery period the classification of milk at each plant shall be computed in the following manner:

1. Determine the tentative Class I utilization by:
  - a. Computing the volume of total sales of processed fluid milk and bulk milk certified for use in federal military contracts at the average butterfat test of all milk received at a plant from producers and in bulk from other sources or at the specific test of each product sold when such records are maintained.
  - b. Add the volume of all sales of flavored milk or drink, creamed buttermilk and any other fluid milk products containing one percent (1%) or more, but less than six percent (6%), of butterfat at the specific test of such products.
  - c. Add the milk equivalent of all sales of fluid milk products containing six percent (6%) or more of butterfat. (The weighted average test of all bulk milk received from producers and distributors during the delivery period shall be used in converting cream and milk-cream mixtures containing six percent (6%) or more of butterfat to a milk equivalent basis. In the absence of a weighted average butterfat test, distributors shall convert such cream and milk-cream mixtures on the basis of a four percent (4%) milk equivalent.)
2. Determine the tentative Class II utilization by:
  - a. Computing the difference between the volume of fluid milk products containing butterfat in excess of six percent (6%) from its milk equivalent included in Class I and entering such amount in Class II as a preliminary credit.
  - b. Compute the volume of all sales of fluid milk products containing less than one percent (1%) butterfat not accounted for in the milk equivalent of Class I cream and milk-cream mixtures and apply the butterfat tests applicable to such products.
3. Determine the tentative Class III utilization by:
  - a. Computing the volume of all milk and milk products not specifically classified in Classes I and II at the applicable tests.
4. Transfer from Class I to Class II or Class III, at the rate approved by the Commission, that portion of fluid milk containing one percent (1%) or more of butterfat sold to federal military installations and bulk transfers between plants certified to the Commission for use in such contracts.
5. Add the closing inventories to and subtract the opening inventories from the appropriate classes as determined in the preceding paragraphs.
6. Determine the amount of plant losses by subtracting the total milk and milk products accounted for in each Class from the total milk and milk products received.
  - a. Add to the Class III utilization the amount of plant loss which is not in excess of two and one-half percent (2½%) of the total milk and milk products received.

- b. Add to the Class I utilization the amount of plant loss which is in excess of two and one-half percent ( $2\frac{1}{2}\%$ ) of the total milk and milk products received.

**D. Classification of Milk Received from Producers**—The net classification of milk received from producers at each plant shall be determined in the order and manner set forth below and the total milk in each class shall be allocated to producers in accordance with the example set forth in Table I of this Regulation.

1. The butterfat and milk equivalent of powdered and condensed products which are reconstituted shall be deducted from the gross Class III utilization.
2. The butterfat and product pounds of any processed milk and milk products received from another distributor shall be deducted from the remaining Class III utilization.
3. The butterfat and product pounds of bulk milk received from a distributor located within South Carolina, which has been certified to the Commission for use in military contracts, shall be deducted from Class III, Class II and Class I in the proportions approved by the Commission. Any amount in excess of the available Class II shall be deducted from any remaining Class III.
4. The butterfat and product pounds of bulk milk received, other than that received and certified for use in military contracts, shall be deducted from any remaining Class III utilization.
5. In the event that any or all of the above items are greater than the amount remaining in Class III, they shall be deducted first from any remaining Class II and finally from Class I.
6. For the purpose of classification, milk from a distributor's own herd will be considered to be producer milk.

**E. Payment to Producers**—Each licensed milk distributor located within South Carolina shall make full payment to producers on or before the fifteenth (15th) day following the end of each delivery period for all milk received, at not less than the Class price(s) as negotiated with producers and filed with the Commission.

1. Each distributor shall establish and file with the Commission, on forms provided by the Commission, the price to be paid to producers for each class of milk established by the Commission, together with the premium to be paid for special milk, as agreed upon between the distributor and producers of such milk. In the event of any decrease in the price so established, the distributor shall notify the Commission and each of his producers in writing not less than thirty (30) days prior to the effective date of such decrease.
2. The premium to be paid for special milk sales during any delivery period shall be applied uniformly to all Class I credit allocated to producers of special milk as determined by the following formula:

Divide the total pounds of special milk sold by the total Class I credit allocated to special milk producers. Multiply the result ob-

tained by the premium rate per cwt. and add the result to the Class I price payable to special milk producers.

3. The Class III price to be paid producers shall be a weighted average blend price of bulk milk sold or transferred, and included in Class III, at the net price received for such milk, and any other milk included in Class III at the price filed with the Commission for Class III milk. When the total bulk milk sold or transferred and included in Class III exceeds the net amount allocated to producers in Class III, the weighted average blend price shall be computed from the highest net priced quantity or quantities used or transferred.
4. Each distributor shall, whenever making payment for milk purchased from producers during any delivery period, furnish each producer with a statement of purchases and payment which contains the information as follows:
  - a. Name of the distributor
  - b. The delivery period covered
  - c. Producer's base for the period
  - d. Butterfat test of producer's milk
  - e. Pounds of milk in each class
  - f. Price per cwt. paid for each class
  - g. Gross amount due by class and in total
  - h. Each deduction made by distributor
  - i. Net amount paid.
5. Whenever an audit by the Commission discloses a distributor has not made full payments to producers during any delivery period in accordance with the Regulations of the Commission, the distributor shall upon written notice from the Commission make the necessary adjustments to correct any underpayment to producers in such manner and within such time as may be specified by the Commission.

### REGULATION NO. 3

Regulation No. 3 is amended as follows:

Delete sub-paragraphs 2 and 5 of paragraph B and enter in lieu thereof the following:

2. During any base forming period beginning after January 1, 1962, the base of each producer shall be one hundred and five percent (105%) of the monthly average of the Class I and Class II utilization and that portion of the Class III utilization which is directly attributable to the sale of fluid milk to federal military installations allocated to each producer during the base forming period or the producer's total production, whichever is the lesser, except as provided in paragraph 5.
5. A producer with an established base who delivers milk regularly to a grade A milk plant during the base forming period and whose average production during such period decreases by more than ten percent (10%) of his current base, shall have his new base determined by multiplying his current base by ninety percent (90%); provided, however, such producer's new base shall not exceed the amount obtained by multiplying his current base by the average percentage of

the total plant base applicable in determining the bases of all producers in the plant at which his milk is marketed.

Delete sub-paragraphs 5 and 7 of paragraph C and enter in lieu thereof the following:

5. A producer who changes markets or acquires base from another producer during the base forming period shall have his base computed from his total base credits earned or acquired during such period.
7. An established milk base may be transferred from one producer to another producer provided, the owner(s) of the base and the person(s) acquiring the base execute and forward to the Commission a standard form furnished by the Commission to effect the transfer, but only under the following conditions:
  - a. Where the total milk base is sold or transferred to a producer; or to two or more producers in increments of not less than 5,000 pounds. Any remaining base held by a producer following the initial transfer of any portion of his base shall become null and void after sixty (60) days except as herein provided;
  - b. Where a producer finds it necessary to reduce the size of his milking herd as a result of semi-retirement or other special circumstances which warrant administrative review, a portion of the producer's established base may be sold or transferred upon special application to and approval by the Commission,
  - c. When a base is held jointly and such joint holding is terminated, the base may be transferred to one or more of the joint holders in an equitable manner;
  - d. A base established by a new producer as authorized by paragraph B, 4 shall not be transferable under the condition set forth in (a) or (b) above until at least one (1) year has elapsed after such producer's initial base was established; provided however,
  - e. All base transfers shall become effective on the first day of the month next succeeding the month in which the sale or transfer occurred; provided, the distributor to whom the producer(s) acquiring any base through purchase or transfer will accept such base.

Add sub-paragraph 8 to paragraph C as follows:

8. A milk base with not less than a two (2) year history established in accordance with the regulations of another state regulatory agency may be accepted on the South Carolina market upon approval by the Commission; provided, the Commission can satisfactorily verify the establishment of such base, and provided further such base is adjusted in a manner that will equitably conform to the method used in determining the bases of other producers at the plant to which the base is to be transferred.

#### REGULATION NO. 4

(Filed in the office of the Secretary of State December 28, 1962)

Regulation No. 4 is amended by deleting the entire regulation and re-writing the regulation in its entirety as follows:

A. Each distributor, as a prerequisite to obtaining a license, shall file with the Commission, on forms prepared and furnished by the Commission, a schedule(s) of wholesale and retail prices for each market served directly by the distributor or indirectly through a sub-distributor, sales branch or subsidiary principally supplied with processed products by the distributor. Each schedule shall include the price of each unit of product covered by the Act and offered for sale by the distributor, and shall specify the size and type of container. The required schedule(s) of prices and any change(s) with respect thereto shall be signed by the person designated in the distributor's application for license to be held legally responsible for compliance with the conditions of the license.

1. A copy of the distributor's current schedule of prices on file at any time with the Commission for any market(s) served by a sub-distributor, sales branch or subsidiary shall be furnished by the distributor to and kept on file in the office of the sub-distributor, sales branch or subsidiary serving such market(s).
2. A distributor shall not be required to establish and file prices with the Commission for any product(s) offered for sale except those products covered by the Act (milk, milk products, ice cream and frozen desserts). However, the sale by a distributor of any product which is not covered by the Act, irrespective of whether the purchaser be a school, hospital, store or any other person or entity, at a price less than the price made available to **ALL wholesale and retail customers respectively**, or any other discriminatory pricing practice with respect to such products by a licensee, shall be deemed a decrease in the prices filed with the Commission for the products covered by the Act and a violation of the price filing provisions of this regulation.

B. Upon receipt from distributors of all required Schedules of Prices annually, the Commission shall, as soon thereafter as is practical, determine and make available to each licensed distributor the lowest price established in each market by distributors for each unit of all products covered by the Act.

C. The wholesale and retail prices filed with the Commission by a distributor for each market shall be charged uniformly for all deliveries within the market except as follows:

1. Special wholesale prices may be established for any market and filed with the Commission to be made available to: (1) private, public, or parochial schools and state or church supported colleges or universities which provide non-profit lunch room facilities for students; (2) eleemosynary institutions or agencies and, (3) non-profit hospitals entirely supported by a church or by the federal, state, county or municipal governments; provided, the special wholesale prices so established are made available to all such customers as herein designated within a given market. Special wholesale prices established in accordance herewith shall not apply to products purchased by or for independently operated dairy bars, soda shops, canteens, student centers, etc., or food service facilities operated by any person other than the excepted customers designated above.

2. The prices filed for any market shall not be deemed to apply to products sold to the United States Government under contract and delivered to federal military installations; provided however, each distributor entering into a contract with the United States Government to supply any product covered by the Act to such installations shall notify the Commission in writing prior to the first day of delivery under such contract of: (1) the name of the installation to be supplied; (2) the approximate quantity of each unit of each product to be supplied; (3) the unit price made available on each unit of each product and; (4) the beginning and terminating dates of the contract.

D. The prices established and filed with the Commission by a distributor for any market(s) may be changed **only** on the first day of any calendar month; **provided**, a complete new schedule(s) of prices applicable in such market(s) is sent by certified mail to the Commission, on forms furnished by the Commission, and such schedule(s) is received in the Commission office at least ten (10) days (exclusive of Sundays and legal holidays) prior to sale or offer to sell at the new prices to be established.

E. Upon receipt of a new schedule (s) of prices for any market(s) duly filed, the Commission shall mail within three (3) days (exclusive of Sundays and legal holidays) a copy of the new schedule(s) to each licensed distributor operating in the market(s) in which the new prices are to be applicable.

F. A distributor, upon receipt from the Commission of a new schedule(s) of prices established by a competitor for any market(s), may waive the ten (10) days prior notice and put into effect in such market(s) similar price changes (but not below those which have been duly filed with the Commission by a competitor); **provided**, the distributor sends to the Commission by certified mail a complete new schedule(s) of prices applicable in the affected market(s) and such schedule(s) is received in the Commission office at least one (1) day (exclusive of Sundays and legal holidays) prior to sale or offer to sell at the new prices filed as herein provided.

G. No distributor shall sell or offer for sale any product covered by the Act in any market, either directly or indirectly through a sub-distributor, sales branch or subsidiary, at a price less than the prices offered in the market in which such distributor's processing plant is located, or less than the prices offered in the principal sales area of such distributor (measured by volume of sales), except when such lower prices are offered in good faith to meet a competitive price which has been duly filed with the Commission, and after due notice has been given as provided in paragraph F above. No subdistributor shall sell or offer for sale any product covered by the Act at a price forbidden the distributor by whom such sub-distributor is principally supplied with processed products.

H. Each distributor located within South Carolina, who receives milk regularly from producers, shall file with the Commission, within ten (10) days after receipt of forms furnished by the Commission therefor, the price to be paid producers for each class of milk as set forth in Regulation No. 2. Each distributor shall notify the Commission and each of his respective producers in writing not less than thirty (30) days prior to the

first day of any delivery period in which a decrease in such prices is to become effective. The prior notice may be waived by any distributor to meet a decrease in the class prices duly filed with the Commission by any distributor located within the State.

#### REGULATION NO. 5

Regulation No. 5 is amended by changing paragraphs D and E to paragraphs E and F respectively, and by adding the new paragraph D as follows:

D. Each distributor located outside of South Carolina who ships processed fluid milk or fluid milk products, or causes the same to be shipped, to a sales branch or sub-distributor located in South Carolina shall establish and follow a regular periodic schedule for each such shipment into South Carolina. The schedule so established shall be filed with the Commission and shall specify: (1) the processing plant from which such products are to be shipped; (2) the approximate hour of departure of each shipment; (3) the name and address of the consignee and; (4) the approximate hour of arrival of each shipment at its destination. The distributor shall notify the Commission immediately by telegram of any deviation of more than one (1) hour in the scheduled hour of departure of any shipment and shall notify the Commission by telegram at least four (4) hours prior to any non-scheduled or special shipment. A copy of the bill of lading or invoice of each shipment shall be mailed to the Commission, bearing a postmark not more than two hours after the scheduled hour of departure of such shipment, and shall clearly indicate the exact number of units of each unit of processed fluid milk and fluid milk products contained in each shipment into South Carolina.

(Filed in the office of the Secretary of State April 29, 1963)

#### REGULATION NO. 4

Regulation No. 4, as amended, is amended by adding the following sub-paragraphs:

J. The procedure set forth in this regulation by which a distributor may change his established wholesale and retail prices of milk and fluid milk products and his established producer prices shall be waived for any distributor operating within a market(s) in which a wholesale consumer is selling or offering to sell milk or fluid milk products at less than the wholesale price of such products duly filed with the Commission by the licensed distributor from whom such wholesale consumer purchased said products; PROVIDED, however, any change to be made by a distributor in his established wholesale and retail prices of milk and fluid milk products which have been duly filed with the Commission for a market(s) as herein referred to and any decrease to be made by a distributor in his established producer prices pursuant to this sub-paragraph shall be sent in writing and received by the Commission at least two (2) days (exclusive of Sundays and legal holidays) prior to the effective date of such change; and FURTHER PROVIDED, that a distributor who has decreased his established prices pursuant to this sub-paragraph may increase such prices

to the level of those duly filed with the Commission immediately prior to such decrease by notifying the Commission in writing within two (2) days (exclusive of Sundays and legal holidays) after the effective date of the change.

K. A distributor, upon receipt of notice from the Commission that a competing distributor has made a change in any market(s) in his established wholesale or retail prices or a change in his established producer prices pursuant to the provisions of sub-paragraph J, may place into effect on the same date similar wholesale or retail price changes in the affected market(s) (but not below those which have been duly filed with the Commission by the competing distributor) and decreased producer prices; PROVIDED, however, such changes shall be sent to the Commission by certified mail and received by the Commission not later than two (2) days after the effective date of the changes; and PROVIDED FURTHER that, a distributor who has decreased his established prices pursuant to this sub-paragraph may increase such prices to the level of those duly filed with the Commission immediately prior to such decrease by notifying the Commission in writing within two (2) days (exclusive of Sundays and legal holidays) after the effective date of the change.

L. A distributor shall not file and place into effect any decrease in his established wholesale or retail prices of any unit of milk duly filed with the Commission at any given time, except to meet competition as provided in sub-paragraphs F, J or K of this Regulation, which is greater than a reduction in the price duly filed with the Commission and payable to producers for such milk, until the Commission has verified that actual economies equal to a greater reduction have been effected in the distributor's operation of his business.

(Filed in the office of the Secretary of State April 29, 1963)

#### REGULATION NO. 4

Regulation No. 4, as amended, is amended by deleting sub-paragraphs J, K and L and adding the following new sub-paragraph:

I. A distributor shall not file and place into effect prices for any unit of milk or milk products which are less than those which had been duly filed with the Commission on April 1, 1963, except to meet competition as provided in sub-paragraph F of this Regulation, until the Commission has verified that the prices as proposed, for any unit of milk or milk products, are not less than the distributor's cost as defined by Sections 32-1611(23) and 32-1640.8 of the 1962 Code of Laws of South Carolina.

#### STATE BOARD OF EDUCATION

Promulgated under authority of Section 21-45 of the 1962 Code

(Filed in the office of the Secretary of State September 25, 1962)

The State of South Carolina, through the State Board of Education, hereby submits its State plan for strengthening instruction in science,

mathematics, and modern foreign languages pursuant to the provisions of Sections 301-304, inclusive, of Title III of Public Law 85-864, and the regulations issued with respect thereto.

## 1.0 THE STATE EDUCATIONAL AGENCY

**1.1 Name of Agency.** The name of the State Educational Agency is the South Carolina State Board of Education and this agency is the sole agency responsible for the administration of the state plan and for dealing with the Commissioner with respect to the plan. (Code of Laws of South Carolina, 1962, Volume 3, Section 21-45, Sub-section 1; also South Carolina State Constitution, Article 11, Section 2.) (Copies attached Appendix A.)

### 1.2 Administration

**1.21** The State Superintendent of Education is authorized to submit plans to the Commissioner (South Carolina State Constitution, Article 11, Sections 1 and 2, Code of Laws of South Carolina, 1962, Volume 3, Sections 21-23, and State Board Regulations, Code of Laws of South Carolina, 1962, Volume 7, page 508, paragraph 1). (Copies attached Appendix A.)

The State Board of Education on January 16, 1959 adopted the following resolution:

The State Superintendent of Education, who is the Secretary and Executive Officer of the State Board of Education, is hereby authorized to act for and on behalf of this Board and is empowered to sign all instruments, receive funds, and authorize expenditure of such funds pertaining to Public Law 85-864, known as the National Defense Education Act of 1958. By the power of his office as State Superintendent of Education he is the duly authorized officer of the State to submit the state plan to the Commissioner of Education.

**1.22** The title and official address of the officer who has legal authority to receive and to have custody of Federal Funds is South Carolina State Treasurer, State House, Columbia, South Carolina. (South Carolina General Appropriation Act, 1958-59, Section 73.) (Copy attached Appendix A.)

**1.23** The official title of the officer who will have authority to authorize expenditures under the state plan is the State Superintendent of Education.

**1.24** The State Superintendent of Education will administer the plan through the State Department of Education.

**1.25** See attached charts showing organization of the State Department of Education and the Division of Instruction for the administration of the programs under the state plan. (Copy attached Appendix B.)

**1.26** There may be established from time to time an Advisory Committee to be appointed by the State Superintendent of Education. This committee (these committees) may be composed of representatives from school administrators, supervisors, classroom teachers, and university personnel with competencies in the field(s) in which the committee functions. This

committee shall advise with the State Agency concerning evaluations, principles of priority, standards for equipment, and such other advisory duties as from time to time may be necessary for the proper implementation of the plan program.

### 1.3 The State Agency's Authority

1.31 The following cited statute gives the State Educational Agency the authority to submit a state plan and to administer the plan under Sections 301-304, inclusive, of Public Law 85-864 (South Carolina General Appropriation Act, 1958-59, Section 73). (Copy attached Appendix A) which reads in part as follows:

Each department, institution, or other agency of the state is authorized to accept and receive such Federal Aid or grants as are or may be made available by the Federal Government for use in carrying out the purposes and functions of the department, institution or agency, but such funds when and as received, shall be deposited in the state treasury, if not in conflict with Federal regulations, and withdrawn therefrom as needed, in the same manner as that provided for the disbursement of state funds.

(This is supported by the opinion of the South Carolina Attorney General. Appendix C.)

1.32 The State Superintendent has responsibility for supervision of the public schools of the state and discharges that responsibility through the State Department of Education. (Code of Laws of South Carolina, 1962, Volume 3, Section 21-23; also South Carolina State Constitution, Article 11, Sections 1 and 2.) (Copies attached Appendix A.)

1.4 **Reports.** The State Department of Education will participate in periodic consultations with the Commissioner and his staff, and will make such reports to the Commissioner as he may consider reasonably necessary to carry out his responsibilities under Sections 301-304, inclusive, and 1004 of Public Law 85-864 and will comply with such provisions as the Commissioner may find necessary to assure himself that such reports are correct and verifiable.

1.5 **Hearings.** In case the State Agency or its authorized representative rules that a project does not meet criteria established for priorities, standards, and administration set up in this plan, and if the matter cannot be adjudicated satisfactorily, the local agency presenting the project shall have the opportunity for a hearing. The local agency desiring a hearing shall so notify the State Superintendent of Education within thirty days from the date on which the project was denied. The notice shall state the grounds on which the hearing is requested. A hearing will be granted within ten days after receipt of a request or at such other time as may be convenient to the local agency, before a committee composed of the following:

The State Superintendent of Education

The Director of Division of Instruction

The Coordinator of Title III  
The State High School Supervisor  
The Chief Elementary Supervisor

It is understood that South Carolina law allows an appeal to the State Board of Education from the decision of the above committee.

## **2.0 FISCAL ARRANGEMENTS AND ACCOUNTING PROCEDURES:**

### **2.1 State Laws and Regulations**

2.11 The State Board of Education is governed by the following cited State Laws and Executive Regulations with respect to the hiring of personnel and the purchase of and accounting for supplies, materials and equipment. (Code of Laws of South Carolina, 1962, Volume 3, Article 1, Sections 21-902, 903, 904; also South Carolina General Appropriation Act, Sections 72, 73, 74, and 78.) (Copies attached Appendix A.)

2.12 There have been no Attorney General opinions and/or court decisions which materially affect the meaning of the cited laws and/or regulations.

### **2.2 Fiscal Records: State Level**

2.21 The official accounts and documents showing receipts and expenditures of funds by the State Agency under the approved state plan will be maintained by the following agencies:

South Carolina State Department of Education, Columbia, S. C.  
South Carolina Comptroller General, Columbia, S. C.  
South Carolina State Treasurer, Columbia, S. C.

The South Carolina State Department of Education shall maintain intact all records supporting claims for Federal grants or relating to the accountability of the South Carolina State Department of Education for expenditure of such grants and relating to the expenditure of matching funds for a period of three years after the close of the fiscal year in which the expenditure was made by the State Department of Education.

The records involved in any claims or expenditures which have been questioned shall be further maintained until necessary adjustments have been made and the adjustments have been reviewed and cleared by the Department.

The records supporting accountability for instructional equipment and office equipment purchased from Federal or matching funds which cost \$10.00 or more per unit shall be maintained until notified of the completion of the Department's review and audit covering the disposition of such equipment.

2.22 The accounts of the South Carolina State Department of Education are audited by the State Auditor of South Carolina at least once each year. Special audits may be made if considered necessary as provided in Code of Laws of South Carolina, 1962, Volume 1, Article 8, paragraph 1-882. (Copy attached Appendix A.)

**2.3 Fiscal Records: Local Level**

2.31 The official accounts and documents showing receipts and expenditures of funds by local educational agencies under the approved state plan will be maintained by the following agencies:

- District Superintendents of Schools
- County Superintendents of Education
- County Treasurers
- South Carolina State Department of Education

2.32 Acceptable private auditors or the State Educational Agency will audit the fiscal records of the local educational agencies participating in planned programs at least annually and copies of the reports of the audits will be available in the office of the State Department of Education.

**2.4 Identifying and Prorating Costs**

It is anticipated that some of the professional personnel will be working on programs under this plan and on other state or local programs. Where the same individual is performing other functions, these will appear in the position description together with the proportion of the individual's time which will normally be devoted to each activity. The salary and supporting expense of such individuals will be prorated in accordance with the normal time allocation and travel expense will be charged in proportion to the actual time spent in travel on each program.

If other personnel, or equipment, are used in part for work not under a plan program, similar provisions will apply.

**3.0 PROGRAMS FOR EXPANSION AND IMPROVEMENT OF SUPERVISORY AND RELATED SERVICES****3.1 The Present Program**

At the present time supervision of instruction in science, mathematics, and modern foreign language in the public elementary and secondary schools of South Carolina is of a general nature. Personnel is not available for supervision or consultative services in specific curriculum areas such as science, mathematics, and modern foreign languages. There are nine general supervisors, including the Division Director, and six special supervisors working in the areas of Library Services, Physical Education, Health Education, Adult Education, Alcohol Education, and Special Education. By special arrangement for the fiscal year 1958-59, there is one traveling Science Lecturer. Each supervisor, with the exception of one, has a masters degree or better, a major in education, and not less than ten years actual classroom, administrative and/or supervisory experience. Every staff member meets fully the certification requirements of the state for elementary school or secondary school or both.

The title and duties of position of persons currently engaged in the state supervisory programs are:

- Director, Division of Instruction
- State High School Supervisor
- Assistant High School Supervisor
- Chief Supervisor, Elementary Education

Supervisor, Primary and Elementary Education  
State Agent for Negro Schools  
Assistant State Agent for Negro Schools  
Supervisor, Negro Elementary Schools  
Supervisor, School Library Services  
Field Supervisor  
Supervisor, Health Education  
Supervisor, Physical Education  
Supervisor, Adult Education  
Supervisor, Alcohol Education  
Supervisor, Special Education

The duties of the above supervisors are to provide general consultant services and leadership in improving the instructional program in grades 1-12. In the execution of these duties, the general supervisors spend part time (on call) in supervision of science, mathematics, and modern foreign languages instruction by working with groups of teachers, supervisors, and administrators at the local level. This supervision is definitely limited by the size and the training of the staff. Supervision at the local level is limited to general supervision by the building principal, who frequently carries a full teaching load, and a sprinkling of county and/or district general supervisors. No local educational agencies provide specific supervisory services for science, mathematics and/or modern foreign languages. There is no specific supervision at the state level in the selection, use and care of audio-visual equipment and materials. Equipment and materials for use in science, mathematics, and modern foreign languages instruction ranges, in the state, from excellent to almost non-existent depending on local leadership, effort, and financial ability. The relationship between the quality and quantity of equipment and its use, for instruction, ranges from adequate to totally inadequate. Evidence indicates that the use of equipment for science instruction is on a whole good while it is very limited for mathematics and modern foreign languages. On the whole, equipment is not available at the elementary level to the extent that it is at the secondary level.

### 3.2 Plan Program Objectives

The following objectives are set forth to be accomplished under the plan program over the four-year period covered by the Act.

1. Enlarging and refining the program of offerings in the fields of science, mathematics, and modern foreign languages in elementary and secondary schools.
2. Bringing all the public elementary and secondary schools of the state up to a minimum standard of performance in the fields of science, mathematics, and modern foreign languages.
3. Helping local districts to build adequate collections of equipment and materials through the plan program concerning the acquisition of laboratory and other special equipment, including audio-visual materials and equipment and printed materials (other than textbooks).

4. Encouraging acceptance of responsibility at the local level for the quality of instruction.
5. Helping train teachers in the use of equipment and materials in science, mathematics, and modern foreign language instruction.
6. Developing, revising and upgrading curriculum materials in science, mathematics, and modern foreign languages.
7. Making consultative services for the use of equipment, materials, and instructional aids available to all public elementary and secondary schools.
8. Encouraging the development of experimental programs in "TV", better utilization of the staff, and new methods in science, mathematics, and modern foreign languages.
9. Exploring ways to overcome the shortage of teachers in the fields of science, mathematics, and modern foreign languages and especially in modern foreign languages.
10. Encouraging gifted and curious students in special projects and advanced research.
11. Cooperating with the local schools and other agencies in developing and improving the science fair program.

### **3.3 Description of Program for Improvement of Supervisory and Related Services**

The following is the program the State Agency will undertake to improve supervisory and related services in the fields of science, mathematics, and modern foreign language instruction in public elementary and secondary schools during the four years under the plan.

#### **Scope of Activities**

**Local Conferences.** Conferences will be provided for teachers, supervisors, and administrators to develop competencies in science, mathematics, and modern foreign language instruction. The improvement of skills and concepts in administration, supervision, and teaching in these areas will be the main focus in these conferences. They will be staffed with competent consultants and will be organized to cover a concentrated period of time (less than two weeks) or shorter periods of time at intervals during the year. This program will constitute an expansion and improvement since this type of conference has been held infrequently due to difficulties in financing and limitations imposed by the size of the staff.

**Developing Curriculum Materials.** Members of the state staff and outside consultants will work with teachers, supervisors, and administrators, who have competencies in the fields of science, mathematics, and modern foreign languages in developing curriculum materials (guides, courses of study, bulletins, bibliographies, etc.). These materials will be developed in concentrated workshops at the state level or in workshops extending from the local levels. The development of curriculum materials has been limited. This improved and expanded service will meet an expressed need on the part of those concerned with instruction at the local level.

**Consultant Services.** The services rendered by the State Agency will be expanded and improved by the addition of new personnel, assigning present staff members to specific duties in supervision of science, mathematics, and modern foreign languages, and by making use of specialists and/or consultants from outside agencies. (See paragraph 3.4 for duties and qualifications of personnel.)

**Research, Experimentation, and Dissemination of Information.** The services of the State Agency will be further expanded by employing a person skilled in research services. This person will have responsibility for collecting data on the effectiveness of the program under the plan, giving assistance to local agencies in setting up reliable and valid research and experimental programs, interpreting data, and in disseminating information to local agencies and to the public.

This will be a new service which has been an expressed need for a number of years. Budgetary limitations and shortage of personnel have made meeting this need impossible.

**Evaluation of the Program.** The State Agency will carry on a continuous evaluation of projects under the plan. Members of the state staff will work with advisory committees of teachers, supervisors, administrators, and consultants in evaluating the program and in outlining logical and needed steps to be taken in the improvement of instruction in science, mathematics, and modern foreign languages. The State Agency will make such reports concerning the results of evaluation of the program as the Commissioner deems necessary in the execution of his duties.

#### 3.4 Duties and Qualifications of Professional State Personnel

Supervisory personnel on the state staff assigned to a plan program described in paragraph 3.3 shall hold a Supervisors Certificate as outlined in the bulletin "Requirements for Teacher Education and Certification" (p. 20) adopted by the State Board of Education, 1957. (Copy of "Requirements for Teacher Education and Certification" included.) All professional personnel on the state staff are employed by the State Superintendent of Education with the approval of the State Board of Education.

In addition the supervisors shall have demonstrated leadership abilities, shall have been active participants in the professional association of their specialty and shall have had successful teaching and/or supervisory experience in the field in which employed.

The provisions outlined in 2.4 will apply for prorating time, salary, and travel and other expenses for personnel working under this plan part time and on other programs.

Whenever a person with these qualifications cannot be obtained, the State Superintendent of Education may employ, with State Board Approval, a person, who in his judgment is the best qualified person available.

Personnel assigned to a plan program described in 3.3 shall have the following duties:

1. To provide guidance and in-service training in the fields of science, mathematics, and modern foreign languages for teachers, supervisors, and administrators.

2. To encourage and assist local school districts in establishing projects for improvement of instruction.
3. To assist in the development and use of curricular materials.
4. To plan and conduct workshops, clinics, and conferences directed toward improvement of instruction.
5. To assist in the development of standards for projects.
6. To assist in selection and use of equipment and materials acquired for projects.
7. To participate in a continuing evaluation of projects established under the state plan.

All Supervisors in existing positions as they have been described in 3.1 will spend 25% of their time on the plan program in the field(s) in which they are qualified as described in 3.3 with duties as outlined in the paragraph immediately above.

In addition to the reassignment of present personnel, the following additional personnel will or may be assigned to the program described in 3.3 with the duties as outlined immediately above:

A coordinator of Title III who will work immediately under the Director of the Division of Instruction in the general administration and coordination of the plan program.

Five state-wide supervisors: one each in the fields of science, mathematics, and modern foreign languages; one supervisor of audio-visual education; one supervisor in charge of research and experimentation.

As the program expands and budget permits, twelve field supervisors: six of whom will be secondary school supervisors, two each in the fields of science, mathematics, and modern foreign languages; and six of whom will be elementary school supervisors, two each in the fields of science, mathematics, and modern foreign languages.

Consultants and specialists to be selected from recognized authorities in their respective fields to assist in duties outlined above in 3.3.

#### **4.0 PROGRAM FOR ACQUISITION OF LABORATORY AND OTHER SPECIAL EQUIPMENT (AND MINOR REMODELING)**

##### **4.1 Principles for Determining Priorities**

The State Agency recognizes the complexity of the problem and the heavy responsibility it faces in establishing and applying priority principles.

In the past decade South Carolina has undergone a reorganization of school districts which has reduced the number of districts from approximately 1200 to 107. With the establishment of the Educational Finance Commission and the levying of a 3% retail sales tax in 1951 the State has been engaged in a multi-million dollar building program. This program points toward the time when all the youth of the State will be adequately housed.

The task ahead is to continue to upgrade the quality of instruction in the schools; bringing the weakest up to the level of the very best to the end that, every youth should have the opportunity to develop skills, appreciations, and attitudes commensurate with his interest and ability in the

fields of science, mathematics, and modern languages. At the same time our purpose is to encourage new methods, experimentation, and a climate within which teachers may exercise imagination and creativity in their work.

The State Agency will undertake the establishment of desirable minimum and recommended standards and will assist the local agency in meeting these standards during the four years covered by the Act, in elementary and secondary schools, in instruction in science, mathematics, and modern foreign languages.

First priority will be given to project applications from local agencies to assist them in meeting minimum standards.

Second priority will be given to applications from local agencies that have met the minimum standards and who desire to extend and enrich their programs in science, mathematics, and modern foreign languages by meeting or exceeding the recommended standards.

In the application of these priorities consideration will be given to the following:

1. Need for the project in terms of desirable State standards.
2. Relative need for improvement of instruction in science, mathematics, and/or modern foreign languages.
3. Ability of the local agency to support an adequate program in science, mathematics, and modern foreign languages.
4. Resources used to match Federal and/or State funds so that the total school program may be kept in balance.
5. The cost of the project is not prohibitive.
6. Permanency of a school center.
7. Qualifications of teaching personnel in the fields for which funds are to be allotted.
8. Evidence that project application is based on a local plan program and will be continuously evaluated.

#### **4.2 Description of Programs and Standards Established for the Acquisition of Equipment:**

##### **4.21 Mathematics in Public Schools, Grades 1-12**

**4.211 Description of Program.** Mathematics instruction in South Carolina in the past has been traditional and in many of our smaller schools limited to a narrow college preparatory program. Over the four year period covered by the act, the State Agency will seek, through the mathematics program, to upgrade and widen the teaching of mathematics by:

1. Improving instruction throughout the whole twelve years of the curriculum by:
  - (a) Providing better teaching procedures and materials for all pupils, grades 1-12.
  - (b) Providing a minimum of four years sound meaningful mathematics instruction for our non-college bound youth and a possible maximum seven years sound and solid college preparatory mathematics for the college bound youth.

2. Providing for basic as well as enriched courses.
3. Incorporating possible changes in the mathematics curriculum.
4. Improving the competencies of teachers.
5. Providing adequately equipped mathematics classrooms.
6. Improving articulation between the elementary and the high school, the high school and the college.

**4.212 Standards for Equipment.** Standards governing the purchase of laboratory and other specialized equipment and audio-visual materials, as well as minor remodeling of laboratory facilities, will be established for the programs in science, mathematics, and modern foreign languages at both the elementary and secondary levels. These standards will include a list of basic and recommended equipment and materials from which the local agency may select for use in a plan program.

In the development of standards for equipment and materials the following criteria will be considered: (1) Type (2) quantity (3) quality (4) cost.

Before any project is approved by the State Educational Agency, there will be filed with the Commissioner a copy of the standards established by the State Educational Agency.

**4.213 Standards for Minor Remodeling.** The state plan establishes the definition of minor remodeling as contained in regulation 141.26. Under this plan Federal funds will be expended for minor remodeling needed to make effective use of equipment acquired through a project approved under the state plan, and then only to the extent that it improves the usability for that purpose of existing space in an already completed building. Building maintenance costs shall not be included as remodeling.

#### **4.22 Science in Public Schools, Grades 1-12**

**4.221 Description of Program.** The State Agency shall, during the four years covered by the Act, seek to improve instruction in the total program grades 1-12 through:

1. Giving pupils an opportunity to do experiments in a laboratory situation as well as to talk and read about science.
2. Providing adequate instructional materials and supplies.
3. Making provision for science instruction for general education and for special courses and laboratories for those with exceptional ability in the high school.
4. Making equipment available for activities such as science clubs, preparation for science fair projects, and research science groups.
5. Planning carefully the scope and sequence for teaching scientific concepts in the elementary school.
6. Evaluating the scope and sequence of science offerings in the junior and senior high school.
7. Making provisions for enrichment courses in the curriculum.
8. Helping teachers gain confidence and new competencies in science.
9. Equipping science laboratories adequately with special emphasis on the development of more laboratory experiences in which the student can discover scientific principles.

#### 4.23 **Modern Foreign Language in Elementary and Secondary Schools**

4.231 **Description of Program.** At the present time most of the teachers of modern foreign language were taught by a (grammar-reading) method and have had little or no opportunity to develop skill and facility in understanding and speaking. With almost no foreign born population it is next to impossible to find anyone who uses a foreign language. The greatest and most immediate need of South Carolina's foreign language teachers is **increased aural-oral competence.**

Many of our teachers are married women who are not able (or willing) to leave their families for long periods of time to attend summer schools of six consecutive weeks. To meet this situation, the state plans to develop an in-service training program wherein frequent workshops or work conferences will be held within driving distances of teachers throughout the State. Consultants and supervisors will plan conferences so as to give every foreign language teacher an opportunity to hear and speak the language under controlled conditions.

The objective for the four-year period will be to increase the competences of modern foreign language teacher.

Because of the absence of equipment and materials, foreign language courses have tended to be **courses about** foreign languages. Our objectives for the next four years will be to relate material and equipment to instructional needs so that every foreign language pupil might have access to perfectly spoken language and access to hearing his own voice.

The program envisions much demonstration of proper uses of material and the equipment.

At the present time foreign language instruction is confined to the secondary school. The plan program includes an extension of foreign language instruction to the elementary schools. This involves a comprehensive teacher training program.

4.232 **Standards for Equipment.** Same as 4.212.

4.233 **Standards for Minor Remodeling.** Same as 4.213.

2. Scope of project—a general description.
3. List of material and equipment on hand suitable for use in project.
4. List of new or additional equipment and materials to be purchased for use in project.
5. Cost of this equipment and materials.
6. Amount of local funds.
7. Amount of Federal funds.

11. Evidence of continuing project.
12. Evidence of plans for evaluation.

#### **4.33 Time of Submittal**

Local educational agency projects may be submitted at any time during the fiscal year for which funds are applied after the local educational agency has determined its budget.

#### **4.34 Criteria to be Used in Approving**

In approving projects the State Educational Agency will apply the established principles of priority in such a way as to assure: (1) general upgrading on as nearly a universal basis as possible and (2) reaching at the earliest possible time the greatest number of pupils in the instruction of science, mathematics, and modern foreign languages.

The standards established by the State Agency in 4.2 will be used as the basis for approving projects under Section 303 (a) (1) of the Act.

#### **4.4 Reimbursement of Local Educational Agencies**

Local educational agencies will be entitled to reimbursement for approved projects on a uniform basis. Federal reimbursement is not to exceed 50% of the total expenditure. Reimbursement to local educational agencies will be contingent upon approval of projects as described under 4.3.

### **Trade Certificates**

The following supplements the bulletin "Requirements for Teacher Education and Certification" (1961), a copy of which is on file in the office of the Secretary of State.

**E. General Information Regarding Trade Certificates**

1. All certificates are dated July 1 of the fiscal year in which the certificate is issued.
2. **Citizenship**—A person must be a citizen of the United States and/or declare his loyalty to the Constitution of the United States.
3. **Age Requirement**—An applicant must be at least 18 years of age before making application for a certificate.
4. Any applicant for a trade certificate is eligible to stand the trade examination as many times as he desires. However, both the theory and practice parts of the examination must be taken and only the combined score of the same examination can be used. The highest score will be used by the Division of Teacher Education and Certification in computing the grade of the certificate. The State will pay the cost of the first examination. All subsequent examinations will be paid for by the applicant.

5. All certificates will be marked to indicate the area or subject in which the applicant is certified to teach.
6. Lapsed certificates may be reinstated by submission of evidence that the applicant has secured additional trade experience in the field in which the certificate was issued.
7. Applicants who are not able to move to the next group may renew their certificates for another period upon submission of evidence that the applicant has had a minimum of six weeks' work experience during the life of the certificate, or by attending a service school for 2 weeks (80 hours).
8. A teacher who had not planned to teach in this State, who is eligible for a certificate, and is employed after the closing date for applying for the Trade Examination will be issued a certificate showing group and class but no grade. The applicant will be required to take the examination at the next regular administration and the score on this examination will determine the grade of the certificate. Such grade shall become retroactive for the purpose of state aid as of the date the certificate was issued. If the examination is not taken at the next administration, the certificate reverts to a permit.
9. During a calendar year, September 15 to September 15, no teacher while employed full time may submit for certification purposes more than a total of 15 semester hours of college credit or a total of 17 semester hours when laboratory credits are included. (Laboratory credit must be considered a part of the course itself, as in the case of chemistry or physics, in order for an additional hour to be given over and above the 15 as indicated in the regulation.) Between the months of September and June no teacher while fully employed may earn more than six semester hours of college credit unless the course taken carries an additional laboratory hour. The maximum credit accepted toward certification for summer school is one semester hour per week, and in no case may a teacher exceed the total allowed during the calendar year as indicated above.
10. Not more than 25 per cent of the college credits listed for any specific requirement may be earned through correspondence except that in meeting a six-hour requirement, three semester hours by correspondence will be accepted.
11. The state high school certificate is accepted in lieu of high school graduation.
12. Apprenticeship
  - a. The standard training periods set up by the National Committee for Apprentice Training for the basic trades are accepted as the standard apprentice training periods for teachers in these trades.
  - b. Satisfactory completion of a prescribed course offered in a standard vocational school or trade department of a recognized high school operating in compliance with the Smith-Hughes Law shall be considered as meeting requirements for the learning or apprentice period in industry on a year for year basis. This is to be certified by the state supervisor of trade and industrial education. Com-

parable credit can be given for training in college related to the field to be taught, provided the maximum allowed for both college and high school is 100% of the total apprenticeship or learning period, or on a 75% basis for general college training.

- c. In occupations not apprenticeable, the learning period ceases when the worker becomes an operative with full pay for the job.

13. Work Experience

- a. Two thousand hours of work experience constitute a year.
- b. Experience in the armed services in the trade to be taught may count year for year as work experience.
- c. One thousand hours of work experience during the life of the permit or certificate or 500 hours of work experience during the life of the permit or certificate plus six semester hours in college work, technical, scientific, or vocational, will constitute a full year of work experience for a teacher holding a trade permit or certificate in Class IV, III, or II and remaining in continuous teaching service. The semester hours of college work to meet this condition are in addition to the semester hours required to advance the certificate as otherwise required in the plan. A permit or certificate may be advanced only once on this basis; thereafter, only 1,000 hours with teaching service will be accepted as a full year of work experience.
- d. In lieu of the six semester hours of college credit to make up part of the work experience in paragraph (c) above, attendance at a recognized special school in the teacher's area of instruction may be substituted with the approval of the State Supervisor of Trade and Industrial Education.
- e. Work experience not to exceed 300 hours may be obtained by teachers for bona fide employment between September 1 and May 31, provided it is approved and verified by the school superintendent or his agent.
- f. Approved supervised training may be used in lieu of college credit under the following conditions:
  - (1) Must be approved by the Supervisor of Trade and Industrial Education of the State Department of Education.
  - (2) Supervised training is limited to not more than the equivalent of 12 semester hours.
  - (3) Eighteen clock hours of supervised training is equal to one semester hour in certification.
  - (4) Training may not be counted twice in meeting any one requirement.

14. Substantiating Evidence Required

- a. **Work Experience**—A signed statement from employers must be submitted. In case of death of employer or in the event that the firm has gone out of business, a certified statement signed by the local and state supervisor must be presented.
- b. **Attending Manufacturer's School**—Substantiating evidence must be submitted to the State Supervisor of Trade and Industrial Education.

- c. **N. Y. A. Teaching Experience**—No N. Y. A. teaching experience will be credited; however, if the person was supervising an N. Y. A. shop and presents evidence that such was the case, he will be given credit for supervisory and work experience.
- d. **Civil Service Teaching Experience**—This will be accepted as work experience upon presentation of evidence.
- e. **Correspondence Schools**—If courses are in the trade which the applicant teaches or in general education upon presentation of substantiating evidence they will be evaluated and will be accepted in lieu of credit for the courses.

#### STANDARDS FOR JUNIOR COLLEGES OF BUSINESS

(Filed in the office of the Secretary of State September 25, 1962)

The State Board of Education through the State Department of Education accepts the responsibility to evaluate and accredit junior colleges of business. Those junior colleges of business so accredited shall be authorized to grant the appropriate associate degree or diploma.

A junior college of business shall be considered as a two-year institution devoted substantially to training at the collegiate level for semi-professional business occupations. Such training connotes an approved combination of general and specialized education appropriate to the develop-

ment of competencies needed for the semi-professional positions in supervision and management as well as the transmission of a common cultural heritage.

**Standard One—Aims and Objectives**

Each institution shall define and publish its objectives. Both general and specific objectives shall be listed. There shall be maintained in the office of the administrative head of the college evidences of the degree to which the college is attaining its objectives.

**Standard Two—Organization**

Legal evidence of the organization of the college and the character of its control must be available. A junior college of business may be a privately controlled institution but must be non-profit in character. The board of control may not have a financial interest in the institution and must have full authority to select, employ, or replace for cause any employee or officer of the institution.

Such an institution shall offer and require not less than sixty semester hours of work in appropriate sequence for graduation. (A semester hour is considered to be the equivalent of one clock hour of recitation per week for a full semester, said recitation requiring approximately two clock hours of preparation in the form of out-of-class study, required library reference work, etc. For those subjects that are more manipulative in character, two clock hours of such drill under the direct supervision of the instructor shall be considered the equivalent of one recitation hour. A semester is considered to be one-half of a regular nine-month term or eighteen weeks.)

A junior college of business that operates other less than two-year degree programs shall keep records and schedules in such a way that shows such programs as clearly separate and distinct from the degree program. Financial records must be such as to reveal quickly and accurately the full instructional costs of providing the degree program separate from other related programs.

**Standard Three—Entrance Requirements**

The two-year junior college of business shall require for admission to its standard degree program graduation from an approved secondary school with a minimum of sixteen acceptable units or twelve units from an approved three-year senior high school (or the high school certificate obtained by high school equivalency examination). Psychological and adjustment test information should also be secured by the college prior to or at the time of entrance.

**Standard Four—Faculty**

Junior colleges of business should have an adequate and competent faculty working under conditions that encourage the best efforts of each individual. Adequacy of faculty will be judged in terms of the scope of the curriculum, the methods of instruction employed, and the average number of students enrolled. The student-teacher ratio shall not exceed

20 to 1. In no case shall the faculty number fewer than four full-time members having teaching as their primary responsibility. The full-time faculty members should be representative of the principal areas of instruction offered by the college.

In judging competence, consideration will be given to the academic preparation and business experience of each teacher. At any one time, no teacher should be assigned to teach in more than three fields of instruction, and preferably in not more than two fields. Teachers should be assigned in terms of their major and minor preparation and related business experience. **At least one-half of the faculty teaching second-year work** must have master's degrees, L.L.B., C.P.A., or other professional equivalent. The minimum standards applicable to all schools and colleges must be met by all other faculty. Attention will also be given to the proportion of the faculty which has attended or graduated from the institution being visited.

Another measure of competency is the professional interest and activity of the teaching staff. Membership, attendance, and participation in professional associations and societies as well as publications are evidence of professional interest.

In determining satisfactory working conditions, consideration will be given to factors such as instructional load, appointment, tenure and promotion policies, rank and salary structure, provisions encouraging professional growth, and benefits that encourage stability of faculty.

Teaching loads should not be greater than 18 credit hours per week, including evening classes. Consideration will also be given to the number of clock hours of regularly assigned instruction, which should not exceed 25 per week, and the number of different preparations required.

Teachers should be appointed by official action of the board of control upon recommendation of the designated administrative officer. Notices of appointment should be in writing and contain all the conditions of employment including a statement of conditions necessary for tenure.

Careful consideration will be given the salary structure as well as the actual salaries paid. The salary schedule for teaching and administrative personnel should be related to preparation and experience and should be such as to attract, and retain on the staff, persons qualified to render effective service in their respective positions. The basis for judging the salary status is the median and maximum salaries paid, not merely a salary schedule. No full-time teacher shall be paid less than \$3,000.00 for a nine-month term.

Faculty morale will be checked by considering evidence of conditions that encourage instructors to give their best teaching efforts. Freedom of each instructor to make such necessary decisions as selection of textbooks and other teaching materials and teaching methods and to set standards for awarding credits and grades are important in this respect. Other conditions that will be considered are retirement, insurance and similar benefits, policies regarding leaves of absence and administrative encouragement for professional growth and improvement including reimbursement for travel expenses to professional meetings in their fields of instruction.

**Standard Five—Curriculum and Degree Requirements**

The curriculum is the usual means by which the objectives of a college are achieved. Hence each institution applying for accreditation will be expected to show that it offers such courses as are appropriate to its specific purposes including an adequate program of general education, of basic business education, and of business courses related to the objectives of the institution. The organization of the curriculum should be such as will best serve the students and is to be determined by each institution for itself.

The principal curriculum of the junior college of business **must be at least four semesters.**

Of the total credits required for the associate degree or diploma, a minimum of 50 per cent should be in business or economic subjects and at least 25 per cent in general education. General education subjects are considered to be those other than business and economics, provided that economic principles, economic history, and economic geography may be included in either category. For purposes of accreditation the term "general education" signifies acquaintance with the major areas of knowledge. It excludes work designed specifically to further occupational competence, including such subjects as business English and vocabulary building, business mathematics, and business psychology. The framework of the general education program should embrace work in **more than one of the following fields: mathematics, languages, literature, and related subjects such as psychology, the fine and practical arts, the communication arts and social science. The school may also elect to make offerings from the following fields if it so chooses: biological science, physical science, the humanities, religion, health education and recreation.**

In addition to general education, all junior colleges of business must offer work in at least two of the following fields: accounting, business administration and management, economics and finance, marketing, secretarial science, and office machines. Second-year work based upon appropriate first-year prerequisites shall be offered.

The curricula shall approximate, quantitatively and qualitatively, the standards in effect in recognized collegiate institutions offering associate degrees in business. Instructional procedures, texts, and materials should be those suited to the purposes, curricula, and standards of collegiate instruction.

Enrollment in the second year of a two-year program must be sufficient to support regularly scheduled and conducted class and laboratory work, and to insure high standards of instruction. Institutions must submit part-time and full-time enrollment figures for day and evening programs, by fields and by classes, and a record of the number of associate degrees and diplomas conferred for each of the preceding three years in relation to full and part-time enrollments.

**Standard Six—Financial Support and Expenditures for Instructional Purposes**

Each junior college shall show conclusive evidence that it is able adequately to finance the program proposed in its stated objectives.

1. For those institutions which depend upon student fees and do not have income from endowment, taxation, or other sources the minimum annual income shall be not less than \$20,000.00 for the first one hundred students or fraction thereof in full-time enrollment and \$10,000.00 for each additional one hundred students or fraction thereof plus an additional sum that shall be arrived at by multiplying the mean revenue derived from student tuition and fees in other junior colleges by the number of full-time students.
2. The expenditures for direct instructional purposes is an important factor in measuring the college program. To arrive at the direct instructional cost the following items are allowed:
  - a. The total salaries of the teaching staff omitting the salaries of all administrative officers.
  - b. The expenditures for salaries of librarians, library assistants, library supplies, purchase of books and periodicals for the library, cost of binding, repair and maintenance of library materials.
  - c. The expenditures for classroom, laboratory, and any other supplies used directly for instructional activities. Maintenance supplies and expenditures for permanent equipment are excluded.
  - d. The total sum thus derived should be divided by the average number of full-time students attending the institution during the regular session of nine months and the result should show a direct instructional expenditure of not less than \$200.00 for each full-time student for the first one hundred students or fraction thereof and not less than \$150.00 a student for each additional student.

**Standard Seven—Library**

The functions of the library should be determined by the educational program of the college. It should provide the study and reading facilities necessary to make the educational program effective, and there should be evidence that such facilities are appropriately used.

There shall be provisions for an adequate supply of up-to-date library materials and evidence of library use for all subjects in the program requiring by their nature library reference and study, including appropriate periodicals.

In estimating the adequacy of the library, attention will be given to the holdings of general and special reference works, current and bound volumes of periodicals, the number and variety of books, and audio-visual aids and equipment.

The book collection should be **up-to-date** and include materials for use by both students and faculty. Provision should be made for supplying technical books and periodicals for use by instructors. **A large collection of materials relating to subjects not offered in the curriculum will not be regarded as contributing to the effectiveness of the library.**

In judging the library, consideration will be given to evidence of use of library holdings by both students and faculty, including methods used to encourage use by students. **The library must be under the direction and supervision of a trained librarian (who may be part-time) or a teacher-librarian.** There must be a sufficient number of assistants to provide adequate supervision of the library. An adequate annual budgetary allowance must be expended for the purchase of books, periodicals, and other materials, and for salaries of librarians and assistants. Four dollars per student would be considered minimum for the annual expenditure for the purchase of books, periodicals, and other library materials.

#### **Standard Eight—Student Personnel Services**

The policies and services of an institution with reference to its students should be determined not only by the purposes of the institution but also by the character of its students. A junior college of business should admit to its degree or diploma programs only those students whose educational interests, aptitudes, abilities, and previous training qualify them to pursue collegiate preparation for business. In evaluating the student personnel services, attention will be given to recruitment and admission policies and procedures, student records, counseling and placement services, financial arrangements and student grants in aid, health services, housing, student organizations and activities.

Graduation from high school, as evidenced by a transcript of credits, should be the minimum requirement for admission to the day school program **for credit courses.**

Any deviation from this minimum must be justified by appropriate evidence, such as G.E.D. test results. The admission policy of an institution should provide guidance of prospective students based upon evaluation of previous records and estimates of probable future success. Recommendations from teachers and other individuals who are well acquainted with an applicant provide clues as to his interests and aptitudes. Tests and personal interviews given prior to admission also are useful in determining aptitudes and abilities. The rank of a student in his graduating class may be a good measure of his intellectual interests and probable success in college.

Recruiting procedures shall be ethical. Ethical recruiting practices are those that have as their objective the welfare of the student. An institution will be expected to provide not only an initial orientation program, but also a continuing program designed to enable the students to adjust successfully to their work and problems.

It is essential that adequate records be maintained to assist the students during and after admission and subsequent to graduation. Such records should embrace both academic and non-academic records. Academic records should include the complete official history of a student's academic career at the institution and a summary of his previous scholastic work. Students are entitled, in accordance with reasonable regulations, to transcripts of their academic records. The non-academic records should include such information as reports of interviews and vocational interests,

health notes, employment experience, family history, participation in extra-curricular activities, test results of various sorts, and his financial relations with the college.

An institution should provide such counseling service to students as will adequately meet their educational, vocational, and personal needs. This necessitates an organized counseling system in charge of a director or dean. Placement service should be maintained to provide part-time work for students and for employment following graduation. The college should also maintain contact with employers and should inform its students concerning employment conditions and opportunities and ways of obtaining positions.

**A college shall clearly state and explain in its information bulletin or catalog all financial requirements and arrangements, including a schedule of fees, tuition and other charges, estimated costs of books and supplies, methods of payment, and refund policies. Also, information concerning scholarships, loans, and grants of aid should be published. This statement should also indicate the conditions under which such aid is available and awarded, the obligations of recipients, and the procedure to follow to apply for such aid.**

Consideration will be given to evidence of other personnel services usually furnished by collegiate institutions, such as health and medical examinations and service, and housing and food service. Evaluation will be made of an institution's extra-curricular and student activity program, with a view to determining the opportunities for developing student leadership and participation in social, religious, athletic, and recreational life. Inquiry will be made as to procedures for control and financing of these activities.

#### **Standard Nine—Plant and Equipment**

The physical plant, comprising grounds, buildings, and equipment, should be adequate for the efficient conduct of the educational program of the institution, in accordance with its purposes. In judging the plant, consideration will be given to the adequacy, effectiveness, and maintenance of such features as:

Site and location; type of buildings, including adequate provisions for safety; classrooms, laboratories and other facilities appropriate to an effective business program; library; offices for instructional, administrative, and clerical staff; health, recreation, and athletic facilities; auditorium and dormitories. If the plant is not owned by the institution, **evidence of long-term occupancy and lease should be presented to demonstrate the stability of the institution.**

(Filed in the office of the Secretary of State September 25, 1962)

The State Board of Education in its meeting on March 16, 1961 adopted the following report of the committee appointed to recommend standards for junior colleges of business for degree granting purposes:

"The Committee recommends to the State Board of Education that it approve the granting of appropriate associate degrees by junior colleges

of business who meet the criteria for junior colleges of business established by The Accrediting Commission for Business Schools. Determination as to meeting the standards of these criteria may be accomplished by:

1. Accreditation as a junior college of business by the Accrediting Commission for Business Schools and approval by the State Board of Education, or

2. Approval by a sub-committee appointed by the State Board of Education and ratification by the latter. The sub-committee may accomplish its mission by inspection and/or review of application and other records deemed pertinent, using the standards established by the Accrediting Commission for Business Schools.

It is suggested that the sub-committee be composed of a representative of a school or department of business in a senior college, a representative of a junior college, and a representative of a junior college of business.

It is further recommended:

1. That the initial approval of the awarding of the associate degree by a junior college of business be for a period of five years, subject to re-evaluation during this period.

2. That further consideration be given during the next five years to the interest on the part of the junior colleges of business for full accreditation under standards to be developed."

The seal or facsimile thereof shall be placed on each sheet of plans and on the title page of specifications when issued.

**5. Annual renewal fees:**

All certificates of registration will expire on June 30 of each year unless renewed during the month of June in accordance with the provisions of the Act. On payment of the required annual renewal fee a renewal registration card will be issued to the registrant. The renewal fee for professional engineers shall be seven dollars and the renewal fee for land surveyors shall be five dollars. In the case of a registrant who is registered as both professional engineer and land surveyor, only one fee of seven dollars shall be required.

**6. Applications for Registration:**

All applications for registration shall be filled out completely on the forms supplied by the Board. No application will be considered unless properly filled in and sworn to before an officer authorized to administer oaths. They shall be received by the Secretary at least 45 days prior to the next meeting of the Board in order to be considered at that time. The forms must be completed on a typewriter and in all cases be accompanied by the required fee. If an application for registration is not approved by the Board the initial fee deposited shall be retained as an application fee and not refunded to the applicant.

In the case of a candidate who applies for registration as both professional engineer and land surveyor at the same time, only one application fee of thirty dollars shall be required. The remaining five dollars of the registration fee as professional engineer shall be paid when registration is approved.

An applicant shall not be admitted to the written part of the examination until satisfactory replies shall have been received from his references

and the Board has reviewed his application and approved his admission to the written examination. The applicant should advise his references that he has used their name, in order to avoid delay in replies to the Board.

The application and experience record, as filled out and submitted by the applicant, and verified by his references, is an important part of the examination. The evaluation given for this part of the examination shall be based not only on the duration of time spent in engineering work of a responsible character, but also on the importance and nature of the work.

#### 7. Qualifications for Registration:

(1) It shall be the policy of the Board that all applicants who have passed the EIT examination but who do not have a **specific record** of more than four years of **satisfactory experience** that indicates they are **competent to practice engineering** and the evidence presented in their applications is **not conclusive** and **does not warrant** the issuing of a certificate of registration, be required to pass Part II (8 hours) of written examination. Applicants who are graduates of an approved engineering curriculum but **do not meet the qualifications referred to above** and who **did not pass the EIT examination** shall be required to pass both Parts I and II (16 hours) of the written examination.

(2) Before an applicant who is not a graduate of an approved engineering curriculum is permitted to take the written examination, he must show a **specific record** of more than eight years of **satisfactory experience** which indicates that he is **competent to practice engineering**.

(3) An applicant who is more than thirty-five years of age shall have a **specific record** of more than twelve years of **lawful practice in engineering** work including **outstanding accomplishments** in order to be exempted from the written examination.

#### 8. Examinations:

When oral or written examinations are required the candidate will be notified by the secretary as to the time and place of the examination. Examinations shall be given by the Board, or a Committee of the Board, or under the direction of the secretary. In all cases final decision as to whether or not a candidate has passed a written examination, or shall be approved for registration, must be acted on by the full Board, or a quorum thereof, at a regular meeting of the Board.

Examination questions will be prepared by members of the Board or by qualified persons appointed by the Board to prepare and grade examination questions. When persons other than members of the Board are engaged to prepare and grade examination questions they shall be paid for their services such an amount as may be approved by the Board. The written part of the examination requires two days. Part I, the first-day examination (originally I and II), will consist of 8 hours in engineering fundamentals normally offered in an approved engineering curriculum. Part II, the second-day examination (originally III), will consist of 8 hours covering professional engineering practice and including subjects in the applicant's major field. Examinations in narrow specialties will not be given. Part I (8 hours) will be graded as one examination requiring

an average grade of 70% to pass. The Engineer-in-Training examination will be the same as Part I and will be graded in the same manner and shall constitute a credit for a period of ten years. Part II (8 hours) will be graded as one examination requiring an average grade of 70% to pass. The written examination for Land Surveyors will consist of 8 hours in two periods and will be graded as one examination with an average passing grade of 70%.

Where an applicant has failed the written examination he may be given a re-examination at the discretion of the Board but not in less than one year. An applicant who has failed the written examination three times will be required to wait three years after the date of his last examination before he can take the written examination again and will be required to take the complete written examination that was originally assigned to him.

**9. Reinstatement of expired certificates:**

Any registered professional engineer or registered land surveyor who submits to the Board an affidavit certifying that he has in no way practiced or offered to practice in South Carolina, professional engineering if an engineer, or land surveying if a land surveyor, during any registration year from July 1 to June 30, accompanied by a statement showing in detail all work performed during this period, may be exempted by the Board from payment of the annual renewal fee prescribed in Section 56-733, S. C. Code of 1962 for the specific period stated in his affidavit, provided the application for reinstatement of registration is accompanied by the renewal fee for the current year.

**10. Registrants of other states, registration by endorsement:**

The Board may, upon application therefor, properly prepared on the prescribed form and the payment of the fee of twenty-five dollars, issue a Certificate of Registration as a Professional Engineer to any person who holds a Certificate of Qualification issued to him by the National Bureau of Engineering Registration, or who is legally registered or licensed in any state or territory of the United States, or in any country, provided the applicant's qualifications meet the requirements of this Act and the rules established by the Board.

**11. Temporary permits:**

An engineer registered in another state, and in good standing, may be permitted to practice engineering in this state for a period not exceeding thirty (30) consecutive days on any one project during any calendar year provided he applies to the South Carolina State Board of Engineering Examiners in writing prior to the time he starts work, submitting evidence that he is legally registered and in good standing and pays a fee of fifteen dollars with his request. Upon verification of his registration and in the absence of any evidence that he is not qualified to practice in his own state, the Secretary of the Board will give the applicant a letter of authorization to practice on the project named for the designated period. The thirty-day period shall include the time spent on the project in his home or branch office as well as the period in this state.

If an applicant for a temporary permit wishes to practice for a period longer than thirty consecutive days, he shall apply for registration in this state in accordance with Section 56-724 of the 1962 Code.

12. **Information:** All correspondence regarding registration should be addressed to Mr. William J. Barker, Secretary, State Board for Registration for Foresters, Clemson College, Clemson, South Carolina.
13. **Statement of Guiding Definitions:** The following definitions will guide the Board in evaluating applications for a license as Registered Forester. For other forestry definitions the Board will be guided by

FORESTRY TERMINOLOGY, published by Society of American Foresters.

a. Professional—Webster Unabridged:

"The occupation, if not purely commercial, mechanical, agricultural or the like, to which one devotes oneself; a calling in which one professes to have acquired some special knowledge used by way of instructing, guiding, or advising others or of serving them in some art."

b. Forestry—SAF "FOREST TERMINOLOGY"

"The scientific management of forests for the continuous production of goods and services."

c. Forestry—Webster Unabridged:

"The science and art of forming, caring for or cultivating forests; the management of growing timber."

d. Forester—SAF "FOREST TERMINOLOGY"

"A person who has been professionally educated in forestry or who possesses qualifications for the practice of forestry essentially equivalent to graduation from a recognized school of forestry."

e. Forester—Webster Unabridged:

"A person who is trained in forestry, especially one in charge of public or private forests or charged with the promotion of the interests of forestry."

14. **Activities:** (services) which are not considered by the Board to be qualifying under Section 2(b) of the Act.

a. Marking timber as a member of a crew without responsibility for determination of objectives, volumes, values or other purposes for which the timber is being marked is not considered professional forestry service.

b. Business managers, administrators, plant managers and accountants are not considered to be engaged in professional forestry service unless such a person is responsible for the application and practice of forest management and forest economics.

c. Scaling of forest products is not considered to be professional forestry service. Measurement in terms of forestry is defined as the science of the measurement of volume, growth and development of individual trees and stands and the determination of various products obtainable from them.

d. Management of wood yards, and the duties incident thereto, is not considered to be professional forestry service or responsible supervision of the forestry specialties enumerated in the Act.

e. Cutting, hauling, loading, storing and processing forest products are not considered professional forestry services.

f. Forest protection for purpose of professional forestry service will be limited to those persons specializing in the formulation of plans and programs and the administration of all activities concerned with the prevention and control of damage to forests from fire, insects, disease, or other injurious and destructive agencies. Forest workers or forest fire fighters including tractor plow operators, fire or crew

- bosses, dispatchers, lookouts, scouts, crewforemen, forest pest control workers, and the like, will not be considered as serving in a **professional capacity**.
- g. Silvicultural practices such as reforestation and timber stand improvement will not be considered professional services unless the applicant has responsibility of technical determinations and not just **physical labor involved in applying the practice**.
  - h. The buying and selling of woodlands, or the products thereof, shall not be considered professional forestry services unless such dealer, broker or real estate operator shall also be actively engaged in forest management and such operations are part of the forest management function.
  - i. Compassmen and tallymen in timber cruising parties are not considered to be performing professional forestry services.
15. **Training and Apprenticeship Periods:** It is the consensus of the Board that an applicant cannot initially transfer from unrelated activity to a forestry activity and be immediately qualified to perform professional forestry services. A substantial period (at least one year) of education, training and apprenticeship is considered to be a prerequisite.

#### **Credit Insurance**

(Filed in the office of the Secretary of State December 4, 1962)

1. For a period in excess of two years, this Department has had under study the sale, and premium charges, of insurances in connection with consumer finance. By concurrent resolution dated March 9, 1962, the General Assembly requested this Department to examine the premium rates for accident and health insurance sold in connection with consumer finance under the Small Loan Act toward the end of establishing realistic rates in the State of South Carolina. Although life and property insurances are presently sold in this State in addition to accident and health insurance, both through licensed and unlicensed small loan lenders and by other than small loan lenders, the rate adjustments established by this Regulation are confined to accident and health insurance written pursuant to the provisions of the Small Loan Act.

##### **2. Definitions:**

(a) "Credit Life Insurance" means insurance on the life of a debtor pursuant to or in connection with a specific loan or other credit transaction;

(c) "Credit Property Insurance" means insurance on personal property securing a specific loan or other credit transaction against physical damage, destruction or loss.

3. On and after February 1, 1963, the premium rate of all accident and health insurance policies providing indemnity to or on behalf of persons in this state, issued in connection with loans made under the provisions of the Small Loan Act, shall not exceed four and one-half (4½%) per cent

of the maximum indemnity (\$2.70 per annum per \$5.00 unit of monthly indemnity), nor shall any such insurance provide for a waiting period in excess of three (3) days and benefits shall be retroactive to the first day of disability. Premium rates applicable to accident and health insurance policies, riders and endorsements, written in connection with loans made under the Small Loan Act, shall, from date of February 1, 1963, be filed with this Department.

4. Copies of all agent or agency contracts entered into by insurance companies writing any business in connection with loans made pursuant to the provisions of the Small Loan Act shall be filed with this Department.

5. (a) Undue delay by insurance companies writing any credit insurance business in collecting and depositing remittance of monthly balances is prohibited.

(b) Records of such business shall be submitted not less frequently than once a week to the writing companies by the writing agents.

6. No person connected with a lending agency, directly or indirectly, shall adjust or attempt to adjust any credit insurance claim.

7. (a) Payment of credit insurance claims shall be made only by the insurer, and shall be paid to the creditor to reduce or extinguish the unpaid indebtedness unless waived in writing by the creditor and, wherever the amount of insurance may exceed the unpaid indebtedness, then any such excess shall be payable to the debtor, a beneficiary, other than the creditor, named by the debtor or to the debtor's estate. The unearned insurance premium, if any is due, shall be similarly repaid and shall be computed as of the date of death or loss.

(b) For single premium decreasing term insurance, refunds shall be computed in accordance with the "Rule of 78".

For single premium level term insurance, refunds shall be computed on a pro rata basis.

8. The agent shall furnish the borrower, within thirty (30) days after a loan is made, a policy or certificate of insurance covering any credit insurance procured by or through the agent which shall set forth the amount of any premium or identifiable charge which the borrower has paid or is obligated to pay, the amount of insurance, the term of insurance and a complete description of the risks insured. Insurance on life, earning capacity, or personal property shall not be sold to more than one party obligated on a loan.

9. No insurance shall be written in connection with any loan whereof the cash to the borrower, actually received, is twenty (20) dollars or less.

10. The assessment or collection of policy writing fees on any policy of credit insurance is prohibited.

11. No borrower under the provisions of the Small Loan Act shall be charged any premium for lien-endorsement coverage.

12. No borrower under the provisions of the Small Loan Act shall be charged any premium for non-recording insurance coverage.

13. Every hospitalization or accident and health claim shall be supported by the certificate of a licensed medical physician.

14. All insurance written under the provisions of the Small Loan Act, except property insurance, shall be limited to coverage on a single interest or decreasing balance basis.

18. The periodic repayment indemnity under credit accident and health insurance may be written for the next highest multiple of five (5) dollars.

19. Insurance companies writing credit insurance shall maintain adequate records so that full and detailed information as to premiums, claims and expenses, of such insurance will be available to the Insurance Department whenever requested by it.

20. Any plan which in effect, whether directly or indirectly, tends to evade the requirements and spirit of this Regulation is prohibited.

21. That Regulation dated December 12, 1961, and entitled "Credit Insurance" is cancelled and superseded effective February 1, 1963.

2. Every broker's license issued shall be restricted to those lines of business for which specific application is made and must be supported by record of prior issuance of agent's license for such lines of business. The limits of authority of all brokers' licenses shall be plainly set forth on the face of the license.

#### **Uninsured Motorist Fund Distribution**

Promulgated under authority of Sections 46-138.6 and 37-56 of the  
1962 Code

(Filed in the office of the Secretary of State March 1, 1963)

It appears that all companies authorized to write automobile liability insurance contracts in this State have been requested to provide appro-

priate premium and loss statistics for the year, 1961, and have been advised that any such company not reporting by January 21, 1963, will not be entitled to participate in the distribution of the South Carolina Uninsured Motorist Fund for 1961.

It further appears that all such companies have provided the statistics requested, or, by failure to provide such statistics, have waived participation in the distribution for the year, 1961.

It further appears that the appropriate formulae for distribution consistent with the provisions and intent of Section 46-135 et seq., South Carolina Code of Laws, 1962, is as follows:

1. The fund distributable shall comprise an amount equal to the total uninsured motorist losses and loss expenses paid by all companies, so reporting, writing automobile liability business in South Carolina, from date of January 1, 1961, to December 31, 1961.
2. The fund distributable shall be separated on the basis of total written premiums for private passenger writings and total written premiums for all other automobile liability writings.
3. Distribution shall be made from the total "private passenger" distributable fund, pro-rata to participating companies on the basis of company insured car years to the total of all companies insured car years.
4. Distribution shall be made from the total "all other" distributable fund, pro-rata to the participating companies on the basis of company "all other" written premiums to the total of all companies "all other" written premiums.

Therefore, distribution shall be made from the Uninsured Motorist Fund, in accordance with the above formulae, to the extent of total uninsured motorist losses and loss expenses paid during the calendar year, 1961, out of uninsured motorist funds collected for the automobile registration year, 1961, less deduction of expenses by the South Carolina Highway Department.

(Filed in the office of the Secretary of State October 3, 1962.)

Adopted June 5, 1962; superseding those adopted September 28, 1961 and those adopted September 22, 1960.

It is the purpose of this Board, acting under the provisions of the Act creating it, to safeguard the public interest in real estate transactions and to regulate the licensing of real estate brokers, salesmen, counsellors, appraisers, and property managers; and to encourage the maintenance of high ethical practices by all such real estate licensees doing business in the State of South Carolina.

I. The South Carolina Real Estate Board will deem any person acting as a real estate broker, salesman, counsellor, appraiser, or property manager in violation of the Real Estate Licensing Act should he commit any one of the following acts:

- B. Making any false promises of a character likely to influence, persuade, or induce.
- C. Pursuing a course of misrepresentation or making of false promises through agents or salesmen.

ticular or in any way misrepresents any property, terms, values, or policies or services of the business conducted.

- E. Acting for more than one party in a transaction without the knowledge of all parties for whom he acts.
- F. Acting in the dual capacity of broker and undisclosed principal in any transaction.
- G. Accepting a commission or valuable consideration as a real estate salesman for the performance of the acts specified in this Act, from any person except the licensed broker by whom he is employed.
- H. Representing or attempting to represent a real estate broker other than the broker by whom he is engaged or associated without the express knowledge and consent of the broker with whom he is associated.
- I. Guaranteeing or authorizing or permitting any person to guarantee future profits which may result from the resale of real property.
- J. Failing, within a reasonable time, to account for and to remit any monies coming into his possession which belong to others.
- K. Paying a commission or compensation to any person for performing the services of a real estate broker or real estate salesman who has not first secured his License under this Act.
- L. Being unworthy or incompetent to act as a real estate broker or salesman in such a manner as to endanger the interest of the public.
- M. For making of dual sets of Sales Contracts, written or otherwise, which would falsify the transaction in an effort to obtain a larger loan from any lender or lending institution, or for the purpose of misinforming any Governmental Agency.
- N. Any other conduct, whether of the same or a different character from that hereinbefore specified, which constitutes improper, fraudulent, or dishonest dealing.

## II.

- A. For the proper and orderly control of the real estate business in South Carolina, every person licensed by the State must be affiliated with a licensed firm, even though that firm be wholly or in part owned by the licensee.
- B. Any person applying for a temporary license who lives within the recognized area of a town or city of more than five thousand persons (U. S. Government 1960 Census), must operate under a licensed office managed by a REGULAR licensee, for the period of time that the new licensee is a temporary licensee. This Regulation is only effective for temporary licensees whose licenses were or will be approved on or after October 1, 1961. Should any applicant wish this section waived, he must submit to the Commissioner in writing his request for such waiver, giving his reason therefor; and, when such request is received, it shall be presented to the South Carolina Real Estate Board by the Commissioner at their next Quarterly Meeting for approval or disapproval. Only the South Carolina Real

Estate Board has the authority to approve or disapprove such requests.

- C. After June 5, 1962, no broker's license applied for shall be issued unless the applicant is 21 years of age; no salesman's license applied for shall be issued unless the applicant is 19 years of age. If a request for waiver of this provision is made to the Commissioner, action on that application must be postponed until the next regular meeting of the Board, at which time the Board will judge the merits of each application.

III.

- A. Any person failing to pass a real estate examination will be allowed an opportunity to take a second examination within thirty (30) days at no additional cost. If he fails to stand the examination within that thirty days, his license is to be automatically revoked. Notice to the Commissioner of intent to retake the examination must be given within five (5) days after notice from the Commissioner that the licensee has failed in his first attempt.

IV.

- A. A Licensee must report to the Commissioner any change of address or any change in employment within ten days after such change and the employing broker must report the termination of said licensee's affiliation with his firm in like manner.

V.

To better determine the qualifications of all applicants for temporary license, it is hereby made a part of these Regulations that all applicants for temporary license, submitting application after June 5, 1962, shall be required to come to the Office of the Commissioner in Columbia, without expense to the Commissioner, for the purpose of a personal interview with the Commissioner. The only exception to the above requirements is in the matter of the sale of liquor to Government instrumentalities where regulatory procedures do not permit immediate payment.

Any wholesale liquor dealer who sets up and/or controls either directly or indirectly a finance company for the purpose, among any others, of lending money to retail liquor dealers to be used in the purchase of liquor and does lend such money shall be deemed to have extended credit in violation of Section 4-72.1 of the 1962 South Carolina Code of Laws, as amended, prohibiting the sale of liquor on credit.

The tax credit, with respect to the qualified investment in certain depreciable property described in Section 38 of the Internal Revenue Code,

as Amended in 1962, permitted on Federal Tax Returns will not be allowed on South Carolina Tax Returns.

In order that a taxpayer may use one depreciation schedule for both Federal and State Tax purposes, such taxpayer may elect to adjust the original basis of the asset for State Tax purposes by an amount equal to the reduction in basis required for Federal purposes. This adjustment of the basis:

- (a) Must be made before the depreciation deduction otherwise allowable is determined;

This action is based on the following finding of fact made by the Authority after consideration of the transcript of public hearing held by the South Carolina Water Pollution Control Authority in Jefferson, South Carolina, May 20, 1963:

1. THAT Lynches River in Chesterfield County from the South Carolina-North Carolina State Line down to South Carolina Highway No. 265 is presently classified as Class C.
2. THAT the City of Jefferson has requested the use of this stream as a source of water supply, this requiring a Class B classification.
3. THAT there was no opposition voiced to the reclassification of this stream as Class B at the public hearing.
4. THAT based on these facts, we therefore find the proper classification of Lynches River in Chesterfield County, from the South Carolina-North Carolina State Line down to South Carolina Highway No. 265 to be Class B.

(This supersedes the classification applied to this portion of Lynches River, Chesterfield County, adopted May 23, 1956, and filed with the Secretary of State, June 8, 1956.)

(Filed in the office of the Secretary of State July 12, 1963)

(The public hearing as required by law prior to the classification and/or reclassification of streams was held in Conway, South Carolina, May 17, 1963.

This action is based on the following findings of fact made by the Authority after consideration of the transcript of public hearing held by the South Carolina Water Pollution Control Authority in Conway, South Carolina, May 17, 1963:

1. THAT Schewbough Branch is presently unclassified.
2. THAT its condition at the present time can be sufficiently improved by known and feasible methods of waste treatment so that it can meet Class C-Swamp standards.
3. THAT there have been numerous complaints from residents in the vicinity of this stream about its condition.
4. THAT there have been complaints from North Carolina concerning conditions within this stream in the State of South Carolina which create nuisance conditions in North Carolina.
5. THAT based on these facts, we therefore find the proper classification of Schewbough Branch in Horry County to be Class C-Swamp.

**WILDLIFE RESOURCES COMMISSION****Division of Boating**

Promulgated under authority of Section 70-295.2(3) of the 1962 Code

**Boating Act**

(South Carolina Flotation and Serial Number—Regulations to Implement Section 5 of the South Carolina Boating Act As Amended.)

Revised as of June 1, 1962

(Filed in the office of the Secretary of State July 2, 1962)

These regulations supersede regulations filed in the office of the Secretary of State March 30, 1962.

**FLOTATION****Law**

No vessel not already in the hands of a dealer may be sold or offered for sale by any person in this State after January 1, 1962, other than a vessel constructed of wood, which does not meet the requirements for flotation as set forth by the Boating Division of the Wildlife Resources Department, nor shall any such vessel not meeting these flotation requirements be registered or numbered by the South Carolina Division of Boating except vessels purchased, acquired, registered and numbered prior to January 1, 1962.

**Definition**

"Vessel" means every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water.

**Vessels Not Required to Have Flotation Material**

- (1) Vessels constructed of wood.
- (2) Inboard vessels or Inboard-Outboard vessels propelled by 4-cycle engines.
- (3) Any vessel entirely dependent upon pontoons to remain afloat.
- (4) Vessels having a center line measurement of 21 feet and over.

**Flotation Specifications**

(1) For purposes of the statute, flotation is defined as that quantity of flotation material which will keep a boat from sinking when it is filled with water and passengers are clinging to it, providing that the aggregate weight of motor, passengers and equipment carried in or attached to the boat does not exceed the boat's maximum weight capacity, as determined by the maximum weight capacity formula set forth in Appendix A.

The quantity of flotation material shall be determined from the boat flotation formula set forth in Appendix B.

(2) Compliance with either the South Carolina Boating Division's flotation requirements as set forth in Appendices A and B, or with the Outboard Boating Club of America's recommendations for flotation in their

Engineering Manual will suffice for purposes of this law. Recognizing that flotation is subject to change in the face of advances in technology and product design, the South Carolina Boating Division stipulates that the flotation specifications set forth in these regulations and Appendices are subject to change.

#### **Display of Certification of Flotation**

(1) As of January 1, 1962, all newly constructed vessels to be offered for sale in South Carolina and not already in the hands of dealers must have attached thereto, by the manufacturer or distributor, one of the following certifications:

- A. This boat meets flotation requirements prescribed by the South Carolina Division of Boating.
- B. (1) This boat meets recommendations for flotation as set forth in the Outboard Boating Club of America's current Engineering Manual or (2) This boat meets recommendations for flotation as set forth in the Outboard Boating Club of America's Engineering Manual.
- C. This boat has been constructed in compliance with the flotation requirements prescribed by the Boating Division, South Carolina Wildlife Resources Department.
- D. The following wording to be included on Outboard Boating Club of America's Capacity Plate: This boat provides flotation as recommended by the Outboard Boating Club of America.

(2) The method of attaching the manufacturer's or distributor's certification to a vessel shall be optional so long as the certification is affixed in a manner so as to be not readily removable or alterable and non-transferrable.

(3) No one place for displaying certification on a vessel is specified, but the certification shall be plainly visible and accessible to reasonable inspection.

### **SERIAL NUMBERS**

#### **Law**

No newly constructed vessel, other than a vessel constructed of wood, shall be sold in this State after January 1, 1962, unless the serial number is clearly imprinted in the stern transom. If the manufacturer selects another location on the hull, the Division of Boating must be notified by the manufacturer as to such location.

#### **Definition**

"Vessel" means every description of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water.

#### **Vessels Not Required to Have Serial Numbers**

Vessels constructed entirely of wood.

**Display of Serial Numbers**

Serial numbers shall be clearly imprinted in the stern transom or on the hull by stamping, impressing, or marking with pressure. In lieu of imprinting, the serial number may be displayed on a plate in a permanent manner. If the serial number is displayed in a location other than the stern transom, the Division of Boating must be notified by the manufacturer as to such location. No person, firm, association or corporation shall destroy, remove, alter, cover, or deface the manufacturer's serial number, or plate bearing such serial number, from any vessel as defined herein.

**APPENDIX A****Boat Weight Capacity  
Instructions**

The figures to be inserted in the blanks are to be taken from the Boat Interior Dimension drawing, to which the letters under the blank spaces refer. All dimensions must be converted to decimal numbers before insertion in the formula. Table I converts inches and eighths of inches to the decimal equivalents in feet.

Certain maximums have been established for the height of a transverse section, and these heights, to be used for the computation of square feet of a transverse section, are shown in Table II. (See Dimensions drawing and Tables I and II on page 4.)

**STEP 1:** Enter the appropriate measurements for a particular section. Compute the square feet for the three transverse sections as specified.

The maximum allowable height (H) is based on width (a) for that section on the Interior Dimensions. If the actual height of the section is less than the maximum allowable height, use the actual height. If the actual height of the section is more than the maximum allowable height, use the maximum allowable height.

**STEP 2:** From Step 1 enter the computed square feet for Sections A, B, and C in the formula.

A—Square Feet for Section A

B—Square Feet for Section B

C—Square Feet for Section C

Take the figure for length (L) from Boat Interior Dimensions drawing.

**STEP 3.** From Step 2 enter the computed cubic feet of the boat and multiply it by 12.5 as shown in the formula to determine the Maximum Weight Capacity, including people, motor and gear.

BOAT INTERIOR DIMENSIONS

TRANSVERSE SECTIONS (A, B and C) are taken at three points obtained by dividing length (L) into four equal parts. HORIZONTAL BREADTHS (a, b, c, d, and e) are secured by measuring at upper and lower

points of the height (H) and at three points selected by dividing (H) into four equal parts. MEASUREMENTS are taken inside planking or plating and recorded in feet with decimal equivalents for inches and eighths.

WEIGHT CAPACITY FORMULA WORK SHEET

## STEP 1: COMPUTE AREAS OF SECTIONS

Formula:  $\text{Area} = \frac{H}{12} (a + 4b + 2c + 4d + e)$

Note: For maximum allowable height (H) in any section, check table II in instructions.

## Area A-Section Quarter Length Forward:

$$A = \left( \frac{\quad}{12} \right) \left[ \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + 2 \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + \left( \frac{\quad}{\quad} \right) \right]$$

$\quad \quad \quad a \quad \quad \quad b \quad \quad \quad c \quad \quad \quad d \quad \quad \quad e$

A = \_\_\_\_\_ square feet (two decimal places)

## Area B-Section Amidships:

$$B = \left( \frac{\quad}{12} \right) \left[ \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + 2 \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + \left( \frac{\quad}{\quad} \right) \right]$$

$\quad \quad \quad a \quad \quad \quad b \quad \quad \quad c \quad \quad \quad d \quad \quad \quad e$

B = \_\_\_\_\_ square feet (two decimal places)

## Area C-Section Quarter Length Aft:

$$C = \left( \frac{\quad}{12} \right) \left[ \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + 2 \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) + \left( \frac{\quad}{\quad} \right) \right]$$

$\quad \quad \quad a \quad \quad \quad b \quad \quad \quad c \quad \quad \quad d \quad \quad \quad e$

C = \_\_\_\_\_ square feet (two decimal places)

## STEP 2: COMPUTE CUBIC CAPACITY

Formula:

$$\text{Cubic Capacity of Hull} = \frac{L}{12} (4A + 2B + 4C)$$

$$\text{Cubic Capacity} = \left( \frac{\quad}{12} \right) \left[ 4 \left( \frac{\quad}{\quad} \right) + 2 \left( \frac{\quad}{\quad} \right) + 4 \left( \frac{\quad}{\quad} \right) \right]$$

$\quad \quad \quad A \quad \quad \quad B \quad \quad \quad C$

Cubic Capacity = \_\_\_\_\_ cubic feet (one decimal place)

## STEP 3: COMPUTE MAXIMUM WEIGHT CAPACITY

Formula: Maximum Weight Capacity = Cubic Capacity X 12.5 lbs.  
per cubic ft.

Maximum Weight Capacity = \_\_\_\_\_ X 12.5

Maximum Weight Capacity = \_\_\_\_\_ pounds (nearest whole number)

APPENDIX B

BOAT FLOTATION FORMULA

STEP 1: Determine the submerged weight of boat ( $W_s$ ) \* (See footnotes)

$$\text{FORMULA: } W_s = W_h K_1 + W_d K_2 + .69 W_e$$

where  $W_h$  = dry weight of hull

$W_d$  = dry weight of deck and superstructure

$W_e$  = dry weight of factory installed equipment,  
hardware, and accessories.

$K_1$  and  $K_2$  = conversion factors for materials  
used from Table I.

$$W_s = ( \quad ) ( \quad ) + ( \quad ) ( \quad ) + .69 ( \quad )$$

$$W_s = ( \quad ) + ( \quad ) + ( \quad )$$

$$W_s = \underline{\hspace{2cm}} \text{ pounds (nearest whole number)}$$

STEP 2: Determine the submerged weight of engine, related equipment,  
and loose gear. (G)

Locate in TABLE II the maximum OBC boat horsepower capacity and record the  
total submerged weight

$$G = \underline{\hspace{2cm}} \text{ pounds (nearest whole number)}$$

STEP 3: Determine the dry weight of live load (C)

$$\text{FORMULA: } C = \text{OBC BOAT WEIGHT CAPACITY} - \text{TOTAL DRY WEIGHT (TABLE II)}$$

Subtract the total dry weight of motor, related equipment, and  
loose gear as shown in TABLE II from the OBC Boat Weight Capacity

$$C = ( \quad ) - ( \quad )$$

$$C = \underline{\hspace{2cm}} \text{ pounds (nearest whole number)}$$

STEP 4: Determine pounds of flotation required (W)

$$\text{FORMULA: } W = W_s (\text{Step 1.}) + G (\text{Step 2.}) + .1 C (\text{Step 3.})$$

$$W = ( \quad ) + ( \quad ) + .1 \times ( \quad )$$

$$W = \underline{\hspace{2cm}} \text{ pounds (nearest whole number)}$$

STEP 5: Determine the cubic feet of flotation material needed (F)

$$\text{FORMULA: } F = \frac{W}{B}$$

where  $W$  = pounds of flotation required (Step 4.)

$B$  = Buoyancy of flotation material to be used in pounds per cubic foot.  
(ONE decimal place) \*\* (See footnotes)

$$F = ( \quad ) \div ( \quad )$$

$$F = \underline{\hspace{2cm}} \text{ cubic feet (one decimal place)}$$

\* The formula for determining  $W_s$  may be amplified for greater accuracy by a boat builder using several different materials in the construction of a boat. Parts made of each material are weighted and the weight multiplied by the conversion factor for the material used. The formula given above for  $W_s$  will yield an approximate submerged weight, accurate enough in nearly all cases for use in determining the pounds of flotation needed.

\*\* If air chambers are used for flotation,  $B$  will be 62.4, which is the weight of a cubic foot of fresh water.

If other flotation materials are used,  $B$  will equal 62.4 minus the weight of one cubic foot of the material used, less appropriate allowances for absorption and adsorption characteristics.

1. Water skiing is banned on the Hartwell Reservoir between the Southern Railway crossing on the North and the Carolina Northwestern crossing on the South, lying west of the main campus of Clemson College.

2. Signs will be posted in the area, stating, to wit: "No water skiing in this area by order of the South Carolina Wildlife Resources Department, Division of Boating."

3. Except as modified or changed hereby, all prevailing laws, rules and regulations shall remain in full force and effect over all waters lying within the area.

#### **DISPLAY OF DECALS ON BOATS**

(Filed in the office of the Secretary of State May 13, 1963)

The following rule and regulation concerning the requirement that a Decal be displayed on each side of the bow of a boat was adopted May 13, 1963.

1. The Decals issued by the South Carolina Wildlife Resources Department, Division of Boating, when a certificate of number is renewed must be attached to each side of the bow of the boat.

2. The licensees are to be furnished such instructions when their boats are re-registered.

3. A number in full force and effect must be displayed on each side of the bow of the boat. The Decals furnished on re-registration become a part of the original number issued to the registrant and without them being displayed the boat does not comply with Section 70-295.21, which requires a number in full force and effect to be displayed on the boat.

4. Except as modified or changed hereby, all prevailing laws, rules and regulations concerning boating in South Carolina, shall remain in full force and effect.

#### **DIVISION OF COMMERCIAL FISHERIES**

Promulgated under authority of Section 28-174 of the 1962 Code

(Filed in the office of the Secretary of State March 5, 1963)

##### **Operation of Crab Pots**

Every crab pot or float or buoy shall be marked with the license number issued by the Division.

No crab pot or trap shall be placed in any stream, creek or river within 100 yards of a public boat ramp or launching area.

No crab pot or trap shall be so set as to be left dry at low water.

No glass bottles, jugs or metal cans shall be used as floats or buoys for crab traps or pots.

Any crab trap or pot found in violation of these regulations shall be confiscated by the Division of Commercial Fisheries.

#### **DIVISION OF GAME**

Promulgated under authority of Section 28-334.2 of the 1962 Code

1. Turkeys may be killed with shotgun or rifle in Union, Newberry and Laurens Counties April 10-13, inclusive; in McCormick and Edgefield Counties April 3-6 and April 10-13, all dates inclusive; in Chester County west of the Leeds Tower Road on the Broad River Game Management Area only, April 10-13, inclusive.

2. All hunters must secure a free permit at a designated check station located on the Management Area to be hunted.

3. The permit must be carried on the person of the hunter at all times while hunting.

4. All permits are to be returned to the check station by the hunters at the end of the hunt period or as soon as the hunter has finished hunting or has bagged the legal limit.

5. Bag limit: 1 gobbler during 1963. All gobblers must have visible beards.

6. All bagged game must be shown at check station.

7. Hunters must have landowner's permission to hunt on private land.

8. Vehicles or person may be searched for game during the hunt period.
